

STATE OF MICHIGAN
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES

ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF: [REDACTED],
Claimant

Reg. No: 2007-13952
Issue No: 2009; 4031
Case No: [REDACTED]
Load No: [REDACTED]
Hearing Date:
November 27, 2007
Eaton County DHS

ADMINISTRATIVE LAW JUDGE: Janice Spodarek

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9; and MCL 400.37 upon claimant's request for a hearing. After due notice, an in-person hearing was held. Claimant was represented at the administrative hearing by [REDACTED] with [REDACTED].

ISSUE

Did the Department of Human Services (DHS) properly deny claimant's Medical Assistance (MA-P) and State Disability Assistance (SDA) application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) On 1/26/07, claimant applied for MA-P; on 5/8/07 claimant for SDA with the Michigan DHS.
- (2) Claimant applied for three months of retro MA.
- (3) On 3/23/07, the MRT denied.

(4) On 3/30/07, the DHS issued notice.

(5) On 4/4/07, claimant filed a hearing request.

(6) Claimant has an SSI application pending with the Social Security Administration (SSA). It appears from a 2/10/2010 verification from DDS regarding the status of claimant's Social Security application that he currently has an application pending. That application appears to have been filed after the concurrent application with the DHS--date of filing with Social Security 7/24/08. Claimant had a prior filing on 2/20/07 with SSA which was denied. A review of the testimony on the record at the administrative hearing does not indicate that claimant was alleging the same impairments and thus, jurisdiction is proper.

(7) On 9/11/07 the State Hearing Review Team (SHRT) denied claimant. Pursuant to claimant's request to hold the record open for the submission of new and additional medical documentation, on 3/26/09 SHRT once again denied claimant.

(8) The undersigned Administrative Law Judge was on an extended leave from 8/1/08, returning full time 2/1/09. None of the ALJ's pending cases were reassigned while on leave; no protected time afforded before or after leave for issuing decisions.

(9) As of the date of application, claimant was a 40-year-old male standing 5'6" tall and weighing 130 pounds. He has a high school diploma.

(10) Claimant does have an alcohol problem. Claimant testified he consumes approximately a six-pack of beer per day. Claimant testified he has no alcohol abuse history, and/or drug problems or history.

(11) Claimant has a driver's license and can drive a motor vehicle.

(12) Claimant is not currently working. Claimant last worked in 11/20/06 in commercial roofing. Claimant's work history is painting, roofing. Claimant's work history is semi-skilled.

(13) Claimant alleges disability on the basis of diskectomy, chronic back pain due to ongoing issues, fatigue.

(14) Claimant underwent an L5-S1 diskectomy on the left, an exploration of L4 and L5 nerve roots, left with medial facetectomy at L4-L5 on 5/8/07.

(15) On 7/11/07 [REDACTED] indicated that he did not anticipate that claimant would be to work in the near future and "have put him off indefinitely until he has the ability to proceed with the pain clinic evaluation and likely injections." The physician goes on to note that claimant indicated to the physician that he could not proceed with the pain clinic due to no insurance but that the physician indicated "I informed him that he needs to find another way, whether it is Medicaid or some other modality that he would be able to proceed with further intervention". Claimant Exhibit A.

(16) A separate independent evaluation by the DHS on June 16, 2008 indicates chronic back pain, with two surgeries followed by continued back pain. The physician notes that he did not find any continuing radiculopathy on exam.

(17) Claimant's treating physician is given greater weight under the Federal Rules.

(18) Claimant was a credible witness.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or

department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Statutory authority for the SDA program states in part:

- (b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months....
20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application claimant has the burden of proof pursuant to:

...You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

...Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as sure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) **Signs** are anatomical, physiological, or psychological abnormalities which can be observed, apart from your statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques. Psychiatric signs are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or perception. They must also be shown by observable facts that can be medically described and evaluated.
- (c) **Laboratory findings** are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.), roentgenological studies (X-rays), and psychological tests. 20 CFR 416.928.

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and

- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e).

...You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques.... 20 CFR 416.927(a)(1).

Applying the sequential analysis herein, claimant is not ineligible at the first step as claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard. Ruling any ambiguities in claimant's favor, this Administrative Law Judge (ALJ) finds that claimant meets both. The analysis continues.

The third step of the analysis looks at whether an individual meets or equals one of the Listings of Impairments. 20 CFR 416.920(d). Claimant does not. The analysis continues.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by claimant in the past. 20 CFR 416.920(f).

In this case, this ALJ finds that claimant cannot return to past relevant work on the basis of the medical evidence. The analysis continues.

The fifth and final step of the analysis applies the biographical data of the applicant to the Medical Vocational Grids to determine the residual functional capacity of the applicant to do other work. 20 CFR 416.920(g). After a careful review of the credible and substantial evidence

on the whole record, this Administrative Law Judge finds that claimant cannot do a full range of sedentary work pursuant to Medical Vocational Grid Rule footnote 201.00(h):

Specifically, a review of claimant's extensive medical record and the Administrative Law Judge's personal interaction with claimant at the hearing, this Administrative Law Judge finds that claimant's exertional and non-exertional impairments render claimant unable to engage in a full range of even sedentary work activities on a regular and continuing basis. 20 CFR 404, Subpart P. Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986). The department has failed to provide vocational evidence which establishes that claimant has the residual functional capacity for substantial gainful activity and that, given claimant's age, education, and work experience, there are significant numbers of jobs in the national economy which the claimant could perform despite claimant's limitations. Accordingly, this Administrative Law Judge concludes that claimant is disabled for purposes of the MA program.

It is noted that claimant cannot afford to undergo recommended treatment by his primary physician who indicated claimant needs to find some way in order to get the treatment or else he will remain to be disabled pursuant to the June 16, 2008 letter. Under this doctor's assessment, there is case law which plays a significant role. Specifically, the 6th Circuit has held that where an individual needs treatment and cannot afford the treatment, a severe or disabling impairment continues to be severe or disabling. *McKnight v Sullivan, Secretary of Health and Human Services*, 927 Fed Report 2d 241, December 1990.

For these reasons, and for the reasons stated above, statutory disability is shown for both the MA and SDA programs.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department's actions were incorrect.

Accordingly, the department's determination in this matter is REVERSED.

The department is ORDERED to make a determination if claimant meets the non-medical criteria for MA and SDA. If so, the department is ORDERED to open an MA and SDA case from the dates of application—for MA 1/26/07; for SDA 5/8/07 and issue supplemental benefits to claimant. The department is ORDERED to review this case in accordance with its usual policy and procedure.

Administrative Law Judge
for Ismael Ahmed, Director
Department of Human Services

Date Signed: March 5, 2010

Date Mailed: March 8, 2010

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the mailing date of the rehearing decision.
