Whether the Department of Human Services (Department) properly determined that the Claimant is not "disabled" for purposes of the Medical Assistance (MA) program and State Disability Assistance (SDA)?

1. On December 11, 2007, the Claimant applied for MA-P and SDA.
2. MRT denied Claimant's request.

5. The Claimant has 10th grade education.
6. The Claimant suffers from epilepsy, chest pain, and musculoskeletal pain.
7. The Claimant testified to suffering with the following symptoms: daily headaches and back pain. The Claimant last had a seizure in 2006.
8. The Claimant's limitations have lasted for 12 months or more.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (formerly known as the Family Independence Agency) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 R 416.901). The Department, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses.

The law defines disability as the inability to do substantial gainful activity (SGA) by reason of any medically determinable physical or mental impairment which can be expected to

result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. (20 CFR 416.905).

Because disability must be determined on the basis of medical evidence, Federal regulations have delineated a set order entailing a step sequential process for evaluating physical or mental impairments. When claimant is found either disabled or not disabled at any point in the process, the claimant is not considered further.

Addressing the following factors:

The first factor to be consider is whether the Claimant can perform Substantial Gainful Activity (SGA) defined in 20 CFR 416.920(b). In this case, the Claimant is not working. Therefore, the Claimant is not disqualified at this step in the evaluation.

The second step to be determined in considering whether the Claimant is considered disabled is whether the severity of the impairment. In order to qualify the impairment must be considered severe which is defined as an impairment which significantly limits an individual's physical or mental ability to perform basic work activities. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, reaching carrying or handling;
2. Capacities for seeing, hearing, and speaking;
3. Understanding, carrying out, and remembering simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers and usual work situations;
and
6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Claimant has been diagnosed with a seizure disorder. Claimant has established that he has an impairment. But, claimant has not met his burden of proof that he has an impairment that is severe or significantly limits his physical or mental ability to perform basic work activities necessary for most jobs. See Social Security Ruling 85-15, which provides that a person with a seizure disorder who is restricted only from working around heights and near dangerous machinery does not have a non-exertional impairment that would significantly affect his ability to work. The evidence has failed to support claimant's position that he is incapable of basic work activities. See 20 CFR 416.927. However, this Administrative Law Judge will continue with the next step.

A physician who examined the Claimant on [REDACTED] indicated no limitations. On [REDACTED], a consultative exam was obtained and indicated the Claimant could lift up to 25lbs on a frequent basis and stand/walk about 6 hours in an 8 hour day and sit for about 6 hours in an 8 hour day, no other limitations were found.

In the third step of the analysis, the trier of fact must determine if the Claimant's impairment (or combination of impairments) is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. This Administrative Law Judge finds that the Claimant's medical records does not support a finding that the Claimant's impairment(s) is a "listed impairment" or equal to a listed impairment. See Appendix 1 of Subpart P of 20 CFR Part 404, Part A.

The person claiming a physical or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for a recovery and/or medical assessment of ability to do work-related activities or ability to reason and to make appropriate mental adjustments, if a mental disability is being alleged. 20 CFR 416.913. A conclusory statement by

a physician or mental health professional that an individual is disabled or blind is not sufficient, without supporting medical evidence, to establish disability. 20 CFR 416.927.

The fourth step of the analysis to be considered is whether the Claimant has the ability to perform work previously performed by the Claimant within the past 15 years. The trier of fact must determine whether the impairment(s) presented prevent the Claimant from doing past relevant work. In the present case, the Claimant's past employment was a high low driver, machine operator and temporary unskilled jobs for a temp agency. The Claimant may have some difficulty based upon his epilepsy condition as far performing jobs with machines. However, the Claimant should be more than able to perform the duties found in simple unskilled employment of the variety; he has at least 7 years experience performing for a temporary employment agency. Therefore, the Claimant is not disabled and is capable of performing past relevant work.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 1939 PA 280, as amended. The Department of Human Services (formerly known as the Family Independence Agency) administers the SDA program pursuant to MCL 400.1 et seq., and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

A person is considered disabled for purposes of SDA if the person has a physical or mental impairment which meets federal SSI disability standards for at least ninety days. Receipt of SSI or RSDI benefits based on disability or blindness or the receipt of MA benefits based on disability or blindness (MA-P) automatically qualifies an individual as disabled for purposes of the SDA program. Other specific financial and non-financial eligibility criteria are found in PEM 261. Based upon the above findings, the Claimant is not disabled for purposes of SDA.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the Claimant is not disabled.

Accordingly, the Department decision is hereby UPHELD.
