

STATE OF MICHIGAN
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES

ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF: [REDACTED],
Claimant

Reg. No: 2008-26942
Issue No: 2009/4031
Case No: [REDACTED]
Load No: [REDACTED]
Hearing Date:
November 19, 2008
Macomb County DHS

ADMINISTRATIVE LAW JUDGE: Jana A. Bachman

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9; and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on November 19, 2008. Claimant was not represented at hearing. Post hearing, claimant authorized [REDACTED]

ISSUE

Whether the Department of Human Services (department) properly determined that claimant has not established disability for Medical Assistance (MA) and State Disability Assistance (SDA).

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) April 2, 2008, claimant applied for MA and SDA.

(2) July 10, 2008, the Medical Review Team (MRT) denied claimant's application.

Department Exhibit A.

(3) July 16, 2008, the department sent claimant written notice that the application was denied. Department Exhibit C.

(4) July 28, 2008, the department received claimant's timely request for hearing.

(5) August 13, 2008, the State Hearing Review Team (SHRT) denied claimant's application. Department Exhibit B.

(6) November 19, 2008, the telephone hearing was held. Prior to the close of the record, claimant requested the record be extended for additional medical evidence. Claimant waived the right to a timely hearing decision. April 21, 2009, after review of all medical evidence, the SHRT again denied claimant's application. SHRT Decision, 4-21-09.

(7) Claimant asserts disability based on impairments caused by degenerative joint disease, depression, and post traumatic stress disorder.

(8) Claimant testified at hearing. She is 47 years old, 5'10" tall, and weighs 213 pounds. Claimant completed high school and has training as a nurse assistant. Claimant is able to read, write, and perform basic math. Claimant has a driver's license but does not drive due to inability to move her foot from the gas to the brake. Claimant cares for her needs at home.

(9) Claimant's past relevant employment has been as a nurse assistant and deli manager.

(10) November 1, 2008, claimant underwent a psychiatric evaluation and a narrative report was prepared. AXIS I indicates a diagnoses of major depression recurrent. GAF is assessed at 60. Claimant appeared anxious, worried and depressed. She was tearful. Affect was depressed, but with no evidence of psychosis. Speech was goal directed. Memory appeared intact

but a little slow. Insight was fair. Judgment was not impaired. Claimant was alert and oriented x 3. Gait was normal and steady with some limp appeared on the right side. Claimant Exhibit A, pgs 2-4. Treatment notes dated through October 2008 indicate similar findings. Claimant Exhibit A, pgs 5-25.

(11) December 16, 2008, claimant underwent x-rays of the cervical spine that revealed mild narrowing of the disc space from C5 to C7 associated with mild degenerative changes. That same date claimant underwent x-rays of bilateral hips and pelvis that revealed moderately advanced degenerative changes in the right and left hip joint. Lumbar spinal x-rays revealed normal lumbar spine. Claimant Exhibit A, pg 26.

(12) June 18, 2008, claimant underwent an independent physical examination and a narrative report was prepared that indicates in pertinent part the following: marked varicose veins on the left lower extremity extending from the upper thigh to the mid thigh. The rest of the physical exam was within normal limits. Range of motion testing revealed normal range of motion on all joints. Department Exhibit A, pgs 7-14.

(13) June 2, 2008, claimant underwent an independent psychiatric evaluation and a narrative report was prepared that indicates an AXIS I diagnoses of adjustment disorder with anxiety. GAF was assessed at 48 to 50. At exam, claimant's posture and gait were normal. She maintained good eye contact but became tearful during session. Claimant appeared in touch with reality and was not responding to internal stimuli. Self esteem is low. Psychomotor activity is normal. Thought process was well organized and easy to follow. Speech was spontaneous, logical, well organized, and goal directed. Patient denied visual and auditory hallucinations, command hallucinations, delusions of control, persecutory delusions, ideas of reference, thought insertion or broadcasting, obsessions; suicidal and homicidal ideation or plans. She feels

helpless, admitted to sleep disturbance, and denied weight loss. Mood is anxious and affect is labile but appropriate. Claimant is oriented x 3. Memory, fund of knowledge, calculation, abstract thinking, and judgment appeared within normal limits. Department Exhibit A, pgs 16-18.

(14) October 1, 2007, claimant underwent stress and resting echocardiogram that revealed below average exercise tolerance; maximal exercise test is equivocal for ischemia by electrocardiographic criteria; technically difficult stress echocardiograph study with no gross wall motion abnormalities. Department Exhibit A, pgs 35-37. October 1, 2007, claimant underwent carotid ultrasound that revealed a normal study. Department Exhibit A, pg 37.

(15) December 28, 2007, claimant presented to hospital complaining of dizziness. CT scan of the brain revealed a normal CT scan. Ultrasound of the kidneys revealed a normal ultrasound. MRI of the brain revealed a normal MRI. Claimant was discharged on 12-29-07. Department Exhibit A, pgs 44-65.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

If an individual fails to cooperate by appearing for a physical or mental examination by a certain date without good cause, there will not be a finding of disability. 20 CFR 416.994(b)(4)(ii).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and so is not disqualified from receiving disability at Step 1.

At Step 2, the objective medical evidence of record indicates that claimant has degenerative changes in her hips bilaterally and mild narrowing with mild degenerative changes from C5 to C7. Claimant has full range of motion in all joints, intact sensation, and intact strength. Claimant was able to perform all orthopedic maneuvers. Claimant has been diagnosed with depression. Chief symptoms are anxiety, worry, and tearfulness. Cognitive functions appear to be within normal limits. Claimant's GAF has ranged from 48 in October 2008 to 60 in November 2008. Finding of Fact 10-15.

At Step 2, the objective medical evidence of record is not sufficient to establish that claimant has severe impairments that have lasted or are expected to last 12 months or more and prevent employment at any job for 12 months or more. Therefore, claimant is disqualified from receiving disability at Step 2.

At Step 3, claimant's impairments do not rise to the level necessary to be specifically disabling by law.

At Step 4, claimant's past relevant employment has been as a nurse assistant and deli manager. See discussion at Step 2 above. Finding of Fact 9-15.

At Step 4, the objective medical evidence of record is not sufficient to establish that claimant has functional impairments that prevent claimant for a period of 12 months or more from engaging in a full range of duties required by claimant's past relevant employment. Therefore, claimant is disqualified from receiving disability at Step 4.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the

national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the Dictionary of Occupational Titles, published by the Department of Labor.... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Medium work. Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. If someone can do medium work, we determine that he or she can also do sedentary and light work. 20 CFR 416.967(c).

Heavy work. Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of objects weighing up to 50 pounds. If someone can do heavy work, we determine that he or she can also do medium, light, and sedentary work. 20 CFR 416.967(d).

At Step 5, see discussion at Step 2 above. Finding of Fact 10-15.

At Step 5, the objective medical evidence of record is sufficient to establish that claimant retains the residual functional capacity to perform at least light work activities. Considering claimant's Vocational Profile (younger individual, high school education, and history of unskilled work) and relying on Vocational Rule 202.20, claimant is not disabled.

Claimant does not meet the federal statutory requirements to qualify for disability. Therefore, claimant does not qualify for Medical Assistance based on disability and the department properly denied claimant's application.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

2004 PA 344, Sec. 604, establishes the State Disability Assistance program. It reads in part:

Sec. 604 (1) The department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempt from the Supplemental Security Income citizenship requirement who are at least 18 years of age or emancipated minors meeting one or more of the following requirements:

- (a) Recipient of Supplemental Security Income, Social Security or Medical Assistance due to disability or 65 years of age or older.
- (b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

- (c) A resident of an adult foster care facility, a home for the aged, a county infirmary, or a substance abuse treatment center.
 - (d) A person receiving 30-day post-residential substance abuse treatment.
 - (e) A person diagnosed as having Acquired Immunodeficiency syndrome (AIDs).
 - (f) A person receiving special education services through the local intermediate school district.
 - (g) A caretaker of a disabled person as defined in subdivision (a), (b), (e), or (f) above.
- (2) Applicants for and recipients of the State Disability Assistance program shall be considered needy if they:
- (a) Meet the same asset test as is applied to applicants for the Family Independence Program.
 - (b) Have a monthly budgetable income that is less than the payment standard.
- (3) Except for a person described in subsection (1)(c) or (d), a person is not disabled for purposes of this section if his or her drug addiction or alcoholism is a contributing factor material to the determination of disability. 'Material to the determination of disability' means that, if the person stopped using drugs or alcohol, his or her remaining physical or mental limitations would not be disabling. If his or her remaining physical or mental limitations would be disabling, then the drug addiction or alcoholism is not material to the determination of disability and the person may receive State Disability Assistance. Such a person must actively participate in a substance abuse treatment program, and the assistance must be paid to a third party or through vendor payments. For purposes of this section, substance abuse treatment includes receipt of inpatient or outpatient services or participation in Alcoholics Anonymous or a similar program. 1995 PA 156, Sec. 605.
- (4) A refugee or asylee who loses his or her eligibility for the federal Supplemental Security Income program by virtue of exceeding the maximum time limit for eligibility as

delineated in Section 402 of Title IV of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Public Law 104-193, 8 U.S.C. 1612, and who otherwise meets the eligibility criteria under this section shall be eligible to receive benefits under the State Disability Assistance program.

After careful examination of the record and for reasons discussed at Steps 2-5 above, the Administrative Law Judge decides that claimant does not have severe impairments that prevent work for 90 days or more. Therefore, claimant does not qualify for SDA based on disability and the department properly denied the application.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that claimant has not established disability for Medical Assistance and State Disability Assistance.

Accordingly, the department's action is, hereby, UPHELD.
