STATE OF MICHIGAN STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES

ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

Claimant

Reg. No:2009-11119Issue No:2009/4031Case No:1000Load No:1000Hearing Date:1000February 18, 20091000Tuscola County DHS

ADMINISTRATIVE LAW JUDGE: Marlene B. Magyar

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, an in-person hearing was held on February 18, 2009. Claimant personally appeared and testified.

<u>ISSUE</u>

Did the department properly deny claimant's July 11, 2008 Medicaid (MA) and State

Disability Assistance (SDA) application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

(1) On July 11, 2008, claimant filed an MA/SDA application which the Michigan Department of Human Services (DHS) denied, based on a finding her impairments did not rise to the level necessary to be deemed disabling under the governing regulations.

2009-11119/mbm

(2) Prior to that filing, claimant also applied for federal

benefits alleging impairments identical to those alleged on her DHS application.

(3) Per claimant's hearing testimony, the

denied claimant's application and claimant pursued the matter no further (i. e., she failed to

appeal the denial).

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Jurisdiction must be established for a contested case review of departmental action before a decision on the merits of the case can be made. The applicable departmental policy states:

Final SSI Disability Determination

SSA's determination that disability or blindness does **not** exist for SSI purposes is **final** for MA if:

- . The determination was made after 1/1/90, and
- No further appeals may be made at SSA, or

- The client failed to file an appeal at any step within SSA's 60-day limit, **and**
 - The client is **not** claiming:
 - .. A totally different disabling condition than the condition SSA based its determination on, **or**
 - .. An additional impairment(s) or change or deterioration in his condition that SSA has **not** made a determination on.

Eligibility for MA based on disability or blindness does **not** exist once SSA's determination is **final**. PEM, Item 260, pp. 2-3.

This policy is also applied in SDA cases, because the MA, SDA and Social Security

disability definitions are identical, except for a shorter durational period for SDA (90 days).

The relevant federal regulations are found at 42 CFR Part 435. These regulations provide: "An SSA disability determination is binding on an agency until that determination is changed by the SSA." 42 CFR 435.541(a)(2)(b)(i). This regulation also provides: "If the SSA determination is changed, the new determination is also binding on the department." 42 CFR 435.541(a)(2)(b)(ii). These federal mandates have been incorporated in the department's policy

at PEM Item 260.

The evidence of record in this verifies claimant received a final determination in Claimant is now alleging impairments identical to those the **second** has already reviewed. Consequently, under the above-cited federal regulations and state policy, no jurisdiction exists for this Administrative Law Judge to proceed on the merits of this case. The status quo must remain intact. The department's action must remain upheld. In closing, this Administrative Law Judge notes claimant would not have prevailed on the merits, even if a full analysis was required.

Michigan administers the federal MA program. In assessing eligibility, Michigan defers to the federal guidelines. These federal guidelines state in part:

3

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

...If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b).

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

[In reviewing your impairment]...We need reports about your impairments from acceptable medical sources.... 20 CFR 416.913(a).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

At application, the applicant has the burden of proof pursuant to the following section:

...You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

The federal regulations are very specific regarding the type of medical evidence required

from an applicant to establish disability. The regulations essentially require laboratory or clinical

medical reports consistent with the applicant's reported symptoms, or with his/her treating

doctor's statement regarding disability or the lack thereof. These regulations state in part:

...Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) **Signs** are anatomical, physiological, or psychological abnormalities which can be observed, apart from your statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques. Psychiatric signs are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or perception. They must also be shown by observable facts that can be medically described and evaluated.
- (c) Laboratory findings are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.), roentgenological studies (Xrays), and psychological tests. 20 CFR 416.928.

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

...You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 Your impairment must result from anatomical, CFR 416.905. physiological, psychological abnormalities or which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques.... 20 CFR 416.927(a)(1). [SDA] Duration=90 days].

The medical documentation in claimant's file is insufficient to indicate her conditions,

standing alone or combined, would interfere with her ability to engage in any number of

unskilled jobs currently existing in the national economy which is the standard to be applied in

disability determination cases. Put simply, when taken as a whole, the evidence in this file fails

to meet the regulatory requirements necessary to qualify for disability-based MA or SDA.

Consequently, claimant's disputed application must remain denied based on lack of jurisdiction,

or In arguendo, based on lack of severity shown.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions

of law, decides the department properly determined claimant is not disabled.

Accordingly, the department's action is AFFIRMED.
