

STATE OF MICHIGAN

STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

[REDACTED]

Reg. No: 200915227  
Issue No: 2009/4031  
Case No: [REDACTED]  
Hearing Date: May 27, 2009  
Bay County DHS

ADMINISTRATIVE LAW JUDGE: Janice G. Spodarek

**HEARING DECISION**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9; and MCL 400.37 upon claimant's request for a hearing. After due notice, an in-person hearing was held. Claimant was represented by [REDACTED]

**ISSUE**

Did the Department of Human Services (DHS) properly deny claimant's Medical Assistance (MA) and State Disability Assistance (SDA) application?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On November 7, 2008, claimant applied for MA and SDA with the Michigan Department of Human Services (DHS).
2. Claimant did not apply for retro MA.
3. On January 29, 2009, the MRT denied.
4. On February 3, 2009, the DHS issued notice.
5. On February 17, 2009, claimant filed a hearing request.

6. As of the date of the administrative hearing, claimant testified that she applied one time to SSA for SSI and was denied. Claimant further testified that she intended to appeal. Claimant testified that she is alleging the same impairments. On October 8, 2010, the undersigned Administrative Law Judge received an SOLQ from SSA indicating that claimant reapplied on July 13, 2010.
7. On March 20, 2009, the State Hearing Review Team (SHRT) denied claimant. Pursuant to the claimant's request to hold the record open for the submission of new and additional medical documentation, on September 3, 2009, SHRT once again denied claimant for insufficient information. Pursuant to an Interim Order signed on September 17, 2009, claimant submitted to additional medical testing. The results of those tests were returned SOAHR on April 6, 2010.
8. As of the date of application, claimant was a 47-year-old female standing 5'9" tall and weighing 180 pounds. Claimant has a high school diploma.
9. Claimant testified that she has no alcohol/drug abuse problem or history. Claimant's medical evidence contains contrary medical information with regards to an alcohol problem as well as DUIs. Claimant smokes cigarettes. Claimant has a nicotine addiction.
10. Claimant testified that she does not have a driver's license because her doctor informed her not to turn her head. Subsequent testimony indicated that claimant had been incarcerated due to a DUI. Claimant's credibility was compromised.
11. Claimant is not currently working. Claimant's work history is unskilled. Claimant testified she has worked as a cashier, waitress, and with fast food establishments.
12. Claimant alleges disability secondary to COPD, asthma, neck and back pain.
13. The April 6, 2010, SHRT findings and conclusions of its decision are adopted and incorporated by reference to the following extent:

...Claim returned by Administrative Hearings with newly submitted medical evidence and correspondence.

Medical summary: Claimant is alleging disability secondary to COPD, asthma, neck and back pain. While evidence of pulmonary condition, no evidence that this condition is disabling. These findings confirmed by an independent medical examination recently performed. Claimant's issues of degenerative disc disease are stable while imposing some

limitations, likewise do not prevent claimant from performing tasks. There is a history of alcohol dependence and depression secondary to claimant's medical condition per recent psychiatric evaluation but this places no limitations on claimant's ability to perform tasks.

Analysis: New evidence from SOAHR supports that claimant would be limited to performing light exertional tasks with no psychiatric limitations. Claimant has no past relevant work history. These findings support the State Hearing Review Team Decision dated 3/20/09.

14. Claimant testified at the administrative hearing that she has severe emphysema and needs a breathing machine. Claimant testified that she needs the breathing machine a minimum of four times per day and has shortness of breath. Claimant continues to smoke.
15. The psychiatric evaluation completed pursuant to SHRT's request states in part that claimant has no previous psychiatric history. Claimant has a history of alcohol and [REDACTED] abuse—"her drug of choice is alcohol. She drinks anywhere from 6 to 12 cans of beer for almost a daily basis, but denies any blackouts. She has tried to abuse marijuana almost for the last one year, whenever she can get it." Claimant testified that she did not have any alcohol/drug abuse problems or history. Claimant's diagnoses was: alcohol dependency and depression secondary to medical condition.

### **CONCLUSIONS OF LAW**

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Statutory authority for the SDA program states in part:

- (b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Prior to any substantive review, jurisdiction is paramount. As noted in the Findings of Fact, claimant testified as of the administrative hearing that she had an SSI application pending with SSA. Claimant testified that she had been denied and intended to appeal. Under 42 CFR 435.541, the state agency has no jurisdiction to proceed where there has been a final determination by SSA based on disability and none of the exceptions apply.

In this case, claimant testified that she is alleging the same impairments. Claimant was denied. None of the exceptions applied as claimant indicated she had the same impairments. Moreover, claimant has reapplied pursuant to an SOLQ run on October 8, 2010. Pursuant to 42 CFR 435.541(c)(4)(ii), there is no jurisdiction.

As an alternative argument, this Administrative Law Judge will apply the sequential analysis.

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point

in the review, we do not review your claim further.... 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application claimant has the burden of proof pursuant to:

...You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as sure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) **Signs** are anatomical, physiological, or psychological abnormalities which can be observed, apart from your statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques. Psychiatric signs are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or perception. They must also be shown by observable facts that can be medically described and evaluated.

- (c) **Laboratory findings** are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.), roentgenological studies (X-rays), and psychological tests. 20 CFR 416.928.

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e).

...You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques.... 20 CFR 416.927(a)(1).

Applying the sequential analysis herein, claimant is not ineligible at the first step as claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard. Ruling any ambiguities in claimant's favor, this Administrative Law Judge (ALJ) finds that claimant meets both. The analysis continues.

The third step of the analysis looks at whether an individual meets or equals one of the Listings of Impairments. 20 CFR 416.920(d). Claimant does not. The analysis continues.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by claimant in the past. 20 CFR 416.920(f).

In this case, this ALJ finds that claimant cannot return to past relevant work on the basis of the medical evidence. The analysis continues.

The fifth and final step of the analysis applies the biographical data of the applicant to the Medical Vocational Grids to determine the residual functional capacity of the applicant to do other work. 20 CFR 416.920(g). After a careful review of the credible and substantial evidence on the whole record, this Administrative Law Judge finds that claimant does not meet statutory disability on the basis of Medical Vocational Grid Rule 202.20 as a guide.

In reaching this conclusion, it is noted that claimant's credibility as a witness was compromised due to the conflicting testimony with the evidentiary packet with regards to alcohol dependence.

With regards to claimant's COPD, claimant continues to smoke which obviously exacerbates this condition. Such behavior is identified as an "individual responsibility" types of behaviors reflected in the *SIAS v Secretary of Health and Human Services*, 861 F2d 475 (6th cir 1988) decision. In *SIAS*, the claimant was an obese, heavy smoker who argued that he could not afford support hose prescribed by his doctor for acute thrombophlebitis. The doctor also advised claimant to reduce his body weight. The court said in part:

...The claimant's style of life is not consistent with that of a person who suffers from intractable pain or who believes his condition could develop into a very quick life-threatening situation. The claimant admitted to the ALJ he was at least 40 pounds overweight; ignoring the instructions of his physician, he has not lost weight.

...The Social Security Act did not repeal the principle of individual responsibility. Each of us faces myriads of choices in life, and the choices we make, whether we like it or not, have consequences. If the claimant in this case chooses to drive himself to an early grave, that is his privilege—but if he is not truly disabled, he has no right to require those who pay Social Security taxes to help underwrite the cost of his ride. *SIAS*, supra, p. 481.

In *SIAS*, the claimant was found not truly disabled because the secretary disregarded the consequences resulting from the claimant's unhealthy habits and lifestyles—including the failure to stop smoking. *AWAD v Secretary of Health and Human Services*, 734 F2d 288, 289-90 (6<sup>th</sup> cir 1984).

It is further noted that the evidence regarding claimant's COPD indicates that the condition is not disabling as it is defined under federal and state law.

Regarding claimant's issues of degenerative disc disease, claimant's condition is stable. While claimant does have some limitations, these limitations do not prevent claimant from performing certain work tasks and thus, do not rise to statutory disability as it is defined under the law.

As noted above, claimant has the burden of proof pursuant to 20 CFR 416.912(c). Federal and state law is quite specific with regards to the type of evidence sufficient to show statutory disability. 20 CFR 416.913. This authority requires sufficient medical evidence to substantiate and corroborate statutory disability as it is defined under federal and state law. 20 CFR 416.913(b), .913(d), and .913(e); BEM 260. These medical findings must be corroborated by medical tests, labs, and other corroborating medical evidence that substantiates disability. 20 CFR 416.927, .928. Moreover, complaints and symptoms of pain must be corroborated pursuant to 20 CFR 416.929(a), .929(c)(4), and .945(e). Claimant's medical evidence in this case, taken as a whole, simply does not rise to statutory disability by meeting these federal and state requirements. 20 CFR 416.920; BEM 260, 261.

### **DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department's actions were correct.

Accordingly, the department's determination in this matter is UPHELD.

/s/ \_\_\_\_\_  
Janice G. Spodarek  
Administrative Law Judge  
for Maura D. Corrigan, Director  
Department of Human Services

Date Signed: March 22, 2011

Date Mailed: March 22, 2011

**NOTICE:** Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the mailing date of the rehearing decision.
