

STATE OF MICHIGAN  
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES

ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF: [REDACTED]

Claimant

Reg. No: 2009-22556  
Issue No: 2009; 4031  
Case No: [REDACTED]  
Load No: [REDACTED]  
Hearing Date:  
July 22, 2009  
Livingston County DHS

ADMINISTRATIVE LAW JUDGE: Janice Spodarek

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9; and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on July 22, 2009.

ISSUE

Did the Department of Human Services (DHS) properly deny claimant's Medical Assistance (MA-P) and State Disability Assistance (SDA) application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) On 1/15/09, claimant applied for MA-P and SDA with the Michigan DHS.
- (2) Claimant applied for three months of retro MA.
- (3) On 3/17/09, the MRT denied.

- (4) On 3/26/09, the DHS issued notice.
- (5) On 4/2/09, claimant filed a hearing request.
- (6) The department testified that claimant has not applied for SSI with the SSA.
- (7) On 6/1/09, the State Hearing Review Team (SHRT) denied claimant.
- (8) As of the date of application, claimant was a 58-year-old male standing 5' 9 1/2"

tall and weighing 180 pounds. Claimant has a 6<sup>th</sup> grade education.

(9) Claimant does not smoke or use drugs. Claimant does have a history of alcohol use 10 years ago.

(10) Claimant has a driver's license and can drive a motor vehicle.

(11) Claimant is not currently working. Claimant's work history is as an auto mechanic.

Claimant lists his work history as an auto body man, masonry, mason tender. Claimant last worked in May, 2008 and stopped due to an elbow injury.

(12) Claimant alleges disability on the basis of right elbow pain--right epicondylitis.

(13) A DHS-49 completed on an unknown date, as the date is left blank, diagnoses claimant with right epicondylitis. The history includes right elbow pain, numbness and tingling. The examination was conducted on 11/25/08 and indicates claimant has no abnormalities except some tingling and numbness. Claimant does not need any assistance with any ambulatory device and can use his feet/legs for operating controls. The physician indicates to see progress notes or notes from 11/25/09.

(14) [REDACTED] completed a letter on 11/25/09 to "Dear Colleagues" summarizing claimant's symptomatology. Claimant's physician has done a number of treatments with no apparent relief. He concludes that he has yet to come up with a clear diagnosis.

(15) A 9/23/08 report includes a right upper extremity EMG showing prolonged right radical sensory distal latency and median and ulnar sensory distal latency. A repeat EMG only showed left upper extremity was examined and noted normal motor sensory latencies.

(16) ████████ did a repeat injection which provided 35% to 40% improvement in the lateral elbow, but not the ulnar nerve pain or pain down the hand.

(17) Claimant testified at the administrative hearing that he has a Workmen's Compensation application pending.

(18) Claimant testified at the administrative hearing that he does not need any assistance in preparing meals, shopping, dishes, laundry, etc. Claimant does not need any assistance with his bathroom and grooming needs.

#### CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Statutory authority for the SDA program states in part:

- (b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months....  
20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).

3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application claimant has the burden of proof pursuant to:

...You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

...Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as sure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) **Signs** are anatomical, physiological, or psychological abnormalities which can be observed, apart from your statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques. Psychiatric signs are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or perception. They must also be shown by observable facts that can be medically described and evaluated.
- (c) **Laboratory findings** are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.), roentgenological studies (X-rays), and psychological tests. 20 CFR 416.928.

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e).

...You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically

acceptable clinical and laboratory diagnostic techniques.... 20 CFR 416.927(a)(1).

Applying the sequential analysis herein, claimant is not ineligible at the first step as claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). After a careful review of the credible and substantial evidence on the whole record, this Administrative Law Judge concurs with the SHRT decision finding no statutory disability on the basis of Step 2 of the analysis for the reasons set forth below.

Evidence indicates that claimant's allegation of disability is on the basis of his right elbow issues. The examination of 11/25/08 indicates no abnormalities except some tingling and numbness. While claimant self reports continuing discomfort, there is no medical diagnosis which would medically document claimant's symptoms. A repeat EMG noted normal motor sensory latencies.

The law is quite specific with regards to the requirement that the applicant has the burden to bring forth sufficient medical documentation to substantiate a disability as defined under the law with sufficient evidence pursuant to the requirements found at 20 CFR 416.913(b), .913(d), and .913(e). There must be sufficient and corroborating medical documentation that substantiates federal statutory disability which would indicate that individual cannot engage in work or work-like settings. It must be shown that this prohibits individual from engaging in work or work-like settings for a minimum of 12 months or more. In this case, the medical evidence in this case simply does not rise to this level of disability and thus, the department's denial must be upheld.

#### DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department's actions were correct.

Accordingly, the department's determination in this matter is UPHeld.

Janice Spodarek  
Administrative Law Judge  
for Ismael Ahmed, Director  
Department of Human Services

Date Signed: August 13, 2009

Date Mailed: August 14, 2009

**NOTICE:** Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the mailing date of the rehearing decision.
