IN THE MATTER OF:

██████████

Appellant

_____ /

Docket No. 2009-28340 HHS

Case No. ██████████
██████████

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, following the Appellant's request for a hearing.

After due notice, a hearing was held on ██████████. ██████████ (Appellant) appeared and testified on her own behalf. Also appearing as a witness for the Appellant was her chore provider, ██████████. Dale Malewska, Administrative Law Judge, presided over the hearing. The undersigned Administrative Law Judge reviewed the hearing record, including the admitted exhibits and hearing recording.

██████████, Appeals Review Officer, represented the Department of Community Health. Also appearing as witnesses for the Department were ██████████, Adult Services Worker, and ██████████, Adult Services Supervisor, ██████████ of Human Services (DHS).

ISSUE

Did the Department properly terminate the Appellant's adult Home Help Services?

FINDINGS OF FACT

Based upon the competent, material and substantial evidence presented, I find, as material fact:

1. Appellant is a Medicaid beneficiary, with medical conditions including degenerative joint disease of the left knee, and tibial plateau of the left knee. (*Exhibit A, p. 13*)
2. On ██████████, the Adult Services Worker issued to the Appellant a Services Negative Action Notice indicating that home help services would be terminated

because the physician who signed new Medical Needs form, dated ██████████
██████████ did not certify a medical need for assistance with personal care services.
(*Exhibit A; p. 5*)

3. On ██████████, the Appellant filed her request for hearing with the State Office of Administrative Hearings and Rules for the Department of Community Health.

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

COMPREHENSIVE ASSESSMENT The Adult Services Comprehensive Assessment (DHS-324) is the primary tool for determining need for services. The comprehensive assessment will be completed on all open cases, whether a home help payment will be made or not. ASCAP, the automated workload management system provides the format for the comprehensive assessment and all information will be entered on the computer program.

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- An interview must be conducted with the caregiver, if applicable.
- Observe a copy of the client's social security card.
- Observe a picture I.D. of the caregiver, if applicable.
- The assessment must be updated as often as necessary, but minimally at the six month review and annual re-determination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.
- Follow specialized rules of confidentiality when ILS cases have companion APS cases.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the HHS payment. Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication
- Meal preparation and cleanup.
- Shopping.
- Laundry.
- Light housework.

Functional Scale ADL's and IADL's are assessed according to the following five point scale:

1. Independent: Performs the activity safely with no human assistance.
2. Verbal assistance: Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some human assistance: Performs the activity with some direct physical assistance and/or assistive technology.
4. Much human assistance: Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent: Does not perform the activity even with human assistance and/or assistive technology.

Note: HHS payments may only be authorized for needs assessed at the 3 level or greater.

Time and Task The worker will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a

guide. The RTS can be found in **ASCAP** under the **Payment** module, Time and Task screen. When hours exceed the RTS rationale must be provided.

IADL Maximum Allowable Hours

There are monthly maximum hour limits on all IADLs except medication.

The limits are as follows:

- Five hours/month for shopping.
- Six hours/month for light housework.
- Seven hours/month for laundry.
- 25 hours/month for meal preparation.

These are **maximums**; as always, if the client needs fewer hours, that is what must be authorized. Hours should continue to be prorated in shared living arrangements. If there is a need for expanded hours, a request should be submitted to:

MDCH
Attn: Long Term Care, Systems Development Section
Capitol Commons, 6th Floor, Lansing, MI 48909

Necessity for Service

The adult services worker is responsible for determining the necessity and level of need for HHS based on:

- Client choice.
- A complete comprehensive assessment and determination of the client's need for personal care services.
- *Verification of the client's medical need by a Medicaid enrolled medical professional. The client is responsible for obtaining the medical certification of need. The Medicaid provider identification number must be entered on the form by the medical provider. (Emphasis supplied by ALJ)*

The Medical Needs form must be signed and dated by one of the following medical professionals:

- Physician.
- Nurse practitioner.
- Occupational therapist.
- Physical therapist.

Exception: DCH will accept a DHS-54A completed by a VA physician or the VA medical form in lieu of the medical needs form.

The medical professional certifies that the client's need for service is related to an existing medical condition. The medical professional does not prescribe or authorize personal care services. If the medical needs form has not been returned, the adult services worker should follow-up with the client and/or medical professional. If the case is closed and reopened within 90 days with no changes in the client's condition, a new DHS-54A is not necessary.

Do **not** authorize HHS prior to the date of the medical professional signature on the DHS-54A.

TERMINATION OF HHS PAYMENTS Suspend and/or terminate payments for HHS in **any** of the following circumstances:

- The client fails to meet any of the eligibility requirements.
- The client no longer wishes to receive HHS.
- The client's provider fails to meet qualification criteria.

When HHS are terminated or reduced for any reason, send a DHS-1212 to the client advising of the negative action and explaining the reason. Continue the payment during the negative action period. Following the negative action period, complete a payment authorization on ASCAP to terminate payments.

If the client requests a hearing before the effective date of the negative action, continue the payment until a hearing decision has been made. If the hearing decision upholds the negative action, complete the payment authorization on ASCAP to terminate payments effective the date of the original negative action. See Program Administrative Manual (PAM) 600 regarding interim benefits pending hearings and Services Requirements Manual (SRM) 181, [Recoupment](#) regarding following upheld hearing decisions.

Independent Living Services Program Procedures
Department of Human Services
ASB 2008-002
9-1-2008*

A Medicaid beneficiary bears the burden of proving he or she was denied a medically necessary and appropriate service. See, e.g., *J.K By and Through R.K. v Dillenberg*, 836 F

Supp 694, 700 (Ariz, 1993). Whether the Appellant satisfies that burden must be determined in accord with the preponderance of the evidence standard. See, e.g., *Aquilina v General Motors Corp*, 403 Mich 206, 210; 267 NW2d 923 (1978).

Regarding an appeal filed with the State Office of Administrative Hearing and Rules for the Department of Community Health, the Administrative Law Judge is given ultimate discretion to determine the weight and credibility of the evidence presented. *Wiley v Henry Ford Cottage Hosp*, 257 Mich App 488, 491; 668 NW2d 402 (2003); *Zeeland Farm Services, Inc v JBL Enterprises, Inc*, 219 Mich App 190, 195; 555 NW2d 733 (1996) (the fact finder is provided with the unique opportunity to observe or listen to witnesses; and, it is the fact finder's responsibility to determine the credibility and weight of the testimony and other evidence provided).

The Appellant claims the physician who completed her medical needs form is not her physician, and that a subsequent medical needs form certifies a need.

There was significant discussion during the hearing regarding the authenticity of the subsequent medical needs form, which appears to be completed by the same physician, but which also appears unreliable. This is because the subsequent needs form appears to have been altered to reflect a certification for medical need.

The Appellant also described her medical ailments, but otherwise failed to present a preponderance of evidence that a physician has credibly certified a need for personal care assistance.

Current policy is clear. Home Help Services cannot be approved unless a physician or other health care provider certifies a need for assistance with personal care activities. The most authentic appearing form in the record appears to be one that does not certify such a need.

DECISION AND ORDER

Based on the above findings of fact and conclusions of law, I decide that DHS' termination of Home Help Services in this case is proper.

IT IS THEREFORE ORDERED that:

The Department's decision is **AFFIRMED**.

Stephen B. Goldstein
Administrative Law Judge
for Janet Olszewski, Director
Michigan Department of Community Health
