

STATE OF MICHIGAN
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

Reg No. 200931349
Issue No. 2009/4031
Case No. [REDACTED]
Load No. [REDACTED]
Hearing Date: September 17, 2009
Clare County DHS

ADMINISTRATIVE LAW JUDGE: Jana A. Bachman

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a hearing was held on September 17, 2009.

ISSUE

Whether claimant has established disability for Medical Assistance (MA) and State Disability Assistance (SDA).

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. April 7, 2009, claimant applied for MA and SDA.
2. June 1, 2009, the Medical Review Team (MRT) denied claimant's application. Department Exhibit A.
3. June 3, 2009, the department sent claimant written notice that the application was denied.
4. July 7, 2009, the department received claimant's timely request for hearing.

5. August 18, 2009, the State Hearing Review Team (SHRT) denied claimant's application. Department Exhibit B.
6. September 17, 2009, the telephone hearing was held.
7. Claimant asserts impairments based on impairments caused by rheumatoid arthritis, fibromyalgia, bad back, and depression.
8. Claimant testified at hearing. Claimant is 37 years old, 5'5" tall and weighs 172 pounds. She completed high school and one year of college and is able to read, write, and perform basic math. Claimant has a driver's license but does not drive due to occasional blackouts. Claimant cares for her needs at home.
9. Claimant's past relevant employment has been in tax preparation, account manager, various jobs at a dry cleaner, and as a pantry chef.
10. April 17, 2009, claimant's rheumatologist completed a Medical Examination Report (DHS-49) following physical examination that took place on December 11, 2008. Doctor indicates current diagnoses of fibromyalgia, migraine headache, and probable rheumatoid arthritis. Doctor indicates a normal physical examination with the exception of tenderness in the trapezius, hip finger joints, and gluteal muscle. Doctor indicates both that claimant's condition is stable and that it is also deteriorating. Doctor indicates claimant is occasionally able to lift less than ten pounds, stand and/or walk at least two hours in an eight-hour workday and sit less than six hours in an eight-hour workday. Claimant is able to perform a full range of repetitive actions with both upper extremities with the exception of fine manipulating. Doctor opines claimant is not able to operate foot and leg controls with either lower extremity. Department Exhibit A, pgs 144-145.
11. During 2007 and 2008, claimant was treated by her physician for shoulder pain and low back pain. Department Exhibit A, pgs 51-90. April 5, 2008, MRI of the lumbar spine was within normal limits. Department Exhibit A, pg 40. X-rays of the left hip were unremarkable. Department Exhibit A, pg 41. X-rays of the left shoulder revealed a negative left shoulder exam. Department Exhibit A, pg 38. MRI of the brain conducted December 15, 2007 revealed unremarkable MRI of the brain . Department Exhibit A, pg 37.

12. July 27, 2009, claimant underwent an independent psychological exam and a narrative report was prepared. The report indicates claimant's thoughts were spontaneous and well organized with no problems in pattern of speech. Claimant denied any presence of any auditory or visual hallucinations. She denied current suicidal ideation but stated she has difficulty sleeping due to pain. Emotional reaction was despondent. She was oriented x 3. Memory was within normal limits, as was fund of information. Abstraction and judgment were within normal limits. AXIS I diagnoses were major depressive disorder, recurrent moderate; pain disorder with both psychological factors and a general medical condition. GAF was assessed at 60. Department Exhibit A, pgs 158-162.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months....
20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include –

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

If an individual fails to cooperate by appearing for a physical or mental examination by a certain date without good cause, there will not be a finding of disability. 20 CFR 416.994(b)(4)(ii).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed

impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and so is not disqualified from receiving disability at Step 1.

At Step 2, the medical evidence of record indicates that claimant has been treated for migraine headaches, back pain, shoulder pain, and various other ailments. Objective medical testing revealed normal studies of the brain, back, shoulder, hip. The objective medical evidence of record indicates that claimant has rheumatoid arthritis. Physical exam revealed tenderness in the trapezius and hip finger joints as well gluteal muscles. The objective medical evidence of record establishes that claimant has major depressive disorder, recurrent, moderate and pain disorder with psychological factors and general medical condition. GAF was assessed at 60, indicative of moderate to mild symptoms or difficulties. The objective medical evidence of record does not establish that claimant has severe cognitive and/or physical impairments due to any condition. Finding of Fact 10-12.

At Step 2, the objective medical evidence of record is not sufficient to establish that claimant has severe impairments that have lasted or are expected to last 12 months or more and prevent employment at any job for 12 months or more. Therefore, claimant is disqualified from receiving disability at Step 2.

At Step 3, claimant's impairments do not rise to the level necessary to be specifically disabling by law.

At Step 4, claimant's past relevant employment has been in tax preparation, factory work, account manager, and in various positions at a dry cleaners. She also has been employed as a pantry chef. See discussion at Step 2 above. Finding of Fact 9-12.

At Step 4, the objective medical evidence of record is not sufficient to establish that claimant has functional impairments that prevent claimant for a period of 12 months or more from engaging in a full range of duties required by claimant's past relevant employment at the medium level or less. Therefore, claimant is disqualified from receiving disability at Step 4.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the Dictionary of Occupational Titles, published by the Department of Labor.... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Medium work. Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. If someone can do medium work, we determine that he or she can also do sedentary and light work. 20 CFR 416.967(c).

Heavy work. Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of objects weighing up to 50 pounds. If someone can do heavy work, we determine that he or she can also do medium, light, and sedentary work. 20 CFR 416.967(d).

At Step 5, see discussion at Step 2 above. Finding of Fact 8-12.

At Step 5, the objective medical evidence of record is sufficient to establish that claimant retains the residual functional capacity to perform at least medium work activities. Considering claimant's vocational profile (younger individual, high school graduate, and history of unskilled work) and relying on Vocational Rule 203.28, claimant is not disabled. Arguendo, if claimant were limited to only

sedentary work, she still not meet the standard necessary to be considered disabled. Therefore, claimant is disqualified from receiving disability at Step 5.

Claimant does not meet the federal statutory requirements to qualify for disability. Therefore, claimant does not qualify for Medical Assistance based on disability and the department properly denied claimant's application.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2001 PA 82. The Family Independence Agency (FIA or agency) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Agency policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

2004 PA 344, Sec. 604, establishes the State Disability Assistance program. It reads in part:

Sec. 604 (1) The department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempt from the Supplemental Security Income citizenship requirement who are at least 18 years of age or emancipated minors meeting one or more of the following requirements:

- (a) Recipient of Supplemental Security Income, Social Security or Medical Assistance due to disability or 65 years of age or older.
- (b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.
- (c) A resident of an adult foster care facility, a home for the aged, a county infirmary, or a substance abuse treatment center.
- (d) A person receiving 30-day post-residential substance abuse treatment.

- (e) A person diagnosed as having Acquired Immunodeficiency syndrome (AIDs).
 - (f) A person receiving special education services through the local intermediate school district.
 - (g) A caretaker of a disabled person as defined in subdivision (a), (b), (e), or (f) above.
- (2) Applicants for and recipients of the State Disability Assistance program shall be considered needy if they:
- (a) Meet the same asset test as is applied to applicants for the Family Independence Program.
 - (b) Have a monthly budgetable income that is less than the payment standard.
- (3) Except for a person described in subsection (1)(c) or (d), a person is not disabled for purposes of this section if his or her drug addiction or alcoholism is a contributing factor material to the determination of disability. 'Material to the determination of disability' means that, if the person stopped using drugs or alcohol, his or her remaining physical or mental limitations would not be disabling. If his or her remaining physical or mental limitations would be disabling, then the drug addiction or alcoholism is not material to the determination of disability and the person may receive State Disability Assistance. Such a person must actively participate in a substance abuse treatment program, and the assistance must be paid to a third party or through vendor payments. For purposes of this section, substance abuse treatment includes receipt of inpatient or outpatient services or participation in Alcoholics Anonymous or a similar program. 1995 PA 156, Sec. 605.

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
