ISSUES

(1) Did claimant establish a severe mental impairment expected to preclude him substantial gainful work, **continuously**, for one year (MA-P) or 90 days (SDA)?

(2) Did claimant establish a severe physical impairment expected to preclude him from substantial gainful work, **continuously**, for one year (MA-P) or 90 days (SDA)?

(1) Claimant is an MA-P/retro/SDA applicant (November 26, 2008) who was denied by SHRT (December 16, 2008) based on claimant's ability to perform unskilled sedentary work. SHRT relied on Med-Voc Rule 201.27 as a guide. Claimant requests retro MA for August, September and October 2008.

(2) Claimant's vocational factors are: age—41; education—high school diploma; post high school education—none; work experience—██████████ dock hand; inspector at ██████████ ██████████, and line worker for ██████████.

(3) Claimant has not performed Substantial Gainful Activity (SGA) since February 2006 when he worked as a dock hand unloading trucks for ██████████ market.

CONCLUSIONS OF LAW

LEGAL BASE

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is

reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

Claimant has the burden of proof to show by a preponderance of the medical/psychiatric evidence in the record that his combined impairments meet the department's disability for MA-P/SDA purposes.

Since SHRT has decided that claimant is disabled for MA-P/SDA purposes, the Administrative Law Judge does not need to rule on the issue of disability.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that claimant does meet the MA-P/SDA disability requirements under PEM 260. based on the May 15, 2009 SHRT Approval, claimant is totally unable to perform any substantial gainful activity at this time. Therefore, claimant meets the disability requirements for MA-P/SDA

The department will review claimant's disability status in May 2010.

SO ORDERED.
