

STATE OF MICHIGAN
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES

ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF: [REDACTED],
Claimant

Reg. No: 2009-33515
Issue No: 2009; 4031
Case No: [REDACTED]
Load No: [REDACTED]
Hearing Date:
September 30, 2009
Montmorency County DHS

ADMINISTRATIVE LAW JUDGE: Jay W. Sexton

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on September 30, 2009, in Atlanta. Claimant personally appeared and testified under oath.

The department was represented by Brenda Kann (FIM) and Susan Altman (FIS).

The Administrative Law Judge appeared by telephone from Lansing.

ISSUES

- (1) Did claimant establish a severe mental impairment expected to preclude him from substantial gainful work, **continuously**, for one year (MA-P) or 90 days (SDA)?
- (2) Did claimant establish a severe physical impairment expected to preclude him from substantial gainful work, **continuously**, for one year (MA-P) or 90 days (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

(1) Claimant is an MA-P/retro/SDA applicant (September 30, 2009) who was denied by SHRT (September 1, 2009) based on claimant's ability to perform normal work activities. Claimant requests retro MA for December 2008 and January, February 2009.

(2) Claimant's vocational factors are: age—52; education—9th grade; post high school education—GED; work experience—worked [REDACTED] as a lawnmower and tree removal technician, punch press operator for auto parts company and mechanic for a golf course.

(3) Claimant is not performing substantial gainful activities since 2008 when he was employed as a lawn mowing technician for [REDACTED].

(4) Claimant has the following unable-to-work complaints:

- (a) Seizures;
- (b) Closed head injury (2009);
- (c) Memory dysfunction;
- (d) Status post injury due to falling tree;
- (e) Neck dysfunction;
- (f) Back dysfunction.

(5) SHRT evaluated claimant's medical evidence as follows:

OBJECTIVE MEDICAL EVIDENCE (September 1, 2009):

Claimant was admitted in 3/2009 due to new onset seizures. Claimant reported having a head injury in the past and he developed seizures, but he has not had any medical treatment or follow-up for this (page 29). He had no further seizures during his hospitalization (page 21).

In 5/2009, claimant reported no further seizures since his discharge. He last took his anti-seizure medication on 4/29/2009 (page 43). He was fluent and fully interactive during the examination. His coordination is straight forward and tact. His gait was intact (page 42).

ANALYSIS:

Claimant reported a head injury a couple of years ago. He had new onset seizures and was admitted in 3/2009. In 5/2009, he had not taken his anti-seizure medications for several days, and had no further seizures.

* * *

(6) Claimant lives with his spouse and performs the following Activities of Daily Living (ADLs): Dressing, bathing, cooking (sometimes), dishwashing, light cleaning, mopping, vacuuming, and grocery shopping. Claimant was hospitalized once in 2008 to receive treatment for his head injury. He was also hospitalized once in 2009 for an unknown ailment. Claimant does not use a cane, walker, wheelchair or shower stool. He does not wear braces.

(7) Claimant has a valid driver's license but does not drive an automobile. Claimant is not computer literate.

(8) The following medical records are persuasive:

(a) An April 30, 2009 Medical Examination Report (DHS-49) was reviewed.

The physician provided the following diagnoses: seizure disorder and status post head injury.

The physician provided the following physical limitations: no limitations.

The physician referred to the following mental limitations: limited in the areas of comprehension, memory, and sustained concentration.

* * *

(9) The probative medical evidence does not establish an acute (non-exertional) mental condition expected to prevent claimant from performing all customary work functions for the required period of time. Claimant testified that he has the following impairments: seizure disorder, status post head injury, memory dysfunction. There is no clinical information from a

psychiatrist or Ph.D. psychologist. Claimant did not provide a DHS-49D or DHS-49E to establish his mental residual functional capacity. However, claimant's family practitioner states that he has some mental limitations as follows: comprehension, memory and sustained concentration.

(10) The probative medical evidence does not establish an acute (exertion) physical impairment expected to prevent claimant from performing all customary work functions for a required period of time. Claimant reported the following physical impairments: neck dysfunction and back dysfunction. However, at this time the medical records do not establish a severe debilitating physical limitation that totally prevents claimant from working.

(11) Claimant recently applied for federal disability benefits (SSI) with the Social Security Administration. Social Security denied his application; claimant filed a timely appeal.

CONCLUSIONS OF LAW

CLAIMANT'S POSITION

Claimant thinks he is entitled to MA-P/SDA benefits based on the impairments listed in Paragraph #4, above.

DEPARTMENT'S POSITION

The department thinks that claimant has a Residual Functional Capacity (RFC) to perform normal work activities.

The department denied MA-P/SDA benefits based on Med-Voc Rule 204.00(H) as a guide.

LEGAL BASE

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;

- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

The department decides eligibility based on mental impairments using the following standards:

(a) Activities of Daily Living.

...Activities of daily living including adaptive activities such as cleaning, shopping, cooking, taking public transportation, paying bills, maintaining a residence, caring appropriately for one's grooming and hygiene, using telephones and directories, using a post office, etc. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(1).

(b) Social Functioning

...**Social functioning** refers to an individual's capacity to interact independently, appropriately, effectively, and on a sustained basis with other individuals. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(2).

Social functioning includes the ability to get along with others, such as family members, friends, neighbors, grocery clerks, landlords, or bus drivers. You may demonstrate impaired social functioning by, for example, a history of altercations, evictions, firings, fear of strangers, avoidance of interpersonal relationships, or social isolation. You may exhibit strength in social functioning by such things as your ability to initiate social contacts with others, communicate clearly with others, or interact and actively participate in group activities. We also need to consider cooperative behaviors, consideration for others, awareness of others' feelings, and social maturity. Social functioning in work situations may involve interactions with the public, responding appropriately to persons in authority (e.g., supervisors), or cooperative behaviors involving coworkers. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(2).

(c) Concentration, Persistence or Pace.

...**Concentration, persistence or pace** refers to the ability to sustain focused attention and concentration sufficiently long to permit the timely and appropriate completion of tasks commonly found in work settings. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(3).

Limitations in concentration, persistence, or pace are best observed in work settings, but may also be reflected by limitations in other settings. In addition, major limitations in this area can often be assessed through clinical examination or psychological testing. Wherever possible, however, a mental status examination or psychological test data should be supplemented by other available evidence. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(3).

(d) Sufficient Evidence:

The evaluation of disability on the basis of a mental disorder requires sufficient evidence to: (1) establish the presence of a medically determinable mental impairment(s); (2) assess the degree of functional limitation the impairment(s) imposes; and (3) project the probable duration of the impairment(s). Medical

evidence must be sufficiently complete and detailed as to symptoms, signs, and laboratory findings to permit an independent determination. In addition, we will consider information from other sources when we determine how the established impairment(s) affects your ability to function. We will consider all relevant evidence in your case record. 20 CFR 404, Subpart P, App. 1, 12.00(D).

(e) Chronic Mental Impairments:

...Chronic Mental Impairments: Particular problems are often involved in evaluating mental impairments in individuals who have long histories of repeated hospitalizations or prolonged outpatient care with supportive therapy and medication. For instance, if you have chronic organic, psychotic, and affective disorders you may commonly have your life structured in such a way as to minimize your stress and reduce your signs and symptoms.... 20 CFR 404, Subpart P, App. 1, 12.00(E).

A statement by a medical source (MSO) that an individual is “disabled” or “unable to work” does not mean that disability exists for purposes of the MA-P/SDA programs. 20 CFR 416.927(e).

Claimant has the burden of proof to show by a preponderance of the medical evidence in the record that his mental/physical impairments meet the department’s definition of disability for MA-P/SDA purposes. PEM 260/261. “Disability,” as defined by MA-P/SDA standards is a legal term which is individually determined by consideration of all factors in each particular case.

STEP #1

The issue at Step 1 is whether claimant is performing Substantial Gainful Activity (SGA). If claimant is working and earning substantial income, he is not eligible for MA-P/SDA.

SGA is defined as the performance of significant duties over a reasonable period of time for pay. Claimants who are working, or otherwise performing Substantial Gainful Activity (SGA), are not disabled regardless of medical condition, age, education or work experience. 20 CFR 416.920(b).

The medical/vocational evidence of record shows that claimant is not currently performing SGA.

Therefore, claimant meets the Step 1 disability test.

STEP #2

The issue at Step 2 is whether claimant has impairments which meet the SSI definition of severity/duration. Unless an impairment is expected to result in death, it must have existed, or be expected to exist for a continuous period of at least 12 months. 20 CFR 416.909.

Also, to qualify for MA-P/SDA, claimant must satisfy both the gainful work and the duration criteria. 20 CFR 416.920(a).

If claimant does not have an impairment or combination of impairments that profoundly limit his physical/mental ability to do basic work activities, he does not meet the Step 2 criteria.

Under the *de minimus* rule, claimant currently meets the severity and duration requirements and the Step 2 disability test.

STEP #3

The issue at Step 3 is whether the claimant meets the Listing of Impairments in the SSI regulations. Claimant does not allege disability based on the Listings.

However, SHRT evaluated claimant's impairments using the relevant SSI Listings. Claimant does not meet any of the relevant SSI Listings.

STEP #4

The issue at Step 4 is whether claimant is able to do his previous work. Claimant previously worked as a lawn mowing technician and tree removal technician. Claimant's work for [REDACTED] was medium/heavy work.

Claimant alleges that he is unable to return to his previous work due to his mental impairments, and his recent seizures.

Since claimant recently experienced seizures, he is not able to return to work involving dangerous machinery and working in trees at dangerous heights.

Therefore, claimant has met his burden of proof to establish that he is unable to return to his previous work as a landscape laborer.

STEP #5

The issue at Step 5 is whether claimant has the Residual Functional Capacity (RFC) to do other work.

Claimant has the burden of proof to show by the medical evidence in the record that his mental/physical impairments meet the department's definition of disability for MA-P/SDA purposes.

First, claimant alleges disability based on a combination of mental impairments: seizure disorder, status post closed head injury and short-term memory dysfunction. There is no recent psychological/psychiatric evidence in the record to establish that claimant is totally unable to work due to his mental impairments. Furthermore, claimant did not submit a DHS-49D or DHS-49E to establish his mental residual functional capacity. For these reasons, claimant is not entitled to MA-P/SDA disability based on his mental impairment.

Second, claimant alleges disability based on neck and back dysfunction. There is no probative medical evidence in the record to show that claimant has a severe physical impairment that totally prevents him from working. The recent medical examination report (April 30, 2009) reports that claimant has no physical limitations at this time that would preclude him from returning to work.

In summary, claimant currently performs an extensive list of activities of daily living, has an active social life with his spouse and his grandson. Considering the entire medical record, in combination with claimant's testimony, the Administrative Law Judge concludes that claimant is able to perform simple unskilled sedentary work (SGA). In this capacity, he is able to work as a ticket taker for a theater, as a parking lot attendant, and as a greeter for [REDACTED]. Based on this analysis, the department correctly denied the claimant's MA-P/SDA application using Step 5 of the sequential analysis, as presented above.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that claimant does not meet the MA-P/SDA disability requirements under PEM 260/261.

Accordingly, the department's denial of claimant's MA-P/SDA application is, hereby, **AFFIRMED.**

SO ORDERED.

Administrative Law Judge
for Ismael Ahmed, Director
Department of Human Services

Date Signed: December 29, 2009

Date Mailed: December 30, 2009

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
