

The previous monthly entitlement was based on a 7-day week. Thus, payment was reduced to reflect the fact that the provider was providing services only 5 days per week.

3. On [REDACTED], the Appellant filed his request for hearing with the State Office of Administrative Hearings and Rules for the Department of Community Health.

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

COMPREHENSIVE ASSESSMENT The Adult Services Comprehensive Assessment (DHS-324) is the primary tool for determining need for services. The comprehensive assessment will be completed on all open cases, whether a home help payment will be made or not. ASCAP, the automated workload management system provides the format for the comprehensive assessment and all information will be entered on the computer program.

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- An interview must be conducted with the caregiver, if applicable.
- Observe a copy of the client's social security card.
- Observe a picture I.D. of the caregiver, if applicable.
- The assessment must be updated as often as necessary, but minimally at the six month review and annual re-determination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.
- Follow specialized rules of confidentiality when ILS cases have companion APS cases.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the HHS payment. Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication
- Meal preparation and cleanup.
- Shopping.
- Laundry.
- Light housework.

Functional Scale ADL's and IADL's are assessed according to the following five point scale:

1. Independent: Performs the activity safely with no human assistance.
2. Verbal assistance: Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some human assistance: Performs the activity with some direct physical assistance and/or assistive technology.
4. Much human assistance: Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent: Does not perform the activity even with human assistance and/or assistive technology.

Note: HHS payments may only be authorized for needs assessed at the 3 level or greater.

Time and Task The worker will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a

guide. The RTS can be found in **ASCAP** under the **Payment** module, Time and Task screen. When hours exceed the RTS rationale must be provided.

IADL Maximum Allowable Hours

There are monthly maximum hour limits on all IADLs except medication.

The limits are as follows:

- Five hours/month for shopping.
- Six hours/month for light housework.
- Seven hours/month for laundry.
- 25 hours/month for meal preparation.

These are **maximums**; as always, if the client needs fewer hours, that is what must be authorized. Hours should continue to be prorated in shared living arrangements. If there is a need for expanded hours, a request should be submitted to:

MDCH

Attn: Long Term Care, Systems Development Section
Capitol Commons, 6th Floor, Lansing, MI 48909

Necessity For Service

The adult services worker is responsible for determining the necessity and level of need for HHS based on:

- Client choice.
- A complete comprehensive assessment and determination of the client's need for personal care services.
- Verification of the client's medical need by a Medicaid enrolled medical professional. The client is responsible for obtaining the medical certification of need. The Medicaid provider identification number must be entered on the form by the medical provider.

The Medical Needs form must be signed and dated by one of the following medical professionals:

- Physician.
- Nurse practitioner.
- Occupational therapist.
- Physical therapist.

Exception: DCH will accept a DHS-54A completed by a VA physician or the VA medical form in lieu of the medical needs form.

The medical professional certifies that the client's need for service is related to an existing medical condition. The medical professional does not prescribe or authorize personal care services. If the medical needs form has not been returned, the adult services worker should follow-up with the client and/or medical professional. If the case is closed and reopened within 90 days with no changes in the client's condition, a new DHS-54A is not necessary.

Do **not** authorize HHS prior to the date of the medical professional signature on the DHS-54A.

**STATE OF MICHIGAN
ADULT SERVICES MANUAL (ASM) 363; PAGES 3 through 9 of 24
INDEPENDENT LIVING SERVICES PROGRAM PROCEDURES
DEPARTMENT OF HUMAN SERVICES
ASB 2008-002
9-1-2008**

The Adult Home Help Services program is designed to provide direct care assistance to Medicaid recipients who require permanent assistance with activities or instrumental activities of daily living. It is not designed to provide payment for days when care is not provided. The Appellant's representative admits to caring for the Appellant only five days per week. She claims to have been unaware that the Appellant could have applied for supplemental services during times when she was unable and unavailable to provide care.

DECISION AND ORDER

Based on the above findings of fact and conclusions of law, I decide that the Department properly reduced the Appellant's Adult Home Help Services payment.

IT IS THEREFORE ORDERED that:

The Department's decision is **AFFIRMED**.
