Additionally, Department records reflect that the are participating providers, as specialists with a referral from his primary care doctor, in at least one of the Medicaid Health Plans available to him. Furthermore, the information submitted did not show the frequent and active treatment needed to allow for a medical exception.
- 4. On managed care enrollment was also denied. The information submitted by the Appellant's physician does not show the frequent and active treatment needed to allow for a medical exception. Additionally, the information submitted did not describe current or active treatment of a serious medical condition.
- 5. On the Appellant filed his Request for Hearing with the State Office of Administrative Hearings and Rules for the Department of Community Health.

## CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

On May 30, 1997, the Department was notified of the Health Care Financing Administration's approval of its request for a waiver of certain portions of the Social Security Act to restrict Medicaid beneficiaries' choice to obtain medical services only from specified Qualified Health Plans.

Michigan Public Act 154 of 2005 states, in relevant part:

Sec. 1650 (3) The criteria for medical exceptions to HMO enrollment shall be based on submitted documentation that indicates a recipient has a serious medical condition, and is undergoing active treatment for that condition with a physician who does not participate in 1 of the HMOs. If the person meets the criteria established by this subsection, the department shall grant an exception to managed care enrollment at least through the current prescribed course of treatment, subject to periodic review of continued eligibility.

MDCH Medicaid Provider Manual, Beneficiary Eligibility Section, October 1, 2005, page 23, states in relevant part:

The intent of a medical exception is to preserve continuity of medical care for a beneficiary who is receiving active treatment for a serious medical condition from an attending physician (M.D. or D.O.) who would not be available to the beneficiary if the beneficiary was enrolled in a MHP. The medical exception may be granted on a time-limited basis necessary to complete treatment for the serious condition. The medical exception process is available only to a beneficiary who is not yet enrolled in a MHP, or who has been enrolled for less than two months. MHP enrollment would be delayed until one of the following occurs:

- the attending physician completes the current ongoing plan of medical treatment for the patient's serious medical condition, or
- the condition stabilizes and becomes chronic in nature, or
- the physician becomes available to the beneficiary through enrollment in a MHP, whichever occurs first.

If the treating physician can provide service through a MHP that the beneficiary can be enrolled in, then there is no basis for a medical exception to managed care enrollment.

MDCH Medicaid Provider Manual, Beneficiary Eligibility Section, October 1, 2005, page 23, states in relevant part:

## **Serious Medical Condition**

Grave, complex, or life threatening

Manifests symptoms needing timely intervention to prevent complications or permanent impairment.

An acute exacerbation of a chronic condition may be considered serious for the purpose of medical exception.

## **Chronic Medical Condition**

Relatively stable

Requires long term management

Carries little immediate risk to health

Fluctuate over time, but responds to well-known standard medical treatment protocols.

#### Active treatment

Active treatment is reviewed in regards to intensity of services. The beneficiary is seen regularly, (e.g., monthly or more frequently,) and

The condition requires timely and ongoing assessment because of the severity of symptoms, the treatment, or both

The treatment or therapy is extended over a length of time.

### Attending/Treating Physician

The physician (M.D. or D.O.) may be either a primary care doctor or a specialist whose scope of practice enables the interventions necessary to treat the serious condition.

### MHP Participating Physician

A physician is considered "participating" in a MHP if he or she is in the MHP provider network or is available on an out-of- network basis with one of the MHPs for which the beneficiary can be enrolled. The physician may not have a contract with the MHP but may have a referral arrangement to treat the plan's enrollees. If the physician can treat the beneficiary and receive payment from the plan, then the beneficiary would be enrolled in that plan and no medical exception would be allowed.

The Appellant's mother testified that the Appellant suffers from life-long, chronic medical conditions and as a result, he is entitled to an exception from managed care enrollment. She otherwise presented no substantive legal challenge to the Department's position in this matter.

Because the record is devoid of evidence contrary to what has been presented by the Department, I conclude its denial of Appellant's request for exceptions from managed care is appropriate.

#### DECISION AND ORDER

Docket No. 2009-34366 MCE Hearing Decision & Order

Based on the above findings of fact and conclusions of law, I decide the Department's denial of Appellant's requests for an exception from managed care is appropriate, as in accord with current policy regarding this issue.
