ADMINISTRATIVE LAW JUDGE: William A. Sundquist

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on on March 10, 2009. Claimant was represented by [REDACTED].

ISSUE

Was disability medically established?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) On February 12, 2008, the claimant applied for Medicaid/SDA and was denied on September 16, 2008 per PEM 260/261.
- (2) Claimant's vocational factors are: age 46, 11 years of special education, and past unskilled work as a prison food server.
- (3) Claimant's medical diagnosis is: right hand cut.

(4) Claimant's disabling symptoms/complaints are: able to perform basic mental work activities as defined below so long as under immediate supervision; limited in performing basic physical work activities as defined below because of low back pain when moving about, intermittent right hand pain, and intermittent chest pain which he has had all his life.

(5) Claimant has not performed substantial gainful work since 2004, except in prison as a kitchen food server under supervision.

**[Physical Impairment Only]**

(6) Medical exam on [REDACTED] states the claimant's condition is stable; that out of an eight-hour workday, he can stand and/or walk about six hours and sit about six hours; that he can lift/carry occasionally 25 pounds; and that he can use his extremities on a repetitive basis, except for fine manipulating with the left extremity (Medical Packet, page 5).

(7) SHRT report dated November 17, 2008 states the claimant's impairment(s) does not meet/equal Social Security Listings 1.02 and 1.04 (Medical Packet, page 26).

**CONCLUSIONS OF LAW**

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative

Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Facts above are undisputed.

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

### **DISABILITY**

A person is disabled for SDA purposes if he:

- . receives other specified disability-related benefits or services, or
- . resides in a qualified Special Living Arrangement facility, or
- . is certified as unable to work due to mental or physical disability for at least 90 days from the onset of the disability.
- . is diagnosed as having Acquired Immunodeficiency Syndrome (AIDS).

If the client's circumstances change so that the basis of his/her disability is no longer valid, determine if he/she meets any of the other disability criteria. Do NOT simply initiate case closure. PEM, Item 261, p. 1.

**Non-severe impairment(s).** An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

**Basic work activities.** When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;

- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

**Sedentary work.** Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).

5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

**Sedentary work.** Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

**Light work.** Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

**Claimant has the burden of proof** to establish by a preponderance of the medical evidence in the record that his physical impairment meets the department's definition of disability for Medicaid/SDA purposes. PEM 260/261.

#### **Step #1**

Because the claimant was not performing substantial gainful work on the date of his Medicaid/SDA application, he meets the Step 1 eligibility test. 20 CFR 416.920(b)

#### **Step #2**

This step determines whether the claimant, on date of application, had a severe physical impairment as defined above, which had lasted or was expected to last for a continuous period of at least 12 months (90 days for SDA). 20 CFR 416.916(a)(b). A *de minimus* standard is applied in determining severity—any ambiguities are determined in the claimant's favor.

The objective medical evidence stated above does not support the claimant's severe/duration requirement, as defined above.

**[Mental Impairment]**

The objective medical evidence of record does not address the claimant's mental condition. Claimant admitted that he could do work like his past work as a food server with supervision.

**[Physical Impairment]**

The objective medical evidence of record does not establish a severe physical impairment, as defined above, nor supports the claimant's disabling symptoms/complaints. The medical evidence establishes the claimant's ability to perform basic physical work activities, including the residual functional capacity to occasionally lift/carry 25 pounds.

Let's assume, on date of application, a severe impairment had been medically established. Then, the remaining question is whether it had lasted or was expected to last for a continuous period of at least 12 months (90 days for SDA). The objective medical evidence does not establish this duration requirement. Before you can be determined disabled, the severity/duration requirement must be established by the objective medical evidence. 20 CFR 416.920(a). Therefore, Step 2 has not been established.

**Step #3**

This step determines whether the claimant, on date of application, meets/equals a Social Security listing, and the duration requirement. SHRT determined the claimant's nondisability under the listings mentioned above. No listings were cited by the claimant specifically addressing and approving any listings in his submitted medical reports. Therefore, Step 3 has not been established.

**Step #4**

This step determines whether the claimant, on date of application, was without a residual functional capacity for any of his past work during the last 15 years, despite a severe impairment. 20 CFR 416.920(e).

The medical evidence stated above does not establish the claimant's inability to perform any of his past work, as defined above, as a kitchen food server. Therefore, Step 4 has not been established.

**Step #5**

This step determines whether the claimant, on date of application, was without a residual functional capacity for any other work despite a severe impairment. 20 CFR 416.920(f).

The medical evidence stated above does not establish the claimant's inability to perform light-type work, as defined above. To the contrary, the medical evidence stated above shows the claimant's residual functional capacity for light-type work.

Applicants with a residual functional capacity limited to light-type work as a result of a severe medically determinable physical impairments(s), and the claimant's vocational factors stated above are not disabled under this step. Medical-Vocational Rule 202.17.

Therefore, this ALJ is not persuaded that disability has been established by a preponderance of the medical evidence.

**DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that disability was not medically established.

Accordingly, Medicaid/SDA denial is UPHELD.
