

STATE OF MICHIGAN  
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES

ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF: [REDACTED],  
Claimant

Reg. No: 2009-3757  
Issue No: 4031  
Case No: [REDACTED]  
Load No: [REDACTED]  
Hearing Date:  
February 18, 2009  
Wayne County DHS

ADMINISTRATIVE LAW JUDGE: Jana A. Bachman

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9; and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on February 18, 2009.

ISSUE

Whether the Department of Human Services (department) properly determined that claimant has not established disability for purposes of State Disability Assistance (SDA).

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

(1) June 2, 2008, claimant applied for MA and SDA. Claimant submitted medical records for department consideration.

(2) May 23, 2008, the Medical Review Team denied claimant's application.

Department Exhibit (Department) A.

(3) [REDACTED] the department sent claimant written notice that the application was denied.

(4) [REDACTED], the department received claimant's timely request for SDA hearing.

(5) November 21, 2008, the State Hearing Review Team (SHRT) denied claimant's application. Department B.

(6) [REDACTED], the telephone hearing was held.

(7) Claimant asserts disability based on impairments caused by arthritis in his hip and leg, herniated discs, and difficult ambulation.

(8) Claimant testified at hearing. Claimant is 52 years old, 6'2" tall, and weighs 160 pounds. Claimant completed high school and 1.5 years of college. He is able to read, write, and perform basic math. His driver's license is suspended. He cares for his needs at home.

(9) Claimant's past relevant employment has been as a painter and customer service at a building supply company.

(10) [REDACTED], claimant presented to hospital complaining of right hip pain for several months. [REDACTED], claimant presented to hospital complaining of neck pain. Physical exam revealed normal range of motion in all extremities, non-tender to palpation, with normal distal pulses and no edema. Cervical spine was x-rayed revealing degenerative changes with osteophytic formation at anterior multiple levels, especially at C4-5, C5-6, and C6-7. No evidence of acute osseous pathology was noted. Department A, pages 14-20.

(11) [REDACTED], claimant underwent a physical exam and functional assessment. A narrative report was prepared that states, in pertinent part, cervical spine has forward flexion of 70 degrees, extension to 60, right and left rotation to 70, tenderness to

palpation and movement are noted; left shoulder has external rotation to 45 degrees, internal rotation to 60, abduction of both is 130, flexion to 90; triceps reflexes are depressed bilaterally; positive Tinel's over the volar aspect of left forearm and distal third radiating into base of left thenar eminence. EMG exam revealed increased insertional activity with excessive polyphasic units noted along the left abductor digiti minimi as compared to right, otherwise study was within normal limits. Diagnosis was stated as prior history of cervical disc herniation with clinical left C6-7 nerve root irritation; traumatic internal derangement of the left shoulder girdle with residual adhesive capsulitis and tendonitis and calcific changes; and traumatic left median nerve entrapment above the carpal tunnel. Department A, pages 9-11.

#### CONCLUSIONS OF LAW

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

2004 PA 344, Sec. 604, establishes the State Disability Assistance program. It reads in part:

Sec. 604 (1) The department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempt from the Supplemental Security Income citizenship requirement who are at least 18 years of age or emancipated minors meeting one or more of the following requirements:

- (a) Recipient of Supplemental Security Income, Social Security or Medical Assistance due to disability or 65 years of age or older.

- (b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.
- (c) A resident of an adult foster care facility, a home for the aged, a county infirmary, or a substance abuse treatment center.
- (d) A person receiving 30-day post-residential substance abuse treatment.
- (e) A person diagnosed as having Acquired Immunodeficiency syndrome (AIDs).
- (f) A person receiving special education services through the local intermediate school district.
- (g) A caretaker of a disabled person as defined in subdivision (a), (b), (e), or (f) above.
- (2) Applicants for and recipients of the State Disability Assistance program shall be considered needy if they:

  - (a) Meet the same asset test as is applied to applicants for the Family Independence Program.
  - (b) Have a monthly budgetable income that is less than the payment standard.
- (3) Except for a person described in subsection (1)(c) or (d), a person is not disabled for purposes of this section if his or her drug addiction or alcoholism is a contributing factor material to the determination of disability. 'Material to the determination of disability' means that, if the person stopped using drugs or alcohol, his or her remaining physical or mental limitations would not be disabling. If his or her remaining physical or mental limitations would be disabling, then the drug addiction or alcoholism is not material to the determination of disability and the person may receive State Disability Assistance. Such a person must actively participate in a substance abuse treatment program, and the assistance must be paid to a third party or through vendor payments. For purposes of this section, substance abuse treatment includes receipt of inpatient or outpatient services

or participation in Alcoholics Anonymous or a similar program. 1995 PA 156, Sec. 605.

(4) A refugee or asylee who loses his or her eligibility for the federal Supplemental Security Income program by virtue of exceeding the maximum time limit for eligibility as delineated in Section 402 of Title IV of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Public Law 104-193, 8 U.S.C. 1612, and who otherwise meets the eligibility criteria under this section shall be eligible to receive benefits under the State Disability Assistance program.

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms)... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

If an individual fails to cooperate by appearing for a physical or mental examination by a certain date without good cause, there will not be a finding of disability. 20 CFR 416.994(b)(4)(ii).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which

can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to

perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the

listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

If an individual fails to cooperate by appearing for a physical or mental examination by a certain date without good cause, there will not be a finding of disability. 20 CFR 416.994(b)(4)(ii).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and so is not disqualified from receiving disability at Step 1.

At Step 2, the objective medical evidence of record indicates that claimant has a history of cervical disc herniation. In [REDACTED], claimant was observed to have traumatic derangement of the left shoulder girdle with residual adhesive capsulitis and tendonitis and calcific changes. Cervical spine range of motion was reduced 10 degrees in right and left rotation. All other cervical range of motion was within normal limits. Claimant noted pain to palpation and movement. Shoulder abduction was reduced 20 degrees. External rotation of shoulder was reduced by half and internal rotation was reduced by 20 degrees. Tricep reflexes were reduced bilaterally with positive Tinel's over the volar aspect of left forearm and distal third radiating into base of left thenar eminence. [REDACTED] studies revealed traumatic left median nerve entrapment above the carpal tunnel. Finding of Fact 10. The record does not indicate that claimant

At Step 2, the objective medical evidence of record is not sufficient to establish that claimant has severe impairments that have lasted or are expected to last 90 days or more and prevent employment at any job for 90 days or more. Therefore, claimant is disqualified from receiving disability at Step 2.

At Step 3, claimant's impairments do not rise to the level necessary to be specifically disabling by law.

At Step 4, claimant's past relevant employment has been as a painter and customer service representative. The objective medical evidence of record establishes that claimant has limitations in range of motion in his shoulder as well as pain and some loss of sensation in his left upper extremity. Claimant's neurologist observes claimant has reduced range of motion in his shoulders and in right/left cervical rotation, as well as numbness in left ring and little finger.

In [REDACTED], doctor notes that claimant's condition is stable. Finding of Fact 9-10; Department A, page 13. See discussion at Step 2, above.

At Step 4, the objective medical evidence of record is sufficient to establish that claimant likely has functional impairments that prevent claimant, for a period of 90 days or more, from engaging in a full range of duties required by claimant's past relevant employment as a painter and customer service representative at an auto supply business. Therefore, claimant is not disqualified from receiving disability at Step 4.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the Dictionary of Occupational Titles, published by the Department of Labor.... 20 CFR 416.967.

**Sedentary work.** Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

**Light work.** Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when

it involves sitting most of the time with some pushing and pulling of arm or leg controls....

20 CFR 416.967(b).

Medium work. Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. If someone can do medium work, we determine that he or she can also do sedentary and light work. 20 CFR 416.967(c).

Heavy work. Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of objects weighing up to 50 pounds. If someone can do heavy work, we determine that he or she can also do medium, light, and sedentary work. 20 CFR 416.967(d).

At Step 5, the objective medical evidence of record indicates that claimant that claimant has reduced range of motion in left/right rotation of the cervical spine. He has reduced range of motion in his shoulders, as well as diminished tricep reflexes and some loss of sensation over the median nerve on the left. At hearing, claimant indicated that he has severe problems with his hip. The medical evidence does not corroborate claimant's testimony. Department A.

At Step 5, the objective medical evidence of record is sufficient to establish that claimant retains the residual functional capacity to perform sedentary work activities. Considering claimant's Vocational Profile (high school graduate, closely approaching advanced age, and history of semi-skilled work, skills not transferable) and relying on Vocational Rule 201.14, claimant is disabled. Therefore, claimant is not disqualified from receiving disability at Step 5.

After careful examination of the record and for reasons discussed at Steps 4-5, above, the Administrative Law Judge decides that claimant does have severe impairments that prevent work for 90 days or more. Therefore, claimant meets the disability requirement to qualify for SDA based on disability.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that claimant has established disability for State Disability Assistance.

Accordingly, the department's action is HEREBY REVERSED. The department is to initiate a determination of claimant's financial eligibility for SDA effective his month of application. Claimant is to seek and comply with all treatment recommendation. He shall provide treatment records at review. Failure to do so may affect future eligibility. Medical Review is set for [REDACTED].
