

STATE OF MICHIGAN  
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES

ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF: [REDACTED]  
Claimant

Reg. No: 2009-4089  
Issue No: 2009/4031  
Case No: [REDACTED]  
Load No: [REDACTED]  
Hearing Date:  
February 25, 2009  
Muskegon County DHS

ADMINISTRATIVE LAW JUDGE: Marlene B. Magyar

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on February 25, 2009. Claimant personally appeared and testified.

ISSUE

Did the department properly determine claimant is not disabled by Medicaid (MA) and State Disability Assistance (SDA) eligibility standards?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

(1) Claimant is a 45-year-old, nicotine dependent individual (4 packs per week) with a high school diploma who has resided with his mother and her husband since his prison release on June 25, 2008.

(2) Claimant stands approximately 6'1" tall and weighs approximately 170 pounds; he is right hand dominant, per self report.

(3) On June 30, 2008, claimant applied for disability-based medical coverage (MA) and a cash grant (SDA) because he had no job.

(4) Claimant contends he is completely unable to engage in any type of substantial gainful work activity, and thus, he qualifies for disability benefits.

(5) While in prison claimant was assigned a porter's job cleaning bathrooms (light exertional work activity) three times weekly.

(6) Prior to his incarceration claimant worked sporadically in unskilled jobs like painting and construction (medium and heavy exertional work activities).

(7) Claimant has no valid driver's license because it was suspended secondary to multiple alcohol-related convictions (DUIs).

((8) Claimant reports he currently has no alcohol problems because he participated in (and completed) substance abuse treatment/counseling as required while on parole (projected parole completion: January 2010).

(9) Claimant is not currently involved in any mental health treatment or counseling and no cognitive/mental/emotional impairments are evidenced by the medical records submitted to date.

(10) Claimant's disability hearing was held on February 25, 2009.

(11) At hearing, claimant said he had not seen his former treating doctor since 2000 but he was diagnosed by this doctor as having "sciatica" secondary to a "leg length differential."

(12) The hearing record was extended at claimant's request for submission of updated medical evidence which includes pelvic x-rays taken while claimant was incarcerated on February 20, 2008.

(13) No evidence of leg length differences was noted and no other severe impairments were seen except early arthritic changes in claimant's hips and sacroiliac joints (Client Exhibit A, pgs 1-14).

(14) The remainder of claimant's evidence includes left shoulder x-rays and urine/blood work which again failed to verify any severe impairments (Client Exhibit A, pgs 3, 4, 6-10 and 14).

(15) Likewise, claimant's 2007 chest x-ray and EEG readings are normal; consequently, no cardiac abnormalities have been shown.

(16) Although claimant's chest x-ray demonstrates some COPD changes consistent with nicotine abuse, no acute infiltrates or effusions are seen (Client Exhibit A, pg 2).

(17) Claimant reported during the February 25, 2009 disability hearing smoking cessation was medically advised and an as needed inhaler was prescribed for shortness of breath symptoms.

#### CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

The SDA program differs from the federal MA regulations in that the durational requirement is 90 days. This means that the person's impairments must meet the SSI disability standards for 90 days in order for that person to be eligible for SDA benefits.

The person claiming a physical or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for recovery and/or medical assessment of ability to do work-related activities or ability to reason and to make appropriate mental adjustments, if a mental disability is being alleged, 20 CFR 416.913. An individual's subjective pain complaints are not, in and of themselves, sufficient to establish disability. 20 CFR 416.908 and 20 CFR 416.929. By the same token, a conclusory statement by a physician or mental health professional that an individual is disabled or blind is not sufficient without supporting medical evidence to establish disability. 20 CFR 416.929.

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

...If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b).

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

[In reviewing your impairment]...We need reports about your impairments from acceptable medical sources.... 20 CFR 416.913(a).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

... [The record must show a severe impairment] which significantly limits your physical or mental ability to do basic work activities.... 20 CFR 416.920(c).

...[The impairment]...must have lasted or must be expected to last for a continuous period of at least 12 months. We call this the duration requirement. 20 CFR 416.909.

...Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);

- (4) **Diagnosis** (statement of disease or injury based on its signs and symptoms)... 20 CFR 416.913(b).

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) **Signs** are anatomical, physiological, or psychological abnormalities which can be observed, apart from your statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques. Psychiatric signs are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or perception. They must also be shown by observable facts that can be medically described and evaluated.
- (c) **Laboratory findings** are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.), roentgenological studies (X-rays), and psychological tests. 20 CFR 416.928.

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

...A statement by a medical source that you are "disabled" or "unable to work" does not mean that we will determine that you are disabled. 20 CFR 416.927(e).

...You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques.... 20 CFR 416.927(a)(1).

Additionally, if an individual fails to follow prescribed treatment which would be expected to restore their ability to engage in substantial gainful activity without good cause, there will not be a finding of disability.... 20 CFR 416.994(b)(4)(iv).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

Claimant does not qualify for the MA/SDA benefits he seeks because he has not established the existence of a medically severe condition, or combination of conditions, which could reasonably be expected to prevent employability for the necessary, continuous durations required under the governing regulations. Put simply, nothing in claimant's medical records establishes he is incapable of working in a wide variety of unskilled jobs currently existing in the national economy, which is the standard to be applied in disability determination cases. As such, claimant's disputed application must remain denied based on lack of severity shown.

#### DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the department properly denied claimant's June 30, 2008 MA/SDA application.

Accordingly, the department's action is AFFIRMED.

Administrative Law Judge  
for Ismael Ahmed, Director  
Department of Human Services

Date Signed: February 3, 2010

Date Mailed: February 4, 2010

**NOTICE:** Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
