

STATE OF MICHIGAN  
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES

ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF: [REDACTED],  
Claimant

Reg. No: 2009-10471  
Issue No: 2009; 4031  
Case No: [REDACTED]  
Load No: [REDACTED]  
Hearing Date:  
April 14, 2009  
Genesee County DHS

ADMINISTRATIVE LAW JUDGE: Jay W. Sexton

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9; and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on April 14, 2009 in Flint. Claimant personally appeared and testified under oath.

The department was represented by Gayla Staffney (ES).

The Administrative Law Judge appeared by telephone from Lansing.

ISSUES

(1) Did claimant establish a severe mental impairment expected to preclude him from substantial gainful work, **continuously**, for one year (MA-P) or 90 days (SDA)?

(2) Did claimant establish a severe physical impairment expected to preclude him from substantial gainful work, **continuously**, for one year (MA-P) or 90 days (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

(1) Claimant is an MA-P/Retro/SDA applicant (October 3, 2008) who was denied by SHRT (January 23, 2009) based on claimant's ability to perform normal work activities.

Claimant requests retro-MA for October, November and December 2008.

(2) Claimant's vocational factors are: age--43; education—high school diploma, post-high school education--none; work experience—drywall hanger and itinerant painter and handyman.

(3) Claimant has not performed Substantial Gainful Activity (SGA) since 1998 when he was a drywall hanger.

(4) Claimant has the following unable-to-work complaints:

- (a) Schizophrenic;
- (b) Paranoia;
- (c) Nervousness;
- (d) Short term memory impairment;
- (e) Chronic worrier;
- (f) Fatigue.

(5) SHRT evaluated claimant's medical evidence as follows:

**OBJECTIVE MEDICAL EVIDENCE (JANUARY 23, 2009)**

SHRT evaluated claimant's impairments using SSI Listings found in 20 CFR 404, Subpart P, Appendix. SHRT decided that claimant does not meet any of the applicable SSI Listings.

SHRT determined that claimant's medical evidence did not establish an impairment which meets the severity and duration requirements under 20 CFR 416.920(c).

(6) Claimant lives in a rooming house provided by [REDACTED]. The rooming house provides claimant with his meals. Claimant performs the following Activities of Daily Living (ADLs): dressing, bathing, cooking, dish washing and light cleaning. Claimant does not use a cane, a walker, a wheelchair or a shower stool. He does not wear braces. Claimant did not have inpatient hospital care in 2008 or 2009.

- (7) Claimant does not have a valid driver's license and does not drive an automobile.

Claimant is not computer literate.

- (8) The following medical records are persuasive:

- (a) A [REDACTED] psychiatric/psychological report was reviewed.

The PhD psychologist provided the following:

COMPLAINTS:

Claimant reported that he is a schizophrenic and has schizoaffective disorder, high anxiety, poor memory and says he does not communicate with others. He said his mind races all the time. He said he has difficulty with concentration. He said he has a fear that others are watching him when he is in stores. He said he fears that others are after him. He says he has paranoia. He said he "sheeted-up the whole house and barricaded" himself in a room. He said the police came and hospitalized him. He said he had to be reminded to take his medication. He said he has to write things down to remember them. He said he washes his hands 100 times per day. He said everything has to be in the right spot. He said he does not socialize. He said he has panic attacks.

\* \* \*

ACTIVITIES:

Claimant currently resides with his sister and her family. Claimant generally spends the days as follows: 'kind of just daze off. I think of how my life should be. I watch TV, but I think the background people are always looking.' **I did not find this to be credible.** He said he starts chores but does not finish them. He says his sister does not let him cook. He said he knows how to do laundry. Claimant is independent in self care and personal hygiene. Claimant reported being able to grocery shop independently. Claimant reported needing assistance in paying bills. He said he cannot concentrate well enough to pay bills. He seemed capable of doing this. Claimant reported being able to count money. Claimant denied any current income. Claimant's driver's license was suspended because of his DUI.

\* \* \*

Additional Information:

**Claimant's motivation to work seemed poor.** It was my subjective impression that claimant was under-representing his abilities and exaggerating symptoms throughout the exam. Claimant's extremely high E-score of 38 on the Dot Counting Test strongly suggests under-representation of abilities and is found in persons engaging in a high degree of embellishment or symptom magnification.

It was my impression that claimant's mental abilities to understand, remember and carry-out instructions are moderately impaired. Claimant's abilities to respond appropriately to co-workers and supervision and to adapt to change and stress in the workplace are moderately impaired.

Overall, based on today's exams and all the information available to me at this time, it is my impression that claimant's psychological condition would moderately impair his ability to perform work related activities. No mental health records were available for me at the time of this exam.

Diagnosis:

Axis II—Depressive Disorder NOS; history of alcohol abuse;

\* \* \*

Axis V/GAF—55.

(9) The probative psychological evidence does not establish an acute (non-exertional) mental condition expected to prevent claimant from performing all customary work functions for the required period of time. Claimant thinks he has schizoaffective disorder, high anxiety, and poor memory. The recent DDS psychiatric/psychological report states the following diagnoses: Depressive Disorder NOS, history of alcohol abuse, and Axis V/GAF—55. In addition, the consulting psychologist stated that claimant was probably under-representing his abilities and exaggerating his symptoms throughout the exam. The psychologist stated that claimant's mental abilities were moderately impaired. The consulting psychologist did not state that claimant was

totally unable to work. Claimant did not provide a DHS-49D or a DHS-49E to establish his mental residual functional capacity.

(10) The probative medical evidence does not establish an acute (exertional) physical impairment expected to prevent claimant from performing all customary work functions for the required period of time. Claimant testified that he is easily fatigued and that he worries a lot. There is no recent, probative clinical evidence to establish a severe mental impairment at this time. Claimant did not provide a DHS-49 Medical Examination Report.

(11) Claimant stated he was formerly on SSI, before he was in prison. Claimant has attempted to re-qualify for his SSI with Social Security. Thus far, he has been unsuccessful.

## **CONCLUSIONS OF LAW**

### **CLAIMANT'S POSITION**

Claimant thinks he is entitled to MA-P/SDA benefits based on the impairments listed in paragraph #4, above.

### **DEPARTMENT'S POSITION**

The department thinks that claimant has the Residual Functional Capacity (RFC) to perform normal work activities.

### **LEGAL BASE**

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms)... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

To determine to what degree a mental impairment limits claimant's ability to work, the following regulations must be considered.

(a) **Activities of Daily Living.**

**...Activities of daily living** including adaptive activities such as cleaning, shopping, cooking, taking public transportation, paying bills, maintaining a residence, caring appropriately for one's grooming and hygiene, using telephones and directories, using a post office, etc. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(1).

(b) **Social Functions.**

**...Social functioning** refers to an individual's capacity to interact independently, appropriately, effectively, and on a sustained basis with other individuals. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(2).

Social functioning includes the ability to get along with others, such as family members, friends, neighbors, grocery clerks, landlords, or bus drivers. You may demonstrate impaired social functioning by, for example, a history of altercations, evictions, firings, fear of strangers, avoidance of interpersonal relationships, or social isolation. You may exhibit strength in social functioning by such things as your ability to initiate social contacts with others, communicate clearly with others, or interact and actively participate in group activities. We also need to consider cooperative behaviors, consideration for others, awareness of others' feelings, and social maturity. Social functioning in work situations may involve interactions with the public, responding appropriately to persons in authority (e.g., supervisors), or cooperative behaviors involving coworkers. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(2).

(c) **Concentration, persistence or pace.**

...**Concentration, persistence or pace** refers to the ability to sustain focused attention and concentration sufficiently long to permit the timely and appropriate completion of tasks commonly found in work settings. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(3).

Limitations in concentration, persistence, or pace are best observed in work settings, but may also be reflected by limitations in other settings. In addition, major limitations in this area can often be assessed through clinical examination or psychological testing. Wherever possible, however, a mental status examination or psychological test data should be supplemented by other available evidence. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(3).

**Claimant has the burden of proof** to show by a preponderance of the medical evidence in the record that his mental/physical impairments meet the department's definition of disability for MA-P/SDA purposes. PEM 260/261. "Disability," as defined by MA-P/SDA standards is a legal term which is individually determined by a consideration of all factors in each particular case.

**STEP 1**

The issue at Step 1 is whether claimant is performing Substantial Gainful Activity (SGA). If claimant is working and is earning substantial income, he is not eligible for MA-P/SDA.

SGA is defined as the performance of significant duties over a reasonable period of time for pay. Claimants who are working or otherwise performing Substantial Gainful Activity (SGA) are not disabled regardless of medical condition, age, education or work experience. 20 CFR 416.920(b).

The vocational evidence of record shows claimant is not currently performing SGA.

Therefore, claimant meets the Step 1 disability test.

**STEP 2**

The issue at Step 2 is whether claimant has impairments which meet the SSI definition of severity/duration. Claimant must establish an impairment which is expected to result in death, or has existed for 12 months, and totally prevents all current work activities. 20 CFR 416.909.

Also, to qualify for MA-P/SA, claimant must satisfy both the gainful work and the duration criteria. 20 CFR 416.920(a).

Since the severity/duration requirement is a *de minimus* requirement, claimant meets the Step 2 disability test.

**STEP 3**

The issue at Step 3 is whether claimant meets the Listing of Impairments in the SSI regulations. Claimant does not allege disability based on the Listings.

Therefore, claimant does not meet the Step 3 eligibility test.

**STEP 4**

The issue at Step 4 is whether claimant is able to do his previous work. Claimant previously worked as a drywall hanger. This was skilled, heavy work.

The medical evidence of record does not establish any physical impairment that would prevent claimant from returning to his work as a drywall hanger.

For this reason, claimant does not meet the Step 4 disability test.

**STEP 5**

The issue at Step 5 is whether claimant has the Residual Functional Capacity (RFC) to do other work.

**Claimant has the burden of proof** to show by the medical/psychological evidence in the record, that his combined impairments meet the department's definition of disability for MA-P/SDA purposes.

First, claimant alleges disability based on a mental impairment: Schizophrenia; Paranoia, poor memory, anxiety and chronic fatigue. The consulting psychologist reports that claimant's impairments place moderate limitations on his ability to work, but do not rule out all work activities. Also, claimant did not provide a DHS-49D or a DHS-49E to establish his mental residual functional capacity.

Second, claimant thinks he is disabled based on chronic fatigue.

There is no current probative clinical evidence to establish that the claimant's chronic fatigue totally precludes all work activity.

In short, the Administrative Law Judge is not persuaded that claimant is totally unable to work based on his combination of impairments

Claimant performs a significant number of activities of daily living and has an active social life with his daughter. Considering the entire medical record, in combination with claimant's testimony, the Administrative Law Judge concludes that claimant is able to perform simple, unskilled sedentary work (SGA). In this capacity, he is physically able to work as a ticket taker for a theatre, as a parking lot attendant, and as a greeter for [REDACTED].

Based on this analysis, the department correctly denied claimant's MA-P/SDA application, based on Step 5 of the sequential analysis, as presented above.

#### DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that claimant does not meet the MA-P/SDA disability requirements under PEM 260/261.

Accordingly, the department's denial of claimant's MA-P/SDA application is, hereby,  
AFFIRMED.

SO ORDERED.

Jay W. Sexton  
Administrative Law Judge  
for Ismael Ahmed, Director  
Department of Human Services

Date Signed: August 3, 2009

Date Mailed: August 4, 2009

**NOTICE:** Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the mailing date of the rehearing decision.
