

STATE OF MICHIGAN
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES

ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF: [REDACTED]

Claimant

Reg. No: 2009-21697

Issue No: 2009

Case No: [REDACTED]

Load No: [REDACTED]

Hearing Date:

August 5, 2009

Kalamazoo County DHS

ADMINISTRATIVE LAW JUDGE: Jana A. Bachman

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9; and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on August 5, 2009.

ISSUE

Whether the Department of Human Services (department) properly determined that claimant has not established disability for purposes of Medical Assistance (MA).

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

(1) February 2, 2009, claimant applied for MA. Claimant submitted medical records for department consideration.

(2) February 13, 2009, the Medical Review Team approved claimant's State Disability medical review. MRT did not indicate its decision on MA application. Department Exhibit (Department) A.

(3) February 26, 2009, the department sent claimant written notice that the application was denied.

(4) March 24, 2009, the department received claimant's timely request for hearing.

(5) May 15, 2009, the State Hearing Review Team (SHRT) denied claimant's application. Department B.

(6) August 5, 2009, the telephone hearing was held.

(7) Claimant asserts disability based on impairments caused by COPD and a fractured neck.

(8) Claimant testified at hearing. Claimant is 45 years old, 5'7" tall, and weighs 155 pounds. Claimant completed 11th grade, a GED and is trained as a plumber. Claimant is able to read, write, and perform basic math. Claimant's driver's license is suspended. Claimant cares for his needs at home.

(9) Claimant's past relevant employment has been plumber.

(10) October 2, 2008, the MRT approved claimant's disability for SDA apparently due to acute and severe dental infection and surgery to remove infected teeth. Medical review was set for February 2009 and approval notes that condition began in August 2008. Department A, page 72. February 13, 2009, MRT set claimant's SDA medical review for June 2009 and noted that the approval was for a new impairment, ankle fracture. Department A, page 2.

(11) November 21, 2008, claimant underwent an independent physical exam and a report was prepared. The report states, in pertinent part, that neck was supple without apparent

masses; chest had inspiratory and expiratory wheezes, rhonchi, and coarse rales; no accessory muscle use; no evidence of joint laxity, crepitation, or effusion; grip strength is intact; dexterity is not impaired; patient had no difficulty getting on and off exam table, no difficulty heel and toe walking, and no difficulty squatting and arising, and no difficulty hopping; range of motion was normal except for right and left rotation of cervical spine which was reduced to 40 degrees bilaterally. Post-bronchodilator FEV1 was high of 2.4 and low of 2.1; FVC was high of 3.5 and low of 3.0. Department A, Report, November 21, 2008. Chest x-rays conducted on June 11, 2008 revealed a stable chest. Department A, page 27. Chest x-rays

(12) July 30, 2008, claimant underwent x-rays of the cervical spine and a report was prepared that states findings of 5mm anterior displacement of the anterior arch of C1 with respect to C2 in flexion compared to extension. Department A, page 37. August 27, 2008 CT scan of the cervical spine revealed unchanged odontoid fracture. Department A, page 45. July 30, 2008 MRI of the cervical spine revealed C6-7 mild disc protrusion without neural impingement. Department A, page 40.

(13) December 16, 2008, claimant presented to hospital complaining of ankle pain. Objective medical testing revealed claimant to have fractured ankle and alcohol intoxication. Department A, pages 49-57.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative

Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms)... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

If an individual fails to cooperate by appearing for a physical or mental examination by a certain date without good cause, there will not be a finding of disability. 20 CFR 416.994(b)(4)(ii).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).

3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and so is not disqualified from receiving disability at Step 1.

At Step 2, the objective medical evidence of record indicates that claimant has an old fracture at C1. At hearing, claimant stated that he must wear a neck collar and has done so for a year. This statement is not consistent with medical evidence which indicates claimant does not require a neck collar (See page 88 of Department A). Claimant has restricted range of cervical motion in left and right rotation. All other range of motion is within normal limits. The objective medical evidence of record indicates claimant has pulmonary disease with rhonchi, rales and wheezes. Pulmonary function tests revealed FEV1 and FVC levels greater than that which is disabling. Claimant fracture his ankle in December 2008. The record contains no objective medical evidence that claimant continues to have long term severe impairments due to the fractured ankle. Finding of Fact 11-13; SSA Listing 3.02 A &B.

At Step 2, the objective medical evidence of record is not sufficient to establish that claimant has severe impairments that have lasted or are expected to last 12 months or more and

prevent employment at any job for 12 months or more. Therefore, claimant is disqualified from receiving disability at Step 2.

At Step 3, claimant's impairments do not rise to the level necessary to be specifically disabling by law.

At Step 4, claimant's past relevant employment has been as a plumber. See discussion at Step 2, above. Finding of Fact 9, 11-13.

At Step 4, the objective medical evidence of record is not sufficient to establish that claimant has functional impairments that prevent claimant, for a period of 12 months or more, from engaging in a full range of duties required by claimant's past relevant employment. Therefore, claimant is disqualified from receiving disability at Step 4.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the Dictionary of Occupational Titles, published by the Department of Labor.... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls....

20 CFR 416.967(b).

Medium work. Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. If someone can do medium work, we determine that he or she can also do sedentary and light work. 20 CFR 416.967(c).

Heavy work. Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of objects weighing up to 50 pounds. If someone can do heavy work, we determine that he or she can also do medium, light, and sedentary work. 20 CFR 416.967(d).

At Step 5, the objective medical evidence of record indicates that claimant has an old cervical fracture that restricts his left/right rotation to 40 degrees. He has pulmonary disease and objective function tests revealed function greater than that which is considered to be disabling. Claimant fractured his ankle in December 2008. The record contains no objective medical testing to establish ongoing severe impairments due to a fracture ankle. See discussion at Step 2, above. Finding of Fact 11-13.

At Step 5, the objective medical evidence of record is sufficient to establish that claimant retains the residual functional capacity to perform at least medium work activities. Considering claimant's Vocational Profile (younger individual, limited education, and history of skilled work) and relying on Vocational Rule 203.29, claimant is not disabled. Therefore, claimant is disqualified from receiving disability at Step 5.

Claimant does not meet the federal statutory requirements to qualify for disability. Therefore, claimant does not qualify for Medical Assistance based on disability and the department properly denied claimant's application.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that claimant has not established disability for Medical Assistance.

Accordingly, the department's action is **HEREBY UPHELD**.

Jana A. Bachman
Administrative Law Judge
for Ismael Ahmed, Director
Department of Human Services

Date Signed: August 17, 2009

Date Mailed: August 19, 2009

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
