

STATE OF MICHIGAN
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES

ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF: [REDACTED],
Claimant

Reg. No: 2010-10902
Issue No: 2009
Case No: [REDACTED]
Load No: [REDACTED]
Hearing Date:
January 12, 2010
Genesee County DHS

ADMINISTRATIVE LAW JUDGE: Jana A. Bachman

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9; and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on January 12, 2010.

ISSUE

Whether claimant has established disability for Medical Assistance (MA).

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) July 27, 2009, claimant applied for MA, retroactive MA and SDA.
- (2) September 10, 2009, the Medical Review Team (MRT) denied claimant's MA application and approved claimant's State Disability Assistance (SDA) application. Department Exhibit A.

(3) September 25, 2009, the department sent claimant written notice that the MA application was denied.

(4) October 16, 2009, the department received claimant's timely request for hearing.

(5) December 11, 2009, the State Hearing Review Team (SHRT) denied claimant's application. Department Exhibit B.

(6) January 12, 2010, the telephone hearing was held. Prior to the close of the record, the department testified that claimant was approved for Social Security Administration (SSA) benefits. Claimant applied August 5, 2009, and was eligible for payment effective November 2009.

(7) Claimant asserts disability based on impairments caused by mental illness.

(8) Claimant is 53 years old. Her height and weight are not known. Claimant completed eighth grade and a GED. Claimant cares for her needs at home.

(9) Claimant's has no past relevant employment.

(10) November 17, 2009, claimant underwent an independent psychological assessment and a narrative report was prepared. AXIS I diagnoses are schizoaffective disorder and polysubstance dependence, sustained, full remission. GAF was assessed at 46. During exam, claimant's hygiene was adequate and eye contact was average. Posture and gait were unremarkable. She presented with intact reality and lowered self esteem. She appeared restless. Rapport was fair. Motivation seemed good and insight seemed fair. Claimant reported a long history of depressive episodes, delusional episodes, crying, lack of motivation, low self esteem, suicidal thoughts, feelings of worthlessness, and insomnia. She reports having ongoing problems with drugs and alcohol in the past. Claimant had been hospitalized in June 2009 due to delusional and paranoid episodes. At time of exam, claimant's affect was restricted and her mood

was apathetic. Claimant was oriented X 3. Memory appeared to be within normal limits, as did general information. Abstract thinking and judgment appeared to be within normal limits.

Examiner opined that claimant's areas of difficulty are lack of concentration, motivation, and energy. During depressive episodes, she may become isolated withdrawn. During psychotic episodes, claimant is unable to relate to others. She may also be more prone to decompensation when faced with stressors causing her more severe depression or psychotic episodes. Department Exhibit A, Report, 11-17-09.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is

reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

If an individual fails to cooperate by appearing for a physical or mental examination by a certain date without good cause, there will not be a finding of disability. 20 CFR 416.994(b)(4)(ii).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and so is not disqualified from receiving disability at Step 1.

At Step 2, the objective medical evidence of record indicates that claimant has a long history of mental illness which includes paranoid delusions, suicidal ideation and attempt, and severe depression. During June 2009, claimant was admitted to hospital due to paranoid

delusions. She was treated for two week and released to a ¾ house to complete ongoing alcohol treatment that had begun two years prior. Claimant continues to have manic and depressive episodes. Her diagnoses are schizoaffective disorder and substance abuse in sustained remission. GAF is assessed at 46 indicative of serious symptoms or difficulties. Finding of Fact 10, DSM IV, 1994 R.

At Step 2, the objective medical evidence of record is sufficient to establish that claimant has severe impairments that have lasted or are expected to last 12 months or more and prevent employment at any job for 12 months or more. Therefore, claimant is not disqualified from receiving disability at Step 2.

At Step 3, claimant's impairments appear to meet Social Security Listing 12.03.

At Step 4, claimant's past relevant employment is not known. Accordingly, a Step 4 analysis cannot be completed.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the Dictionary of Occupational Titles, published by the Department of Labor.... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing

is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls....

20 CFR 416.967(b).

Medium work. Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. If someone can do medium work, we determine that he or she can also do sedentary and light work. 20 CFR 416.967(c).

Heavy work. Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of objects weighing up to 50 pounds. If someone can do heavy work, we determine that he or she can also do medium, light, and sedentary work. 20 CFR 416.967(d).

At Step 5, claimant has a non-exertional impairment: mental illness. See discussion at Steps 2-3 above. Finding of Fact 10.

At Step 5, the objective medical evidence of record is sufficient to establish that claimant does not retain the capacity to perform work activities. Accordingly, claimant is disabled and is not disqualified from receiving disability at Step 5.

Claimant meets the federal statutory requirements to qualify for disability. Therefore, claimant meets the disability requirements to qualify for Medical Assistance based on disability.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that claimant has established disability for Medical Assistance.

Accordingly, the department's action is, hereby, REVERSED. If it has not already done so, the department is to initiate a determination of claimant's financial eligibility for Medical Assistance effective the earliest appropriate retroactive month prior to her month of application, July 2009. No medical review date is necessary as claimant is currently receiving SSA disability benefits.

Jana A. Bachman
Administrative Law Judge
for Ismael Ahmed, Director
Department of Human Services

Date Signed: March 17, 2010

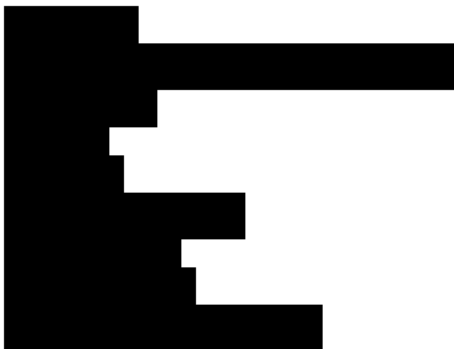

Date Mailed: March 17, 2010

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
