CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

This Appellant is claiming services through the Department's Home and Community Based Services for Elderly and Disabled (HCBS/ED). The waiver is called MI Choice in Michigan. The program is funded through the federal Centers for Medicare and Medicaid (formerly HCFA) to the Michigan Department of Community Health (Department). Regional agencies, in this case an Area Agency on Aging (AAA), function as the Department's administrative agency.

Waivers are intended to provide the flexibility needed to enable States to try new or different approaches to the efficient and cost-effective delivery of health care services, or to adapt their programs to the special needs of particular areas or groups of recipients. Waivers allow exceptions to State plan requirements and permit a State to implement innovative programs or activities on a time-limited basis, and subject to specific safeguards for the protection of recipients and the program. Detailed rules for waivers are set forth in subpart B of part 431, subpart A of part 440 and subpart G of part 441 of this chapter. *42 CFR 430.25(b)*

The U.S. Department of Health and Human Services, on page 5 of a letter to State Medical Directors labeled Olmstead Update Number 4 (SMDL #01-006), dated January 10, 2001, in reply to the following question responded, in part:

May a State use the program's funding appropriation to specify the total number of people eligible for an HCBS waiver?

CMS has allowed States to indicate that the total number of people to be served may be the lesser of either (a) a specific number pre-determined by the State and approved by CMS (the approved “factor C” value), or (b) a number derived from the amount of money the legislature has made available (together with corresponding Federal match). The current HCBS waiver preprint contains both options....

The waiver agency has committed all the financial resources made available through the Department’s appropriations and to ensure continued service to current waiver enrollees and is not assessing any additional individuals. It maintains a waiting list and contacts individuals on the list on a first come, first served basis when sufficient resources become available to serve additional individuals. It then determines how many individuals from the list it can assess and assesses a limited number of individuals from the list to determine if they may be eligible for enrollment in the MI Choice Waiver.

The Appellant’s granddaughter stated she had not been asked all the questions as indicated on the intake form. She provided answers to the questions on the form and the Waiver agency supervisor said she could change the answers, despite the fact that they had been asked of her earlier. She stated she could pull the audio tape of the intake telephone call. She further testified different answers to the questions contested by the Appellant’s granddaughter would not alter the outcome at this time.

The waiver agency witness stated the agency had to establish a waiting list due to the limited resources it has to provide services. She stated the Appellant was placed on the waiting list at the time the telephone call was made. Furthermore, the agency conducted an imminent risk screening. It was determined at that time, based upon the outcome of the screening, that the Appellant’s priority could not be moved up.

DECISION AND ORDER

Based on the above findings of fact and conclusions of law, I find the MI Choice Waiver agency properly denied Appellant enrollment and placed her on the waiting list due to limited financial resources.

IT IS THEREFORE ORDERED that:

The Department’s decision is **AFFIRMED**.
