STATE OF MICHIGAN STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES FOR THE DEPARTMENT OF COMMUNITY HEALTH

P.O. Box 30763, Lansing, MI 48909 (877) 833-0870; Fax: (517) 334-9505

IN THE MATTER OF:

Appellant

Docket No. 2010-15608 QHP Case No.

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge (ALJ) pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, following the Appellant's request for a hearing.

After due notice, a hearing was held March 10, 2010. Appeared on her own behalf. Ms. Diana Criss, Director of Medicaid, represented Priority Health, the Medicaid Health Plan (hereinafter MHP).

<u>ISSUE</u>

Did the Medicaid Health Plan properly deny Appellant's request for bariatric surgery?

FINDINGS OF FACT

Based upon the competent, material, and substantial evidence presented, I find, as material fact:

- 1. The Appellant is a 35 year old female Medicaid beneficiary who is currently enrolled in Priority Health, a Medicaid Health Plan (MHP).
- 2. On December 23, 2009, the MHP received a request for gastric bypass surgery from the Appellant's physician. The Appellant's BMI was documented as 47 and hypertension was the only obesity related comorbidity indicated by the physician. (Exhibit 1, page 9)
- 3. On December 31, 2009, the MHP sent the Appellant a denial notice stating that the request for bariatric surgery was not authorized because the

submitted clinical documentation did not establish all criteria for the procedure had been met. Specifically, the participation in a weight loss program with an approved provider for at least 6 months, or having qualifying co-morbidities. (Exhibit 1, pages 6-7)

4. The Appellant requested a formal, administrative hearing contesting the denial on January 13, 2010. (Exhibit 1, page 4)

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

On May 30, 1997, the Department received approval from the Health Care Financing Administration, U.S. Department of Health and Human Services, allowing Michigan to restrict Medicaid beneficiaries' choice to obtain medical services only from specified Medicaid Health Plans.

The Respondent is one of those Medicaid Health Plans.

The covered services that the Contractor has available for enrollees must include, at a minimum, the covered services listed below (List omitted by Administrative Law Judge). The Contractor may limit services to those which are medically necessary and appropriate, and which conform to professionally accepted standards of care. Contractors must operate consistent with all applicable Medicaid provider manuals and publications for coverage(s) and limitations. (Emphasis added by ALJ) If new services are added to the Michigan Medicaid Program, or if services are expanded, eliminated, or otherwise changed, the Contractor must implement the changes consistent with State direction in accordance with the provisions of Contract Section 1-Z.

Article II-G, Scope of Comprehensive Benefit Package. MDCH contract (Contract) with the Medicaid Health Plans, September 30, 2004.

The major components of the Contractor's utilization management plan must encompass, at a minimum, the following:

- Written policies with review decision criteria and procedures that conform to managed health care industry standards and processes.
- A formal utilization review committee directed by the Contractor's medical director to oversee the utilization review process.

Docket No. 2010-15608 QHP Decision and Order

- Sufficient resources to regularly review the effectiveness of the utilization review process and to make changes to the process as needed.
- An annual review and reporting of utilization review activities and outcomes/interventions from the review.

The Contractor must establish and use a written prior approval policy and procedure for utilization management purposes. The Contractor may not use such policies and procedures to avoid providing medically necessary services within the coverage(s) established under the Contract. The policy must ensure that the review criteria for authorization decisions are applied consistently and require that the reviewer consult with the requesting provider when appropriate. The policy must also require that utilization management decisions be made by a health care professional who has appropriate clinical expertise regarding the service under review.

Article II-P, Utilization Management, Contract, September 30, 2004.

As stated in the Department-MHP contract language above, a MHP, "must operate consistent with all applicable Medicaid Provider Manuals and publications for coverages and limitations." The pertinent section of the Michigan Medicaid Provider Manual (MPM) states:

4.22 WEIGHT REDUCTION

Medicaid covers treatment of obesity when done for the purpose of controlling life-endangering complications, such as hypertension and diabetes. If conservative measures to control weight and manage the complications have failed, other weight reduction efforts may be approved. The physician must obtain PA for this service. Medicaid does not cover treatment specifically for obesity or weight reduction and maintenance alone.

The request for PA must include the medical history, past and current treatment and results, complications encountered, all weight control methods that have been tried and have failed, and expected benefits or prognosis for the method being requested. If surgical intervention is desired, a psychiatric evaluation of the beneficiary's willingness/ability to alter his lifestyle following surgical intervention must be included.

Docket No. 2010-15608 QHP Decision and Order

If the request is approved, the physician receives an authorization letter for the service. A copy of the letter must be supplied to any other provider, such as a hospital, that is involved in providing care to the beneficiary.

> Department of Community Health, Medicaid Provider Manual, Practitioner Version Date: October 1, 2009, Page 39

The DCH-MHP contract provisions allow prior approval procedures for utilization management purposes. The MHP representative and MHP witness explained that for a procedure such as bariatric surgery, the MHP requires prior approval. In order to achieve prior approval it was further explained that specific criteria must be met. For an individual with a BMI greater than or equal to 45, the criteria include one qualifying obesity related comorbidity or documentation of active participation and compliance in an approved weight management program for at least 6 months. (Exhibit 1, page 16)

The MHP testified that the information submitted with the request for did not show that a qualifying obesity related co-morbidity was present. There are four qualifying co-morbidities:

- Significant pulmonary disease (e.g. Pickwickian Syndrome, pulmonary hypertension)
- Significant cardiac disease (e.g. ASHD, RVH or LVH)
- Hypertension requiring triple therapy
- Diabetes with Hgb $A_1C > 7.0$ and either triple therapy or insulin

(Exhibit 1, page 16)

The only co-morbidity indicated by the Appellant's physician on the Prior Authorization request was hypertension, which the physician indicated was being treated with one medication, **1** (Exhibit 1, page 9) The MHP explained that the Appellant does not meet the obesity related co-morbidity criteria for hypertension because she does not require triple therapy to manage this condition.

The MHP further testified that the Appellant did not meet the requirement of participating in an approved weight management program for at least 6 months. The office notes submitted from Michigan Weight Loss Specialists document that the Appellant only attended this program three times: January 29, 2009, February 12, 2009, and March 5, 2009. (Exhibit 1, pages 10-12)

The Appellant testified that she quit the program because of inappropriate comments made by a staff member. However, the Appellant also stated that she recently re-started the program.

The MHP's bariatric surgery prior approval process is consistent with Medicaid policy and allowable under the DCH-MHP contract provisions. The MHP demonstrated that based on the submitted information, the Appellant did not meet criteria for approval of bariatric

Docket No. 2010-15608 QHP Decision and Order

surgery. As such, the MHP properly denied prior approval of this procedure. However, this does not imply that the Appellant will never qualify for this procedure. The Appellant may wish to submit a new Prior Authorization request for this procedure upon completing 6 months in the weight loss program or if her medical circumstances change.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that the MHP properly denied the Appellant's request for gastric bypass surgery.

IT IS THEREFORE ORDERED that:

The Medicaid Health Plan's decision is AFFIRMED.

Colleen Lack Administrative Law Judge for Janet Olszewski, Director Michigan Department of Community Health
