

STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

Reg. No: 201017639
Issue No: 2009/4031
Case No: [REDACTED]
Hearing Date:
March 17, 2010
Lapeer County DHS

ADMINISTRATIVE LAW JUDGE: Landis Y. Lain

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on March 17, 2010. Claimant personally appeared and testified.

This hearing was originally held by Administrative Law Judge Ivona Rairigh. Judge Rairigh is no longer affiliated with the Michigan Administrative Hearing System Administrative Hearings for the Department of Human Services and this hearing decision was completed by Administrative Law Judge Landis Y. Lain by considering the entire record.

ISSUE

Did the Department of Human Services (the department) properly deny claimant's application for Medical Assistance (MA-P) and State Disability Assistance (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Claimant was receiving Medical Assistance and State Disability Assistance benefits based upon disability.
2. Claimant's Medical Assistance and State Disability Assistance case was scheduled for medical review December 1, 2009.
3. On January 11, 2010, the Medical Review Team (MRT) denied claimant's continued eligibility for Medical Assistance and State Disability Assistance benefits stating that claimant had medical improvement pursuant to Medical Vocational Rule 202.20.

4. On January 14, 2010, the department caseworker sent claimant notice that his continued Medical Assistance and State Disability Assistance application would be canceled February 1, 2010 based upon medical improvement.
5. On February 1, 2010, claimant filed a request for a hearing to contest the department's negative action.
6. On February 22, 2010, the State Hearing Review Team (SHRT) again denied claimant's application stating in its analysis and recommendation: This is a medical review of benefits. I am unable to do a medical review without the prior folder to compare for medical improvement. Public Law 104-121 is cited due to the materiality of drug and alcohol abuse. Additional medical information is suggested to assess the severity of the claimant's impairments. Please obtain and attach the prior file from the MRT approval in February 2008 so a medical review can be made. MA-P and SDA are denied per 20 CFR 416.913(d) insufficient evidence and because the information in file is inadequate to ascertain whether the claimant is or would be disabled for 90 days.
7. The hearing was held on March 17, 2010. At the hearing, claimant waived the time periods and requested to submit the additional medical information.
8. Additional medical information was submitted and sent to the State Hearing Review Team on March 25, 2010.
9. On March 26, 2010, the State Hearing Review Team again denied claimant's application stating in its analysis and recommendation: In January 2008 the claimant reported racing thoughts and paranoia. He also had episodic drinking behavior and cocaine use. In September 2009 the claimant continued to have similar diagnoses but his mental status was basically unremarkable. The claimant has had medical improvement. The claimant's impairments do not meet/equal the intent or severity of a Social Security Listing. The medical evidence of record indicates that the claimant retains the capacity to perform a wide range of simple, unskilled work. In lieu of detailed work history, the claimant will be returned to other work. Therefore, based on the claimant's vocational profile of a younger individual, high school education and history of unskilled work, MA-P is denied due to medical improvement and using Vocational Rule 204.00(H) as a guide. SDA is denied per PEM 261 because the nature and severity of the claimant's impairments would no longer preclude work activity at the above stated level for 90 days.

10. On the date of hearing, claimant was a 44-year-old man whose birth date is [REDACTED]. Claimant was 6'4" tall and weighed 250 pounds. Claimant attended the 12th grade. Claimant is able to read and write and does have basic math skills.
11. Claimant last worked doing roofing work in approximately 2008.
12. Claimant alleges as disabling impairments: mental health problems.

CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

In general, claimant has the responsibility to prove that he/she is disabled. Claimant's impairment must result from anatomical, physiological, or psychological abnormalities which can be shown by medically acceptable clinical and laboratory diagnostic techniques. A physical or mental impairment must be established by medical evidence consisting of signs, symptoms, and laboratory findings, not only claimant's statement of symptoms. 20 CFR 416.908; 20 CFR 416.927. Proof must be in the form of medical evidence showing that the claimant has an impairment and the nature and extent of its severity. 20 CFR 416.912. Information must be sufficient to enable a determination as to the nature and limiting effects of the impairment for the period in question, the probable duration of the impairment and the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913.

Once an individual has been determined to be “disabled” for purposes of disability benefits, continued entitlement to benefits must be periodically reviewed. In evaluating whether an individual’s disability continues, 20 CFR 416.994 requires the trier of fact to follow a sequential evaluation process by which current work activities, severity of impairment(s), and the possibility of medical improvement and its relationship to the individual’s ability to work are assessed. Review may cease and benefits may be continued at any point if there is substantial evidence to find that the individual is unable to engage in substantial gainful activity. 20 CFR 416.994(b)(5).

First, the trier of fact must determine if the individual is working and if work is substantial gainful activity. 20 CFR 416.994(b)(5)(i). Claimant is not working and is not engaged in substantial gainful activity and has not worked since approximately 2008.

Secondly, if the individual has an impairment or combination of impairments which meet or equal the severity of an impairment listed in Appendix 1 to Subpart P of Part 404 of Chapter 20, disability is found to continue. 20 CFR 416.994(b)(5)(ii). The claimant’s left eye is blind but his physical examination is otherwise within normal limits (pg 16). A mental status examination dated September 2009 showed the claimant was quite verbal and responsive. He was able to volunteer information and was cooperative. He had no complaint of hallucinations, delusions or illusions. There was no pressured speech, thinking or activity. His mood appeared to be grossly stable. Diagnoses included bipolar disorder, alcohol dependence and polysubstance dependence (pg 25). In January 2008 the claimant was depressed and anxious. He reported racing thoughts and paranoia. He had paranoid ideas about being watched (prior folder pg 32). He had a history of alcohol abuse and cocaine use. Diagnoses included bipolar I disorder and nondependent alcohol abuse-episodic drinking behavior (prior folder pg 34). Claimant’s impairments or combination of impairments do not meet or equal the severity of an impairment listed in Appendix 1.

In the third step of the sequential evaluation, the trier of fact must determine whether there has been medical improvement as defined in 20 CFR 416.994(b)(1)(i). 20 CFR 416.994(b)(5)(iii). Medical improvement is defined as any decrease in the medical severity of the impairment(s) which was present at the time of the most recent favorable medical decision that the claimant was disabled or continues to be disabled. A determination that there has been a decrease in medical severity must be based on changes (improvement) in the symptoms, signs, and/or laboratory findings associated with claimant’s impairment(s). If there has been medical improvement as shown by a decrease in medical severity, the trier of fact must proceed to Step 4 (which examines whether the medical improvement is related to the claimant’s ability to do work). If there has been no decrease in medical severity and thus no medical improvement, the trier of fact moves to Step 5 in the sequential evaluation process. In the instant case, claimant has had medical improvement.

In Step 4 of the sequential evaluation, the trier of fact must determine whether medical improvement is related to claimant's ability to do work in accordance with 20 CFR 416.994(b)(1)(i) through (b)(1)(iv). 20 CFR 416.994(b)(5)(iv). It is the finding of this Administrative Law Judge, after careful review of the record, that there has been an increase in claimant's residual functional capacity based on the impairment that was present at the time of the most favorable medical determination.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

This Administrative Law Judge finds that according to the medical evidence contained in the record claimant can perform at least light or sedentary work even with limited impairments.

In the fifth step of the sequential evaluation, the trier of fact must consider whether any of the exceptions in 20 CFR 416.994(b)(3) and (b)(4) apply. If none of them apply, claimant's disability must be found to continue. 20 CFR 416.994(b)(5)(v).

The first group of exceptions to medical improvement (i.e., when disability can be found to have ended even though medical improvement has not occurred), found in 20 CFR 416.994(b)(3), are as follows:

- (1) Substantial evidence shows that the claimant is the beneficiary of advances in medical or vocational therapy or technology (related to claimant's ability to work).

- (2) Substantial evidence shows that the claimant has undergone vocational therapy (related to claimant's ability to work).
- (3) Substantial evidence shows that based on new or improved diagnostic or evaluative techniques, claimant's impairment(s) is not as disabling as it was considered to be at the time of the most recent favorable medical decision.
- (4) Substantial evidence demonstrates that any prior disability decision was in error.

In examining the record, this Administrative Law Judge finds that none of the exceptions to medical improvement apply in this case.

The second group of exceptions is medical improvement, found at 20 CFR 416.994(b)(4), are as follows:

- (1) A prior determination was fraudulently obtained.
- (2) Claimant did not cooperate.
- (3) Claimant cannot be located.
- (4) Claimant failed to follow prescribed treatment which would be expected to restore claimant's ability to engage in substantial gainful activity.

After careful review of the record, this Administrative Law Judge finds that none of the second group of exceptions to medical improvement applies in this case.

Thus, this Administrative Law Judge finds that claimant's medical improvement is related to claimant's ability to do work. If there is a finding of medical improvement related to claimant's ability to perform work, the trier of fact is to move to Step 6 in the sequential evaluation process.

In the sixth step of the sequential evaluation, the trier of fact is to determine whether the claimant's current impairment(s) is severe per 20 CFR 416.921. 20 CFR 416.994(b)(5)(vi). If the residual functional capacity assessment reveals significant limitations upon a claimant's ability to engage in basic work activities, the trier of fact moves to Step 7 in the sequential evaluation process. In this case, the residual functional capacity assessment revealed there are no significant limitations upon claimant's ability to engage in basic work activities.

In the seventh step of the sequential evaluation, the trier of fact is to assess a claimant's current ability to engage in substantial gainful activities in accordance with 20 CFR 416.960 through 416.969. 20 CFR 416.994(b)(5)(vii). The trier of fact is to assess the claimant's current residual functional capacity based on all current impairments and consider whether the claimant can still do work he/she has done in the past. In this case, this Administrative Law Judge finds that claimant can probably perform his prior work as a roofer, but that the residual functional capacity assessment indicates that claimant could perform medium, light or sedentary type tasks at the very least.

In the final step, Step 8, of the sequential evaluation, the trier of fact is to consider whether the claimant can do any other work, given the claimant's residual function capacity and claimant's age, education, and past work experience. 20 CFR 416.994(b)(5)(viii). In this case, based upon claimant's vocational profile of a younger individual age 44, high school education and history of unskilled work MA-P is denied due to medical improvement and using Vocational Rule 204.00(H).

The Federal Regulations at 20 CFR 404.1535 speak to the determination of whether Drug Addiction and Alcoholism (DAA) is material to a person's disability and when benefits will or will not be approved. The regulations require the disability analysis be completed prior to a determination of whether a person's drug and alcohol use is material. It is only when a person meets the disability criterion, as set forth in the regulations, that the issue of materiality becomes relevant. In such cases, the regulations require a sixth step to determine the materiality of DAA to a person's disability.

When the record contains evidence of DAA, a determination must be made whether or not the person would continue to be disabled if the individual stopped using drugs or alcohol. The trier of fact must determine what, if any, of the physical or mental limitations would remain if the person were to stop the use of the drugs or alcohol and whether any of these remaining limitations would be disabling.

Claimant's testimony and the information contained in the file indicate that claimant has a history of tobacco, drug, and alcohol abuse. Applicable hearing is the Drug Abuse and Alcohol (DA&A) Legislation, Public Law 104-121, Section 105(b)(1), 110 STAT. 853, 42 USC 423(d)(2)(C), 1382(c)(a)(3)(J) Supplement Five 1999. The law indicates that individuals are not eligible and/or are not disabled where drug addiction or alcoholism is a contributing factor material to the determination of disability. After a careful review of the credible and substantial evidence on the whole record, this Administrative Law Judge finds that claimant does not meet the statutory disability definition under the authority of the DA&A Legislation because his substance abuse is material to his alleged impairment and alleged disability.

The department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1. Because the claimant does not meet

the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability criteria for State Disability Assistance benefits either

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was no longer eligible to Medical Assistance and/or State Disability Assistance benefits based upon medical improvement.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department has appropriately established on the record that it was acting in compliance with department policy when it denied claimant's continued application for Medical Assistance and State Disability Assistance benefits based upon medical improvement. The claimant should be able to perform a wide range of light or sedentary work even with his impairments. The department has established its case by a preponderance of the evidence.

Accordingly, the department's decision is AFFIRMED.

/S/

Landis Y. Lain
Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date Signed: June 8, 2011

Date Mailed: June 8, 2011

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
