

STATE OF MICHIGAN  
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER:

[REDACTED]

Reg No. 201020993  
Issue No. 2009/4031  
Case No. [REDACTED]  
Load No. [REDACTED]  
Hearing Date: March 23, 2010  
Tuscola County DHS

**ADMINISTRATIVE LAW JUDGE:** Marlene B. Magyar

**HEARING DECISION**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the claimant's request for a hearing. After due notice, a telephone hearing was held on March 23, 2010. Claimant and his father personally appeared and testified.

**ISSUE**

Did the department properly determine claimant is not disabled by Medicaid (MA) and State Disability Assistance (SDA) eligibility standards?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds a material fact:

1. On November 30, 2009, claimant applied for disability-based medical coverage (MA) and a monthly cash grant (SDA).
2. When the department denied that application claimant filed a timely hearing request to protest the denial, held by conference telephone on March 23, 2010.
3. Claimant is a single male with a high school education and a valid driver's license who will be 36 years old on [REDACTED].

4. Claimant has resided with his parents since leaving his heavy exertional job as an industrial electrician (certified) in November 2008 secondary to a lower back injury.
5. Claimant alleges debilitating lower back and bilateral knee pain, combined with carpal tunnel pain symptoms cause him to meet the disability standard necessary to qualify for the benefits he seeks.
6. Claimant stands 6'2" tall and is medically obese at 385 pounds (BMI=49.5) despite undergoing gastric bypass surgery in 2001 (Department Exhibit #1, pg 36).
7. Claimant's past surgical history includes a left carpal tunnel release and left orthopedic wrist surgery in 2001; continued numbness and tingling exists in claimant's left hand and he reports right hand pain/numbness/tingling which has never been surgically addressed (Department Exhibit #1, pgs 35 and 36).
8. On May 1, 2009 (six months prior to MA/SDA application filing), claimant underwent a lumbar spine MRI scan which revealed herniated discs at L4-L5 and L5-S1 with a possible herniation at L3-L4; additionally, moderate to severe right neural foraminal stenosis is verified at L5-S1 and moderate bilateral neural foraminal stenosis is verified at L4-5 with significant nerve compression which causes radiculopathic pain into claimant's right lower extremity (Department Exhibit #1, pgs 59 and 60; Client Exhibit A, pgs 14 and 15).
9. On October 30, 2009, claimant consulted with a specialist in physical medicine and rehabilitation who reviewed his records and opined claimant should avoid all repetitive bending/stooping/trunk twisting, and also, he should refrain from routinely lifting more than ten pounds and alternate between sitting and standing as needed (at will)(Client Exhibit A, pgs 14 and 15).
10. As of the hearing date, claimant's treating physician was prescribing narcotic pain medication every four hours (Lorocet), which was not effectively controlling claimant's pain symptoms.
11. Claimant's ongoing symptoms include chronic pain ("7" after medication is taken), insomnia, fatigue, depression, lack of concentration, inability to sit/stand/walk/bend for any length of time, etc.; all of these symptoms are consistent with claimant's existing spinal impairments as verified by the MRI (See Finding of Fact #8 above).

12. On February 24, 2010, claimant's family doctor provided a written statement regarding claimant's residual functional capacity which is consistent with the consulting specialist's assessment (See Finding of Fact #9 above).
13. Claimant's family doctor reported claimant's condition has now deteriorated to the point where he should not engage in any prolonged sitting/standing/walking (Client Exhibit B).

### **CONCLUSIONS OF LAW**

The Medical Assistance (MA) program is established by the Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (formerly known as the Family Independence Agency) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months....  
20 CFR 416.905

The SDA program differs from the federal MA regulations in that the durational requirement is 90 days. This means that the person's impairments must meet the SSI disability standards for 90 days in order for that person to be eligible for SDA benefits.

The person claiming a physical or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for recovery and/or medical assessment of ability to do work-related activities or ability to reason and to make appropriate mental adjustments, if a mental disability is being alleged, 20 CFR 416.913. An individual's subjective pain complaints are not, in and of themselves, sufficient to establish disability. 20 CFR 416.908 and 20 CFR 416.929. By the same token, a conclusory statement by a physician or mental health professional that an individual is disabled or blind is not sufficient without supporting medical evidence to establish disability. 20 CFR 416.929.

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an

individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs.

Examples of these include –

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Medium work. Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. If someone can do medium work, we determine that he or she can also do sedentary and light work. 20 CFR 416.967(c).

Heavy work. Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of objects weighing up to 50 pounds. If someone can do heavy work, we determine that he or she can also do medium, light, and sedentary work. 20 CFR 416.967(d).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

Based on Finding of Fact #1-#13 above this Administrative Law Judge answers:

Step 1: No.

Step 2: Yes.

Step 3: Yes. Claimant has shown, by clear and convincing documentary evidence and credible testimony, his spinal impairments meet or equal Listing 1.04(A):

1.04 *Disorders of the Spine* (e.g., herniated nucleus pulposus, spinal arachnoiditis, spinal stenosis, osteoarthritis, degenerative disc disease, facet arthritis, vertebral fracture), resulting in compromise of a nerve root (including the cauda equine) or the spinal cord. With:

A. Evidence of nerve root compression characterized by neural-anatomic distribution of pain, limitation of motion of the spine, motor loss (atrophy with associated muscle weakness or muscle spasm) accompanied by sensory or reflex loss and, if there is involvement of the lower back, positive straight-leg raising tests (sitting and supine).

### **DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the department erred in deciding at application claimant was not disabled for potential MA/SDA eligibility purposes.

Accordingly, the department's action is REVERSED, and this case is returned to the local office for application reinstatement and processing to determine whether claimant met all of the other financial and non-financial eligibility factors

necessary to qualify for assistance under his November 30, 2009 MA/SDA application. **SO ORDERED.**

/s/  
Marlene B. Magyar  
Administrative Law Judge  
For Ismael Ahmed, Director  
Department of Human Services

Date Signed: November 22, 2010

Date Mailed: November 23, 2010

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
