

STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

[REDACTED]

Reg. No: 201029429

Issue No: 2009/4031

Hearing Date: July 27, 2010  
Ingham County DHS

ADMINISTRATIVE LAW JUDGE: Janice G. Spodarek

**HEARING DECISION**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9; and MCL 400.37 upon claimant's request for a hearing. After due notice, an in-person hearing was held on July 27, 2010. Claimant was represented at the administrative hearing by [REDACTED] Michigan collecting on behalf of a hospital. Claimant did not appear. Claimant's whereabouts are unknown.

**ISSUE**

Did the Department of Human Services (DHS) properly deny claimant's Medical Assistance (MA) and State Disability Assistance (SDA) application?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On September 29, 2009, claimant applied for MA and SDA with the Michigan Department of Human Services (DHS).
2. Claimant applied for 1 month of retro MA.
3. On February 8, 2010, the MRT denied.
4. On February 20, 2010, the DHS issued notice.
5. On April 1, 2010, claimant filed a hearing request.
6. Claimant's representative testified at the administrative hearing that claimant has an SSI application pending with the Social Security Administration (SSA).

7. On April 15, 2010, the State Hearing Review Team (SHRT) denied claimant. Pursuant to the claimant's request to hold the record open for the submission of new and additional medical documentation, on August 3, 2010, SHRT once again denied claimant for lack of severity. SHRT cited materiality of drug and alcohol abuse.
8. Claimant failed to appear for the administrative hearing and no personal testimony was given as to claimant's weight, education, drug/alcohol, nicotine, and other activities of daily living.
9. Claimant failed to appear for the administrative hearing and it is unknown if claimant is currently working.
10. Claimant failed to appear for the administrative hearing and his whereabouts are unknown. Claimant was not available for testimony and/or cross-examination.
11. The April 15, 2010 and subsequent August 3, 2010 SHRT decisions are adopted and incorporated to the following extent:

...Alleges disability due to shortness of breath, back pain, arthritis, depression. Has a 12<sup>th</sup> grade education and history of unskilled work....Admitted 2/10 due to non-cardiac chest pain and history of alcohol abuse. Only able to walk 20 seconds and reach 1.5 mets on the treadmill. An adenosine cardiolite was then done and was normal. Claimant admitted to use of both [REDACTED] in the two weeks prior to admission. 8/4-8/5. Admitted again in 5/10 due to chest pain and alcoholism. Went through alcohol withdrawal syndrome and his delirium resolved. Inpatient psych felt patient's problem was alcohol and that he should be in an alcohol program and not inpatient psych program...No evidence of significant limitation due to arthritis or back pain...Medical evidence of record does not document mental/physical impairment that significantly limits ability to perform basic work activities.

### **CONCLUSIONS OF LAW**

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Statutory authority for the SDA program states in part:

- (b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application claimant has the burden of proof pursuant to:

...You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

...Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as sure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) **Signs** are anatomical, physiological, or psychological abnormalities which can be observed, apart from your statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques. Psychiatric signs are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or perception. They must also be shown by observable facts that can be medically described and evaluated.
- (c) **Laboratory findings** are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.),

roentgenological studies (X-rays), and psychological tests. 20 CFR 416.928.

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e).

...You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques.... 20 CFR 416.927(a)(1).

The first step of the sequential analysis makes an assessment as to whether or not an individual is working. The law requires a denial where a person is working even if disability is established. 20 CFR 416.920(b).

As noted in the Findings of Fact, in this case, claimant failed to appear for the administrative hearing. It is unknown if claimant is working. Claimant's whereabouts are unknown. There is no evidence on the record at the administrative hearing with regards to claimant's work, whether claimant is currently working, and any testimony with regards to activities of daily living. The department's denial is upheld.

As noted above, claimant has the burden of proof pursuant to 20 CFR 416.912(c). Federal and state law is quite specific with regards to the type of evidence sufficient to show statutory disability. 20 CFR 416.913. This authority requires sufficient medical evidence to substantiate and corroborate statutory disability as it is defined under federal and state law. 20 CFR 416.913(b), .913(d), and .913(e); BEM 260. These medical findings must be corroborated by medical tests, labs, and other corroborating medical evidence that substantiates disability. 20 CFR 416.927, .928. Moreover, complaints and symptoms of pain must be corroborated pursuant to 20 CFR 416.929(a), .929(c)(4), and .945(e). Claimant's medical evidence in this case, taken as a whole, simply does not rise

201029429/jgs

to statutory disability by meeting these federal and state requirements. 20 CFR 416.920; BEM 260, 261.

**DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department's actions were correct

Accordingly, the department's determination in this matter is UPHELD.
