CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM 363) 9-1-2008, page 7-9 of 24 addresses the issue of eligibility for Home Help Services:

ELIGIBILITY FOR HOME HELP SERVICES

Home help services (HHS) are defined as those which the department is paying for through Title XIX (Medicaid) funds. The client must be eligible for Medicaid in order to receive these services.

Medicaid/Medical Aid(MA)

Verify the client's Medicaid/Medical aid status.

The client may be eligible for MA under one of the following:

- All requirements for MA have been met, **or**
- MA deductible obligation has been met.

The client must have a scope of coverage of:

- 1F or 2F, **or**
- 1D or 1K (Freedom to Work), **or**
- 1T (Healthy Kids Expansion).

Clients with eligibility status 07 (Income scale 2-Non MA) and scope of coverage 20 or 2B are **not** eligible for Medicaid until they have met their MA deductible obligation.

An ILS case may be opened (service program 9) to assist the client in becoming MA eligible. However, do **not** authorize HHS payment prior to the MA eligibility date. The payment must be prorated if the eligibility period is less than the full month. To prorate, divide the monthly care cost by the number of days in the month. Then, multiple that daily rates by the number of eligible days.

Note: A change in the scope of coverage by the eligibility specialist (ES) will generate a DHS-5S for cases active to services programs 1, 7, and 9.

Necessity For Service

The adult services worker is responsible for determining the necessity and level of need for HHS based on:

- Client choice.
- A complete comprehensive assessment and determination of the client's need for personal care services.
- Verification of the client's medical need by a Medicaid enrolled medical professional. The client is responsible for obtaining the medical certification of need. The Medicaid provider identification number must be entered on the form by the medical provider. The Medical Needs form must be signed and dated by one of the following medical professionals:
 - Physician.
 - Nurse practitioner.
 - Occupational therapist.
 - Physical therapist.

Exception: DCH will accept a DHS-54A completed by a VA physician or the VA medical form in lieu of the medical needs form.

The medical professional certifies that the client's need for service is related to an existing medical condition. The medical professional does not prescribe or authorize personal care services.

If the medical needs form has not been returned, the adult services worker should follow-up with the client and/or medical professional.

If the case is closed and reopened within 90 days with no changes in the client's condition, a new DHS-54A is not necessary.

Do **not** authorize HHS prior to the date of the medical professional signature on the DHS-54A.

Adult Services Manual (ASM 363) 9-1-2008,
Pages 7-9 of 24

The Adult Services Manual addresses the fact that the Adult Services Worker must have verification of medical need for assistance from a Medicaid enrolled provider in order to authorize Home Help Services. In this case, the Appellant's physician did not certify a need for assistance with any of the listed personal care services on the DHS 54-A Medical Needs form. (Exhibit 1, page 7)

The Appellant's representative testified that he does not agree with the doctor's assessment on the DHS 54-A Medical Needs form. The Appellant's representative and the Appellant's sister explained that the Appellant does need assistance with some of the listed activities.

In this case, the policy is clear; verification is required from a Medicaid enrolled medical professional certifying the client's medical need for services. The Appellant's doctor did not certify that the Appellant has a medical need for personal assistance services. The Department properly denied the Appellant's Home Help Services application based on the available information. If the Appellant is able to obtain different documentation from her doctor or another Medicaid enrolled medical professional, certifying that she has a medical need for services, she can always re-apply for Home Help Services.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds the Department has properly denied home help assistance payments for the Appellant based on the information available at the time of the re-determination.

IT IS THEREFORE ORDERED that:

The Department's decision is **AFFIRMED**.
