

**STATE OF MICHIGAN  
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES  
FOR THE DEPARTMENT OF COMMUNITY HEALTH**

P.O. Box 30763, Lansing, MI 48909  
(877) 833-0870; Fax: (517) 334-9505

**IN THE MATTER OF:**

Docket No. 2010-35133 PAC

Case No. [REDACTED]

[REDACTED]  
Appellant  
\_\_\_\_\_ /

**DECISION AND ORDER**

This matter is before the undersigned Administrative Law Judge (ALJ) pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Appellant's request for a hearing.

After due notice, a hearing was held [REDACTED]. [REDACTED], the Appellant's mother, appeared on behalf of the Appellant; [REDACTED], Appeals and Review Officer, represented the Department. [REDACTED], R.N./Utilization Review Analyst, appeared as a witness on behalf of the Department.

**ISSUE**

Did the Department properly determine that Appellant no longer met the eligibility criteria for private duty nursing (PDN) services?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. The Appellant is a [REDACTED] year-old Medicaid beneficiary who has Pierre Robin Syndrome and a cleft palate.
2. The Appellant resides with her parents.
3. The Appellant had a tracheostomy tube until [REDACTED]. She had been approved for Medicaid-covered PDN care 12 hours per day.

4. The Department received a request for PA for continuation of private duty nursing services late in ██████. In ██████ of ██████, the Department requested additional medical information pertaining to the request.
5. The Department requested additional medical information again on ████████████████████. Following review of the medical information supplied, the Department learned the Appellant's tracheostomy tube had been removed ████████████████████.
6. The Department reviewed the medical documentation submitted in support of the request for continued Medicaid covered private duty nursing. The Department determined the Appellant is not ventilator dependent, does not have oral or tracheostomy suctioning at anytime, does not have nasogastric tube feedings or medications, does not have a central line or continuous oxygen administration in combination with a pulse oximeter and documented need for observations and adjustments in the rate of oxygen administration.
7. The Department further determined the Appellant does not have a progressively debilitating physical disorder.
8. As a result of reviewing all supplied medical information supplied in support of the request for continued Medicaid covered private duty nursing, the Department determined the Appellant no longer met the qualifying medical criteria for Medicaid covered private duty nursing services.
9. The Department sent the Appellant's parents notice that Appellant was no longer eligible for PDN services.
10. On ████████████████████, the State Office of Administrative Hearings and Rules (SOAHR) received Appellant's request for a hearing, protesting the denial of PDN services.

### **CONCLUSIONS OF LAW**

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

The Children's Special Health Care Services program is established pursuant to 42 USC 700, *et seq.* It is administered in accordance with MCL 333.5805, *et seq.*

Children's Special Health Care Services (CSHCS) is a program within the Michigan Department of Community Health (MDCH) created to find, diagnose, and treat children in Michigan who have chronic illnesses or disabling conditions. Title V of the Social Security Act, Michigan Public Act 368 of 1978, and the annual MDCH Appropriations Act mandate CSHCS. CSHCS promotes the development of service structures that offer specialty health care for the CSHCS qualifying condition that is family centered, community based, coordinated, and culturally competent.

MDCH covers medically necessary services related to the CSHCS qualifying condition for individuals who are enrolled in the CSHCS Program. Medical eligibility must be established by MDCH before the individual is eligible to apply for CSHCS coverage. Based on medical information submitted by providers, a medically eligible individual is provided an application for determination of non-medical program criteria.

An individual may be eligible for CSHCS and eligible for other medical programs such as Medicaid, Adult Benefit Waiver I (ABW I), Medicare, or MICHild. To be determined dually eligible, the individual must meet the eligibility criteria for CSHCS and for the other applicable program(s).

*Medicaid Provider Manual, Children's Special Health Care Services, Section 1, April 1, 2008*

General information regarding Private Duty Nursing (PDN) may be found in the Department's Medicaid Provider Manual, Private Duty Nursing, Section 1.

This chapter applies to Independent & Agency Private Duty Nurses (Provider Types 10, 15). Private duty nursing (PDN) is a Medicaid benefit when provided in accordance with the policies and procedures outlined in this manual. Providers must adhere to all applicable coverage limitations, policies and procedures set forth. PDN is covered for beneficiaries under age 21 who meet the medical criteria in this section. If the beneficiary is enrolled in or receiving case management

services from one of the following programs, that program authorizes the PDN services.

- Children's Special Health Care Services (CSHCS)
- Home and Community-Based Services Waiver for the Elderly and Disabled (known as the MI Choice Waiver) Children's Waiver (Community Mental Health Service Program [CMHSP])
- Habilitation Supports Waiver (CMHSP)

For a Medicaid beneficiary who is not receiving services from one of the above programs, the CSHCS Program reviews the request for authorization and authorizes the services if the medical criteria and general eligibility requirements are met.

Beneficiaries who are receiving PDN services through one Medicaid program cannot seek supplemental PDN hours from another Medicaid Program (i.e., CSHCS, MI Choice Waiver, Children's Waiver, Habilitation Supports Waiver).

For beneficiaries 21 and older, PDN is a waiver service that may be covered for qualifying individuals enrolled in the MI Choice Waiver or Habilitation Supports Waiver. When PDN is provided as a waiver service, the waiver agent must be billed for the services.

*Medicaid Provider Manual, Private Duty Nursing,  
Section 1, July 1, 2010*

The Medicaid covered PDN service limitations are provided in the Medicaid Provider Manual, Private Duty Nursing, Section 1.6.

The purpose of the PDN benefit is to assist the beneficiary with medical care, enabling the beneficiary to remain in their home.

The benefit is not intended to supplant the care giving responsibility of parents, guardians, or other responsible parties (e.g., foster parents). There must be a primary caregiver (i.e., parent, guardian, significant other adult) who resides with a beneficiary under the age of 18 and the caregiver must provide a monthly

average of a minimum of eight hours of care during a typical 24-hour period. The calculation of the number of hours authorized per month includes eight hours of care that will be provided by the caregiver during a 24-hour period, which are then averaged across the hours authorized for the month. The caregiver has the flexibility to use the monthly authorized hours as needed during the month.

The time a beneficiary is under the supervision of another entity or individual (e.g., in school, in day/child care, in work program) cannot be used to meet the eight hours of obligated care as discussed above, nor can the eight hours of care requirement for beneficiaries under age 18 be met by other public funded programs (e.g., MDCH Home Help Program), or other resources for hourly care (e.g., private health insurance, trusts, bequests, private pay).

*Medicaid Provider Manual, Private Duty Nursing,  
Section 1.6, July 1, 2010.*

The medical criteria for PDN services are provided in the Medicaid Provider Manual, Private Duty Nursing in Section 2.3.

To qualify for PDN, the beneficiary must meet the medical criteria of **either** I and III below **or** II and III below:

**Medical Criteria I** – The beneficiary is dependent daily on technology-based medical equipment to sustain life. "Dependent daily on technology-based medical equipment" means:

- Mechanical ventilation four or more hours per day or assisted respiration (Bi-PAP or CPAP); or
- Oral or tracheostomy suctioning eight or more times in a 24-hour period; or
- Nasogastric tube feedings or medications when removal and insertion of the nasogastric tube is required, associated with complex medical problems or medical fragility; or
- Total parenteral nutrition delivered via a central line, associated with complex medical problems or medical fragility; or
- Continuous oxygen administration, in combination with a pulse oximeter and a

documented need for observations and adjustments in the rate of oxygen administration.

**Medical Criteria II** – Frequent episodes of medical instability within the past three to six months, requiring skilled nursing assessments, judgments or interventions (as described in III below) due to a substantiated medical condition directly related to the developmental disability. Definitions:

- "Frequent" means at least 12 episodes of medical instability related to the progressively debilitating physical disorder within the past six months, or at least six episodes of medical instability related to the progressively debilitating physical disorder within the past three months.
- "Medical instability" means emergency medical treatment in a hospital emergency room or inpatient hospitalization related to the underlying progressively debilitating physical disorder.
- "Emergency medical treatment" means covered inpatient and outpatient services that are furnished by a provider that is qualified to furnish such services and are needed to evaluate or stabilize an emergency medical condition.
- "Emergency medical condition" means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson who possesses an average knowledge of health and medicine could reasonably expect the absence of immediate medical attention would result in placing the health of the individual in serious jeopardy, serious impairment to bodily functions, or serious dysfunction of any bodily organ or part.
- "Directly related to the developmental disability" means an illness, diagnosis, or syndrome occurred during the developmental period prior to age 22, is likely to continue indefinitely, and results in significant functional limitations in 3 or more areas of life activity. Illnesses or disability acquired after the developmental period, such as stroke or heart conditions, would not be considered directly related to the developmental disability.
- "Substantiated" means documented in the clinical/medical record, including the nursing notes.

**Medical Criteria III** – The beneficiary requires continuous skilled nursing care on a daily basis during the time when a licensed nurse is paid to provide services.

Definitions:

- "Continuous" means at least once every 3 hours throughout a 24-hour period, and/or when delayed interventions may result in further deterioration of health status, in loss of function or death, in acceleration of the chronic condition, or in a preventable acute episode.
- Equipment needs alone do not create the need for skilled nursing services.
- "Skilled nursing" means assessments, judgments, interventions, and evaluations of interventions requiring the education, training, and experience of a licensed nurse. Skilled nursing care includes, but is not limited to, performing assessments to determine the basis for acting or a need for action; monitoring fluid and electrolyte balance; suctioning of the airway; injections; indwelling central venous catheter care; managing mechanical ventilation; oxygen administration and evaluation; and tracheostomy care.

*Medicaid Provider Manual,  
Private Duty Nursing July 1, 2010*

In this case, the Department determined that Appellant no longer met the eligibility criteria for PDN. The medical evidence is not contested by the Appellant's parents at hearing. At hearing, the medical criteria was discussed point by point with the Appellant's parents and the Department witness. It was agreed the Appellant's current medical status did not satisfy the medical criteria set for the in section 2.3. The Appellant must meet the criteria listed in either Sections I and III or II and III. Without meeting either I or II, no further consideration may be given.

The Appellant's parents asserted the policy contained in the Medicaid Provider manual at section 2.4, determining Intensity of Care and Maximum Amount of PDN applies and indicates the Appellant would qualify for the low category. However, their belief that the policy set forth in this section is eligibility criteria for PDN itself is misplaced. The policy set forth in Section 2.4 is to be considered for those who have been determined to meet the medical eligibility criteria set forth in the preceding Section (2.3 medical criteria), cited above.

Based on the evidence on the record, the Appellant had been approved for PDN on the basis that she met medical criteria I and III above. The uncontested material facts establish she no longer met the criteria once her tracheostomy tube was removed. That was her only qualifying medical condition. The G-tube feeding she is still participating in is not a central line because it is not feed into her vein. The fact the Appellant is taking nutrition through a G-tube does not medically qualify her for continued private duty nursing covered by Medicaid. It is not among the qualifying criteria set forth in the policy cited above. Accordingly, the Department properly determined that Appellant no longer met the eligibility criteria for PDN.

**DECISION AND ORDER**

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that the Department properly denied Appellant's request for PDN.

**IT IS THEREFORE ORDERED** that:

The Department's decision is AFFIRMED.
