STATE OF MICHIGAN STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

Reg. No: 2010-42247 Issue No: 2009; 4031

Case No: Load No:

Hearing Date: August 12, 2010

Livingston County DHS

ADMINISTRATIVE LAW JUDGE: Landis Y. Lain

HEARING DECISION

This matter is before the undersigned Admini strative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notic e, a telephone hearing was held on August 12, 2010. Claimant personally appeared and testified.

<u>ISSUE</u>

Did the Department of Human Services (the department) properly deny claimant's application for Medical Assistance (MA-P) and State Disability Assistance (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) On May 12, 2010, claimant filed an application for Medical Assistance and State Disability Assistance benefits alleging disability.
- (2) On June 18, 2010, the Medic al Re view Team denied c laimant could perform other work pursuant to Medical Vocational Rule 203.06.
- (3) On June 24, 2010, the department case worker sent claimant notice that his application was denied.
- (4) On June 30, 2010, claimant filed a request for a hearing to contest the department's negative action.
- (5) On July 16, 2010, the State Hearing Revi ew Team again denied claimant's application stating in its analysis and recommendation: Claimant is capable of performing other work in the form of medium work per 20 CFR 416.967(c) pursuant to Medical Vocational Rule 203.06.

- (6) Claimant is a 55-year-old man w hose bir th date is
 Claimant is 5'11" tall and weighs 154 pounds. Claimant is a high schoo I graduate. Claimant is able to read and wr ite and does have basic math skills.
- (7) Claimant last worked May 11, 2010, for laborer. Claimant has worked in a welding shop and as a truck driver.
- (8) Claimant alleges as disabling impairments: chronic obstructive pulmonary disease, emphysema, trigger finger on the left hand and hypertension.

CONCLUSIONS OF LAW

The State Disability A ssistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Service s (DHS or department) admin isters the SDA program pursuant to MCL 400.10, et seq., and MAC R 400.3151-400.3180. Department polic ies are found in the Bridges Administrative Manual (BAM), the Bridges Elig ibility Manual (BEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is estab lished by Title XIX of the Social Sec urity Act and is implemented by Title 42 of the C ode of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, et seq., and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substant ial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to deter mine disability. Current work activity, severity of impairments, residual functional capacity, past wor k, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experienc e. 20 CFR 416.920(c).

If the impairment or combination of impair ments do not signific antly limit physica I or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

... Medical reports should include -

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood press ure, X-rays);
- (4) Diagnosis (statement of disease or injury based on it's signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing bas ic work activities is evaluated. If an individual has the ability to perform basic work activities with out significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions:
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and

(6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment ; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other a cceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an indiv idual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "doisabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that s everal considerations be analyzed in sequential order. If disability can be ruled out at any step, analys is of the next step is <u>not</u> required. These steps are:

- 1. Does the client perf orm S ubstantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
- 2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the cli ent is ineligible for MA. If yes, the analysis c ontinues to Step 3. 20 CF R 416.920(c).
- 3. Does the impairment appear on a spec ial listing of impairments or are the cli ent's symptoms, signs, and laboratory findings at least eq uivalent in s everity to the set of medical findings specified for the listed impairment? If no, the analys is continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

- 4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
- 5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in subs tantial gainful activity and has not worked since May 11, 2010. Claimant is not disqualified from receiving disability at Step 1.

The objective medical evidenc e on the record i ndicates that claimant testifi ed that he lives alone in an apartment above a garage and is single with no children under 18. Claimant has no income and receives Food Assistance Program benefits. Claimant does have a driver's licens e but he doesn't have a car so he walks or takes the bus Claimant does cook every night and cooks things like hamburger, spaghetti, pork chops and chicken and he grocery shops one time per montoh and only needs a ride but doesn't need help to grocery shop. Claim ant does c lean his home by doing dusting, laundry and dishes, and his hobby is playing the guitar and watching TV 6-7 hours per day. Claimant testified that he can stand for 20 minutes, sit for 4-5 hours and walk 100 yards. Claimant is able to squat, bend at the wa ist, shower and dress hims elf, tie his shoes and touch his toes. His knees and back are fine and he has bad veins in his legs and feet. Claimant testified that the heaviest weight he can carry is 25 pounds and 1 0 pounds repetitively and he does smoke 2 cigarettes per day and his doctor has told him to guit and he is not in a smoking cessation program but he is triving to guit. Claimant testified that in a typical day he makes coffee, watches the news, gets dressed and goes for a walk and exercises when he comes home, eats lunch and watches more TV.

A medical examination report in the file dated May 4, 2010, indic ates that the claimant was 5'11" tall and weighed 140 pounds and his blood pressure was 116/78. He was normal in all areas of examin ation except for his respir atory system. The clinical impression is that he was stable and that he could freq uently carry 20 pounds or less. Occasionally carry 25 pounds and never carry 50 pounds or more. Claimant could stand or walk at least 2 hours in an 8 hour work day and could sit about 6 hours in an 8 hour work day and he did not require assistive devices for ambulation. He could us e both of his upper extremities for simple grasping, reaching, pushing and pulling and fine manipulating. He could oper ate both foot and leg controls with both feet and legs. Claimant had no mental limitations (p. 1-3).

A medical examination report in the file dated May 4, 2010, indicates that claimant pulse oximetry at 95% and 98%. His blood pressure was 116/78 and he weighed 140

pounds. He was well-developed, well-nourished, and in no ac ute distress. Eyes: his lids were normal without ptosis, edema, ectr opion or entropion. Pupils were equal round and reactive to light in ac commodation. Ears: the tympan ic membranes were shiny without retraction. Canals were unremarkable. Hearing was grossly normal. The nose had no abnormality. The s eptum was normal and midline. Turbinates appear ed normal. In the inspection of the lips, gums and teeth were normal. Normal oral cavity of oropharynx. The neck and the thyroid were symmetrical with no obvious mas ses. The trachea was midline. No enlar gement, tenderness, or mass of the thyroid noted. The respiratory had normal respiratory effort. Norma I to auscultation. Clear to percussion. Normal to palpation, with no fremitus. The cardiovascular had no thrills, lifts or palpable S3 or S4. Regular rate and rhythm with no murmurs, gallops, rubs, or abnormal heart sounds. Arterial pulses had normal caroti d pulses with no br uits. No palpable enlargement or bruit of abdominal or aorta. Normal f emoral pulses with no bruits or enlargements. Normal pedal pulses in capalary refills. No edema or varicosities of the extremities. The abdomen had no hernia and no masses. Liver, kidney and spleen: the liver was smooth, firm and non-tender. No hepat omegaly, hepatojugular reflex or pulsations noted. No splenomegaly or ten derness. No lymphadenapathy in the neck axillae or groin. The gain was intact. Station was normal, posture was normal. Romberg was negative. There was no clubbing, cyanosis, inflammation, hemorrhages, infection, ischemia or deformities noted. The assess ment was essential hypertension with benign assessment and CO PD with emphysema assessment and the emphysem a had improved (pp. 6-8).

At Step 2, claimant has the burden of proof of establis hing that he has a severely restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in the record that claimant suffers a severely restrictive physical or mental impairment. in multiple areas of his Claimant has reports of pain body; however, there are no corresponding clinic al findings that suppor t the reports of symptoms and limitations made by the claimant. There are no labor atory or x-ray findings listed in the file. The clinical impression is that claimant is stable. There is no medical finding that claimant has any muscle atrophy or trauma, abnormality or injury that is consistent with a deteriorating condition. In short, claimant has restricted himself from tasks associated with occupational functioning based upon his reports of pain (symptoms) rather than medical findings. Reported symptoms are an insufficient basis upon which a finding that claimant has met the evidentiary burden of proof can be made. This Administrative Law Judge finds that the medical record is insu fficient to establish that claim ant has a severely restrictive physical impairment.

Claimant alleges no mental impairments.

There is insufficient objective medical/ps ychiatric evidence in the record indicating claimant s uffers severe mental limitations. There is no ment all residual functional capacity assessment in the record. There is in sufficient evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was or liented to time, person and place during the

hearing. Claimant was able to answer all of the questi ons at the hearing and was responsive to the questions. The evidentiar y record is insufficient to find that claimant suffers a severely restrictive mental impair ment. For these reasons, this Administrative Law Judge finds that claimant has failed to meet his burden of proof at Step 2. Claimant must be denied benefits at thi s step based upon his failure to meet the evidentiary burden.

If claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidence of claimant's condition does not give rise to a finding that he would meet a statutory listing in the code of federal regulations.

If claimant had not already been denied at Step 2, this Administrative Law Judge would have to deny him again at Step 4 based upon hi s ability to perform his past relevant work. There is no evidence upon which this Administrative Law Judge could base a finding that claimant is unable to perform work in which he has engaged in, in the past. Therefore, if claimant had not already been denied at Step 2, he would be denied a gain at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not claimant has the residual functional capacity to perform some other less strenuous tasks than in his prior jobs.

At Step 5, the burden of proof shifts to the department to establish that claimant does not have residual functional capacity.

The residual functional capac ity is what an individual can do desp ite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we class ify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more t han 10 pounds at a time and occasionally lifting or carrying articles lik e docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light wor k involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this categor y when it requires a good deal of walking or

standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Claimant has submitted insufficient objecti ve medical evidence that he lacks the residual functional capacity to perform some other less strenuous tasks than in his prior employment or that he is physically unable to do light or sedentary tasks if demanded of him. Claimant's activities of daily living do not appear to be very limited and he should be able to perform light or sedentary work even with his impairments. Claimant has failed to pr ovide the necessary objective medical evidence to establish that he has a severe impairment or combination of impairments which prevent him from performing any level of work for a period of 12 mont hs. The claimant's testimony as to his limitations indicates that he should be able to perform light or sedentary work.

There is insufficient objective medical/ps ychiatric evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was able to answer all the questions at the hearing and was responsive to the questions. Claimant was oriented to time, person and place during the hearing. Claimant's complaints of pain, while profound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establish that claimant has no residual functional capacity. Claimant is disqualified from receiving disability at Step 5 based upon the fact that he has not established by objective medical evidence that he cannot perform light or sedentary work even with his impairments.

It should be noted that claimant continues to smoke despite the fact that his doctor has told him to quit. Claimant is not in compliance with his treatment program.

If an individual fails to follow prescribed treatment which would be expected to restore their ability to engage in substantial activity without good cause, there will not be a finding of disability.... 20 CFR 416.994(b)(4)(iv).

The department's Program Elig ibility Manual contains the following policy statements and instructions for casework ers regarding the State Disability Assistance program: to receive State Disability Assist ance, a person must be disabled, caring for a disable diperson or age 65 or older. BEM , Item 261, p. 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability craiteria for State Disability Assistance benefits either.

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was not eligible to receive Medical Assistance and/or State Disability Assistance.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusion sof law, decides that the department has appropriately established on the record that it was acting in compliance with department policy when it denied claimant's application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits. The claimant should be able to perform a wide range of light or sedentary work even with his impairments. The department has established its case by a preponderance of the evidence.

Accordingly, the department's decision is AFFIRMED.
