

STATE OF MICHIGAN
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER:

[REDACTED]

Reg No. 201046233
Issue No. 2009/4031
Case No. [REDACTED]
Load No. [REDACTED]
Hearing Date: September 29, 2010
Presque Isle County DHS

ADMINISTRATIVE LAW JUDGE: Marlene B. Magyar

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the claimant's request for a hearing. After due notice, an in-person hearing was held on September 29, 2010. Claimant personally appeared and testified. He was assisted by [REDACTED].

ISSUE

Did the department properly determine claimant is not disabled by Medicaid (MA) and State Disability Assistance (SDA) eligibility standards?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds a material fact:

1. Claimant is a divorced, 49-year-old Army Veteran with a history of tobacco abuse who resides independently in [REDACTED] (Department Exhibit #1, pgs 1-5).
2. On February 12, 2010, claimant applied for disability-based MA/retro-MA/SDA.
3. When that application was denied claimant filed a hearing request, held in-person at the local DHS office on September 29, 2010.
4. Claimant stands approximately 6'2" tall and weighs approximately 200 pounds (Department Exhibit #1, pg 5).

5. Claimant has a general equivalency diploma (GED), and also, he completed corrections officer training and trade school (Department Exhibit #1, pg 5).
6. Claimant's relevant work history includes stocking shelves, mechanics, CDL certified bus driving and several years as a corrections officer (1991-2000), but he is not employed anywhere now secondary to his pain residuals following two lower lumbar spine surgeries beginning with a 2006 left L4-L5 hemilaminectomy following his 2005 motorcycle accident.
7. After the first surgery claimant continued to suffer chronic pain unrelieved by all conservative methods; consequently, he underwent a repeat procedure in December 2008 (Department Exhibit #1, pgs 37-38 and 151).
8. Claimant's follow-up lumbar spine MRI scan, dated May 29, 2009, confirms scar tissue surrounds claimant's L4-L5 area, and also, disc scarring contacts with his exiting left L4 root; additionally, associated diffuse bulging and facet arthropathy contributes to moderate, bilateral neural foraminal stenosis at this level (Department Exhibit #1, pg 146).
9. This MRI scan also verifies severe, bilateral foraminal stenosis exists at L5-S1, and mild/moderate degenerative changes exist throughout the remainder of claimant's lumbar area (Department Exhibit #1, pg 146).
10. In addition to chronic lower back and hip pain, claimant continues to experience bilateral, lower extremity radicular pain, numbness and "pins and needles" sensations on a daily basis, despite compliance with his narcotic pain medication

11. Additional ongoing symptoms include progressive lower extremity weakness, drowsiness secondary to pain medications, disrupted/unrestful sleep, range of motion limitations and depression secondary to claimant's compromised physical state at maximum medical improvement.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by the Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (formerly known as the

Family Independence Agency) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months....
20 CFR 416.905

The SDA program differs from the federal MA regulations in that the durational requirement is 90 days. This means that the person's impairments must meet the SSI disability standards for 90 days in order for that person to be eligible for SDA benefits.

The person claiming a physical or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for recovery and/or medical assessment of ability to do work-related activities or ability to reason and to make appropriate mental adjustments, if a mental disability is being alleged, 20 CFR 416.913. An individual's subjective pain complaints are not, in and of themselves, sufficient to establish disability. 20 CFR 416.908 and 20 CFR 416.929. By the same token, a conclusory statement by a physician or mental health professional that an individual is disabled or blind is not sufficient without supporting medical evidence to establish disability. 20 CFR 416.929.

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include –

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

When determining disability, the federal regulations require several factors to be considered, including: (1) the location/duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicant takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determine the extent of his or her functional limitations in light of the objective medical evidence presented. 20 CFR 416.929(c)(94). Also, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

Based on Finding of Fact #1-#11 above, this Administrative Law Judge answers:

Step 1: No.

Step 2: Yes.

Step 3: Yes. Claimant has shown, by clear and convincing documentary evidence and credible testimony, his spinal impairments meet or equal Listing 1.04(A)(Disorders of the Spine).

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the department erred in deciding at application that claimant is not disabled for MA/retro-MA eligibility purposes.

Accordingly, the department's action is REVERSED, and this case is returned to the local office for application reinstatement and processing to determine whether claimant meets all of the other financial and non-financial eligibility factors necessary to qualify for assistance under his disputed application. Additionally, claimant's impairments shall be reviewed for medical improvement in October 2012, unless the Social Security Administration (SSA) awards disability status by that time. **SO ORDERED.**

Department of Human Services

Date Signed: October 28, 2010

Date Mailed: November 1, 2010

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
