

STATE OF MICHIGAN  
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

Reg. No: 201053913  
Issue No: 2009/4031  
Case No: [REDACTED]  
Hearing Date:  
November 3, 2009  
Barry County DHS

ADMINISTRATIVE LAW JUDGE: Landis Y. Lain

**HEARING DECISION**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on November 3, 2010. Claimant personally appeared and testified.

This hearing was originally held by Administrative Law Judge Jana Bachman. Judge Bachman is no longer affiliated with the State Office of Administrative Hearings and Rules Department of Human Services and this hearing decision was completed by Administrative Law Judge Landis Y. Lain by considering the entire record.

**ISSUE**

Did the Department of Human Services (the department) properly determine that claimant was no longer disabled and deny her review application for Medical Assistance (MA-P) and State Disability Assistance (SDA) based upon medical improvement?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Claimant was a Medical Assistance benefit recipient and his Medical Assistance case was scheduled for review June 1, 2010.
2. On August 6, 2010, the Medical Review Team (MRT) denied claimant's continued application for Medical Assistance and State Disability Assistance benefits stating that claimant had medical improvement.
3. On August 25, 2010, the department caseworker sent claimant notice that his application was denied.

4. On September 3, 2010, claimant filed a request for a hearing to contest the department's negative action.
5. On September 23, 2010, the State Hearing Review Team (SHRT) again denied claimant's application stating in its analysis and recommended decision:

The objective medical evidence present does not establish a disability at the listing or equivalence level. The collective medical evidence shows that the claimant is capable of performing a wide range of light work. The claimant's impairments do not meet/equal the intent or severity of a Social Security Listing. The medical evidence of record indicates that the claimant retains the capacity to provide a wide range of light work. Therefore, based on the claimant's vocational profile of a young individual, high school education and a skilled work history, MA-P is denied using Vocational Rule 202.22 as a guide. SDA is denied per PEM 261 because the nature and severity of the claimant's impairments would not preclude work activity at the above stated level for 90 days.

6. On the date of hearing, claimant is a 39-year-old whose birth date is [REDACTED]. Claimant was 5'8" tall and weighted 175 pounds. Claimant completed the 12<sup>th</sup> grade and is able to read and write and does have basis math skills.
7. Claimant was employed part-time as a custodian working [REDACTED] [REDACTED]. Before that he was a bricklayer.
8. Claimant alleges as disabling impairments: a bad back; depression; hip, leg, ankle and foot injury.
9. On June 22, 2010, the Social Security Administration (SSA) issued an unfavorable decision stating that claimant was not disabled for purposes of SSI or RSDI benefits.

### **CONCLUSIONS OF LAW**

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The department

will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

In general, claimant has the responsibility to prove that he is disabled. Claimant's impairment must result from anatomical, physiological, or psychological abnormalities which can be shown by medically acceptable clinical and laboratory diagnostic techniques. A physical or mental impairment must be established by medical evidence consisting of signs, symptoms, and laboratory findings, not only claimant's statement of symptoms. 20 CFR 416.908; 20 CFR 416.927. Proof must be in the form of medical evidence showing that the claimant has an impairment and the nature and extent of its severity. 20 CFR 416.912. Information must be sufficient to enable a determination as to the nature and limiting effects of the impairment for the period in question, the probable duration of the impairment and the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913.

Once an individual has been determined to be "disabled" for purposes of disability benefits, continued entitlement to benefits must be periodically reviewed. In evaluating whether an individual's disability continues, 20 CFR 416.994 requires the trier of fact to follow a sequential evaluation process by which current work activities, severity of impairment(s), and the possibility of medical improvement and its relationship to the individual's ability to work are assessed. Review may cease and benefits may be continued at any point if there is substantial evidence to find that the individual is unable to engage in substantial gainful activity. 20 CFR 416.994(b)(5).

First, the trier of fact must determine if the individual is working and if work is substantial gainful activity. 20 CFR 416.994(b)(5)(i). In this case, the claimant is not engaged in substantial gainful activity but was on the date of hearing working as a custodian [REDACTED]

Secondly, if the individual has an impairment or combination of impairments which meet or equal the severity of an impairment listed in Appendix 1 to Subpart P of Part 404 of Chapter 20, disability is found to continue. 20 CFR 416.994(b)(5)(ii).

The objective medical evidence in the record indicates that in July 2010 the claimant had slight limitation of the right ankle with diminished motor strength. All other joints were normal. He walked with a mild right limp with the use of a cane (pgs 462-466). An x-ray of the right ankle showed heel fractures (pg 461).

At Step 2, claimant's impairments do not equal or meet the severity of an impairment listed in Appendix 1.

In the third step of the sequential evaluation, the trier of fact must determine whether there has been medical improvement as defined in 20 CFR 416.994(b)(1)(i), 20 CFR 416.994 (b)(5)(iii). Medical improvement is defined as any decrease in the medical severity of the impairment(s) which was present at the time of the most recent favorable medical decision that the claimant was disabled or continues to be disabled. A determination that there has been a decrease in medical severity must be based on changes (improvement) in the symptoms, signs, and/or laboratory findings associated with claimant's impairment(s). If there has been medical improvement as shown by a decrease in medical severity, the trier of fact must proceed to Step 4 (which examines whether the medical improvement is related to the claimant's ability to do work). If there has been no decrease in medical severity and thus no medical improvement, the trier of fact moves to Step 5 in the sequential evaluation process.

In the instant case, this Administrative Law Judge finds that claimant does have medical improvement and his medical improvement is related to the claimant's ability to perform substantial gainful activity.

If there is a finding of medical improvement related to claimant's ability to perform work, the trier of fact is to move to Step 6 in the sequential evaluation process.

In the sixth step of the sequential evaluation, the trier of fact is to determine whether the claimant's current impairment(s) is severe per 20 CFR 416.921. 20 CFR 416.994(b)(5)(vi). If the residual functional capacity assessment reveals significant limitations upon a claimant's ability to engage in basic work activities, the trier of fact moves to Step 7 in the sequential evaluation process. In this case, this Administrative Law Judge finds claimant can perform at least sedentary work even with his impairments. This Administrative Law Judge finds that claimant can perform at least sedentary work and some light work because he was employed on the date of hearing as a custodian working [REDACTED] earning [REDACTED].

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have

the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

**Sedentary work.** Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

**Light work.** Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

In the seventh step of the sequential evaluation, the trier of fact is to assess a claimant's current ability to engage in substantial gainful activities in accordance with 20 CFR 416.960 through 416.969. 20 CFR 416.994(b)(5)(vii). The trier of fact is to assess the claimant's current residual functional capacity based on all current impairments and consider whether the claimant can still do work he/she has done in the past. In this case, this Administrative Law Judge finds that claimant can probably perform his past work as a custodian, because he was currently on the date of hearing involved in working as a custodian [REDACTED] earning [REDACTED]

In the final step, Step 8, of the sequential evaluation, the trier of fact is to consider whether the claimant can do any other work, given the claimant's residual function capacity and claimant's age, education, and past work experience. 20 CFR 416.994(b)(5)(viii). In this case, based upon the claimant's vocational profile of , MA-P is denied using Vocational Rule as a guide. Claimant can perform other work in the form of light work per 20 CFR 416.967(b). This Administrative Law Judge finds that claimant does have medical improvement in this case and the department has established by the necessary, competent, material and substantial evidence on the record that it was acting in compliance with department policy when it proposed to cancel claimant's Medical Assistance and State Disability Assistance benefits based upon medical improvement.

The department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. PEM, Item 261, page 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability criteria for State Disability Assistance benefits either.

**DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department has appropriately established on the record that it was acting in compliance with department policy when it denied claimant's continued disability and application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits. The claimant should be able to perform a wide range of light or sedentary work even with his impairments. The department has established its case by a preponderance of the evidence. Claimant does have medical improvement based upon the objective medical findings in the file.

Accordingly, the department's decision is AFFIRMED.
