STATE OF MICHIGAN STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

IN THE MATTER:

Reg No.201053940Issue No.2009/4031Case No.1000Load No.1000Hearing Date:November 9, 2010Jackson County DHS

ADMINISTRATIVE LAW JUDGE: Marlene B. Magyar

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the claimant's request for a hearing. After due notice, a telephone hearing was held on November 9, 2010. Claimant personally appeared and testified.

ISSUE

Did the department properly determine claimant is not disabled by Medicaid (MA) and State Disability Assistance (SDA) eligibility standards?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds a material fact:

- 1. Claimant is a single, 23-year-old high school graduate who has never obtained a driver's license so he walks or gets rides from friends/relatives to get wherever he needs to go.
- 2. On March 26, 2010, claimant applied for a disability-based monthly cash grant (SDA) and ongoing medical coverage (MA) based on his Bipolar diagnosis.
- 3. No physical impairments are alleged or demonstrated by the medical records submitted to date (Department Exhibit #1, pgs 1-22).

- 4. When the department denied claimant's MA/SDA application he filed a hearing request, held by conference telephone on November 9, 2010.
- 5. Claimant stands approximately 6'0" tall and weighs approximately 275 pounds; he is primarily right hand dominant, per self report.
- 6. Claimant resides with a friend; he is fully independent in all activities of daily living; however, he stated at the hearing he rarely showers.
- 7. An independent mental status evaluation conducted on May 20, 2010 notes claimant's grooming, hygiene and dress were appropriate that day, and claimant reported when he was employed he would shower approximately every three days (Department Exhibit #1, pgs 16-20).
- 8. Claimant has a sporadic, unskilled work history (grocery store stock and temporary service positions); however, he has not been employed anywhere since 2008 (Department Exhibit #1, pg 3).
- 9. Likewise, claimant has an intermittent, outpatient mental health treatment history at **couple**, but his most recent case closed a "couple months" prior to his disability hearing, per self report.
- 10. diagnosed claimant with Bipolar Disorder in April 2010 (Department Exhibit #1, pg 20).
- 11. As of claimant's disability hearing date, his symptoms were being managed solely by an orally-dissolvable antidepressant).
- 12. As of claimant's independent mental status evaluation date (5/20/10), he professed full compliance in taking his medication and referred to its effectiveness as "good" (Department Exhibit #1, pg 20).
- 13. Claimant demonstrated no severe mental impairments during this evaluation; furthermore, his Global Assessment Function (GAF) was rated at 59 (60=normal).

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by the Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (formerly known as the

Family Independence Agency) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, et seq., and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

The SDA program differs from the federal MA regulations in that the durational requirement is 90 days. This means that the person's impairments must meet the SSI disability standards for 90 days in order for that person to be eligible for SDA benefits.

The person claiming a physical or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such his or her medical history, clinical/laboratory as findings, diagnosis/prescribed treatment, prognosis for recovery and/or medical assessment of ability to do work-related activities or ability to reason and to make appropriate mental adjustments, if a mental disability is being alleged, 20 CFR An individual's subjective pain complaints are not, in 416.913. and of themselves, sufficient to establish disability. 20 CFR 416.908 and 20 CFR 416.929. By the same token, a conclusory statement by a physician or mental health professional that an individual is disabled or blind is not sufficient without supporting medical evidence to establish disability. 20 CFR 416.929.

> ...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that

you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

...If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b).

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

[In reviewing your impairment]...We need reports about your impairments from acceptable medical sources.... 20 CFR 416.913(a).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

... [The record must show a severe impairment] which significantly limits your physical or mental ability to do basic work activities.... 20 CFR 416.920(c).

... Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);

Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) Signs are anatomical, physiological, or psychological abnormalities which can be observed. apart from your statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques. Psychiatric signs are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or They must also be shown by perception. observable facts that can be medically described and evaluated.
- (c) Laboratory findings are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.), roentgenological studies (X-rays), and psychological tests. 20 CFR 416.928.

It must allow us to determine --

(1) The nature and limiting effects of your impairment(s) for any period in question;

- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do workrelated physical and mental activities. 20 CFR 416.913(d).

[As Judge]...We are responsible for making the determination or decision about whether you meet the statutory definition of disability. In so doing, we review all of the medical findings and other evidence that support a medical source's statement that you are disabled.... 20 CFR 416.927(e).

Claimant does not qualify for the MA/SDA disability coverage he seeks because he has not established the existence of a medically severe condition, or combination of conditions, which would prevent employability for the necessary durations required by MA and SDA program rules. In short, absolutely nothing in this file establishes claimant is physically or mentally incapable of working in a wide variety of unskilled jobs currently existing in the national economy, which is the standard to be applied in disability determination cases. Therefore, claimant's disputed MA/SDA application must remain denied, in concurrence with the department's State Hearing Review Team (SHRT) decision dated September 28, 2010 (Department Exhibit #2).

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the department properly determined claimant is not disabled by MA/SDA eligibility standards.

Accordingly, the department's denial is AFFIRMED.

<u>/S/</u>

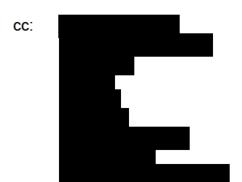

Marlene B. Magyar Administrative Law Judge For Ismael Ahmed, Director Department of Human Services

Date Signed: <u>November 22, 2010</u>

Date Mailed: <u>November 23, 2010</u>

<u>NOTICE</u>: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
