### STATE OF MICHIGAN STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

### IN THE MATTER OF:

## ADMINISTRATIVE LAW JUDGE: Landis Y. Lain

# HEARING DECISION

This matter is before the undersigned Admini strative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, an in-person hearing was held on November 16, 2010. Claimant personally appeared and testified.

### ISSUE

Did the Department of Human Services (the department) properly deny claimant's application for Medical Ass istance (MA-P) and retroactive Medical Assist ance (retro MA-P)?

## FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) On March 16, 2010, claimant filed an application for Medical Assistance, and Retroactive Medical Assistance benefits alleging disability.
- (2) On May 7, 2010, the Medical Review Team denied claimant's application stating that claimant could perform past relevant work.
- (3) On May 11, 2010, the department case worker sent claimant notice that her application was denied.
- (4) On July 28, 2010, claimant filed a request for a hearing to contest the department's negative action.
- (5) On September 27, 2010, the State Hearing Rev iew Team again denied claimant's application st ating in its' analy sis and recommendation: the

claimant has a history of a thyroid disorder and a coronary artery disease with stinting in 2008. She was admitted in F ebruary 2010, due to a anemia. She had stopped taking her thyroid medications. She received 2 units of blood and her hemoglobin did im prove. Her examination after hospitalization showed that she was obese but otherwise unremarkable. The claimant's impairments do not meet/equal the int ent or severity of a Social Security listing. The medical evidence of record indicates t hat the claimant retains the c apacity to per form a wide range of simple unskilled light work. In lieu of detaile d work history the claima nt will be returned to other work. Therefore, based on the claimant's vocational profile of a younger individual, limited education and a history of unskilled and semiskilled work, MA-P is denied us ing Vo cational Rule 202.17 as a guide. Retroactive MA-P was considered in this case and is also denied.

- (6) Claimant is a 46-year-old woman whose birth date is Claimant is 5'1" tall and weighs 260 pounds. Claimant attended the 11 grade and has no GED. Claimant is able to read and write and does have basic math skills.
- (7) Claimant last worked in 2006 on a line at a fact ory. Claimant has als o worked as a manager at a truck st op and as a shift manager at a ga s station.
- (8) Claimant alleges as disabling impairments: depression, back problems, coronary artery disease, anemia, a heart attack in 2005, underactive thyroid, hypertension.

## CONCLUSIONS OF LAW

The Medical Assistance (MA) program is estab lished by Title XIX of the Social Sec urity Act and is implemented by T itle 42 of the C ode of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substant ial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905 A set order is used to deter mine disability . Current work activity, severity of impairments, residual functional capacity, past wor k, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experienc e. 20 CFR 416.920(c).

If the impairment or combination of impair ments do not signific antly limit physica I or mental ability to do basic work activities, it is not a severe impairment(s) and disab ility does not exist. Age, education and work ex perience will not be c onsidered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings wh ich demonstrate a medical im pairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of di sease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing bas ic work activities is evaluated. If an individual has the ability to perform basic work activities with out significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as wa lking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;

- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other a cceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an indiv idual can do des pite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidenc e relevant to the claim, including m edical opinions, is rev iewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decis ion about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other ev idence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical s ource finding t hat an individual is "d isabled" or "unable to work" does not mean that disability e xists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that s everal considerations be analyzed in s equential order. If disability can be r uled out at any step, analys is of the next step is <u>not</u> required. These steps are:

- 1. Does the client perform Substant ial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
- Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
- 3. Does the impairment appear on a special listing of nt's symptoms, signs, and

laboratory findings at least equiv alent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

- 4. Can the client do the forme r work that he/she performed within the last 15 years? If yes, t he client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
- Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, A ppendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in subs tantial gainful activity and has not worked since 2006. Claimant is not disqualified from receiving disability at Step 1.

The objective medical evidence on the rec ord indicates claimant testified on the record that she lives with daughter and her daughter's boyfriend and kids and she is single with no children under 18. Cla imant testified that she has no income but does receive Food Assistance Program benefits and the Adult Medical Program. Claimant testified that her license is expired and her daughter or her boyfriend takes her places. Claimant testified that she cooks one t ime per week and c ooks things like spaghetti and hamburge r helper. Claimant testified that her daughter grocery shops for her but she does clean her house by doing dishes and laundry. Claimant testifi ed that she reads as a hobby and watches TV 6 hours per day. Claimant testified that she can stand for 30 minutes, sit all day, walk 50 yards, but cannot squat. Claimant testified that she can bend at the waist, shower and dr ess herself and tie her shoes but not touc h her toes. Claimant testified that her knees are bad, because of her weight, and her back is fine. Claimant testified that her level of pain on a scale from 1-10 without medic ation is an 8 and with medication is a 2. Claimant testified that she is left handed and her hands and arms are fine and her left leg and foot swell. Claimant te stified that the heavie st weight that she can carry is 30 pounds. Claim ant stated that in a typica I day she gets up, reads, watches TV, helps her granddaughter with her homework, cooks dinner and goes to bed.

The claimant was admitted in February 2010, due to dizzine ss. She was found to hav e hemoglobin of 7.9. S he received 2 units of packed red blood c ells and her hemoglobin went up to 9.4. Di scharged diagnosis included iron deficiency anemia probably related to menorrhagia, dizziness related to acute a nemia, a history of coronary artery diseas e with stinting in 2008, hypothyroidism with probable non-complia nce and hypertension (p. 23).

On examination in February 2010, claimant was 5'2" tall and weighed 269.4. Her blood pressure was 140/90. She had limited bending. Speech was normal. Muscle tone and

## 2010-54679/LYL

strength. Reflexes were sy mmetrically absent. There was no sensory deficit. Ambulation was stable. Her examinati on was otherwise unremarkable (p. 27). She denied being significantly depressed (p. 26).

At a physical examination on February 17, 2010, claimant's blood pressure was 137/81 and her pulse was 79, her pulse oximetry was 98%, her respiration was 18, temperature was 97.7. Her head was atr aumatic and normocephalic. She had no thyromegaly, no lymphadenopathy. The chest had good bilateral air entry, no crackles or no rhonchi. In the cardiovascular area, S1 and S2 had no mu rmur. The abdomen was soft, the bowel sounds were audible, there was no organom egaly. The lower limbs were without edema. Pedal pulses were palpable. Central nervous system was grossly intact and no focal deficit noted. Claimant had no rashes, no petechiae and no hemorrhage (p. 19).

At Step 2, claimant has the burden of pr oof of establishing that she has a severe ly restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in the record that claimant suffers a severely restrictive physical or mental impairment. in multiple areas of her body; however, there are no Claimant has reports of pain corresponding clinic al findings that suppor t the reports of symptoms and limitations made by the claimant. There are no labor atory or x-ray findings listed in the file. The clinical impression is that cl aimant is stable. There is no medical finding that claimant has any muscle atrophy or trauma, abnormality or injury that is consistent with a deteriorating condition. In short, claimant has restricted herself from tasks associated with occupational functioning ba sed upon her reports of pain (s ymptoms) rather than medical findings. Reported symptoms are an insufficient basis upon which a finding that claimant has met the evidentiary burden of pr oof can be made. This Administrative Law fficient to establish that claim ant has a Judge finds that the medical record is insu severely restrictive physical impairment.

Claimant alleges the following disabling mental impairments: depression.

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations ar e assessed using the criteria in paragraph (B) of the listings for mental di sorders (descriptions of restrict ions of activities of daily living, social functioning; c oncentration, persistence, or pace; and ability to tolerat e increased mental demands associated wit h com petitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

There is insufficient objective medical/ps ychiatric e vidence in the record indicating claimant s uffers severe mental limitations . There is no ment al residual functional capacity assessment in the record. There is in sufficient evidence contained in the file of depression or a cognitive dysfunction that is so severe that it w ould prevent claimant from working at any job. Claimant was or iented to time, person and plac e during the hearing. Claimant was able to answer all of the questi ons at the hearing and was responsive to the questions. The evidentiar y record is insufficient to find that claimant suffers a severely restrictive mental impair ment. For these reasons, this Administrative

Law Judge finds that claimant has failed to meet her burden of proof at Step 2. Claimant must be denied benefits at this step bas ed upon her failure t o meet the evidentiary burden.

If claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidence of claimant 's condition does not give rise to a finding that sh e would meet a statutory listing in the code of federal regulations.

If claimant had not already be en denied at Step 2, this Administrative Law Judge would have to deny her again at Step 4 based u pon her ability to perform her past relevant work. There is no ev idence upon which this Administrative Law Judge c ould base a finding that claimant is unable to perform work in which she has engaged in, in the past. Therefore, if claimant had not already been denied at Step 2, he would be denied again at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not claimant has the residual functional capacity to perform some other less strenuous tasks than in her prior jobs.

At Step 5, the burden of proof shifts to the department to establish that claimant does not have residual functional capacity.

The residual functional capac ity is what an individual can do desp ite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we class ify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more t han 10 pounds at a time and occasionally lifting or carrying articles lik e docket files, ledgers, and small tools. Although a sedentary job is defined as one whic h involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light wor k involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this categor y when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Claimant has submitted insufficient objecti ve medical evidence that she lacks the residual functional capacity to perform some other less strenuous tasks than in her prior employment or that she is physically unable to do light or sedentary tasks if demanded of her. Claimant's act ivities of daily liv ing do not appear to be very limit ed and sh e should be able to per form light or sedentary work even with her impairments. Claimant has failed to provide the necessary objective medical evidence to establish that she has a severe impairment or comb ination of impairments which prevent her from performing any level of work for a period of 12 mont hs. The claimant's testimony as to her limitations indicates that she should be able to perform light or sedentary work.

There is insufficient objective medical/ps vchiatric evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was able to answer all the guestions at the hearing and was responsive to the questions. Claimant was oriented to time, person and plac e during the hearing. Claimant's c omplaints of pain, while pr ofound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establis h that claimant has no residual functional capacity. Clai mant is dis gualified from receiving disability at Step 5 based upon the fact that she has not established by objective medical evidence that she cannot perform light or sedentary work even with her impairments. Under the Medical-Vocational guidelines, a younger individual (age 46), with a less than high school education and an unskilled work hi story who is limited to light work is not considered disabled.

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was not eligible to receive Medi cal As sistance and/or State Disability Assistance.

#### DECISION AND ORDER

The Administrative Law Judge, based upon t he above findings of fact and conclusion s of law, decides that the depar tment has appropriately establis hed on the rec ord that it was acting in compliance wit h department policy when it deni ed claimant's application for Medical Assistance and retroactive M should be able to perform a wide range of impairments. The department has establis hed its c ase by a preponderance of the evidence.

Accordingly, the department's decision is AFFIRMED.

Landis
