

STATE OF MICHIGAN
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

[REDACTED]

Reg. No: 2010-7654
Issue No: 2009; 4031
Case No: [REDACTED]
Load No: [REDACTED]
Hearing Date:
January 21, 2010
Wayne County DHS (43)

ADMINISTRATIVE LAW JUDGE: Landis Y. Lain

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on January 21, 2010. Claimant personally appeared and testified.

ISSUE

Did the Department of Human Services (the department) properly deny claimant's application for Medical Assistance (MA-P) and State Disability Assistance (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) On August 8, 2009, claimant filed an application for Medical Assistance and State Disability Assistance benefits alleging disability.
- (2) On September 17, 2009, the Medical Review Team denied claimant's application stating that claimant could perform prior work.
- (3) On September 26, 2009, the department caseworker sent claimant notice that his application was denied.
- (4) On October 9, 2009, claimant filed a request for a hearing to contest the department's negative action.
- (5) On December 7, 2009, the State Hearing Review Team again denied claimant's application stating in its analysis and recommendation: That it needed additional medical information.

(6) The hearing was held on January 21, 2010. At the hearing, claimant waived the time periods and requested to submit additional medical information.

(7) Additional medical information was submitted and sent to the State Hearing Review Team on January 28, 2010.

(8) On February 1, 2010, the State Hearing Review Team filed a request for additional medical information again. Additional was again submitted to the State Hearing Review Team on June 28, 2010.

(9) On July 7, 2010, the State Hearing Review Team again denied claimant's application stating in its' analysis and recommendation: The claimant was diagnosed with HIV in 1989. He has no history of any symptoms associated defining illnesses. In July 2009, the claimant's examination was completely within normal limits (p. 8). The infectious disease doctor indicated that in August 2009, the claimant was clinically stable (p. 12). He was admitted in August 2009, due to abscess in the buttocks and the papules and the groin which was treated. No new information was submitted to SHRT at this time. The previous MRT approval in August 2009, on a case filed August 13, 2009, was apparently not found or at least not attached to this file. Therefore we do not have any additional information. This denial was done by another MRT in September 2009, on a case filed August 18, 2009. Based on the information in the file, the claimant's impairment's do not meet/equal the intent or severity of a Social Security Listing. The medical evidence of record indicates that the claimant retains the capacity to perform a wide range of medium work. In lieu of detailed work history the claimant will be returned to other work. Therefore, based on the claimant's vocational profile of a younger individual, limited education, and a history of unskilled work MA-P is denied using Vocational Rule 203.25 as a guide. Retroactive MA-P was considered in this case and is also denied. SDA is denied per PEM 261 because the nature and severity of the claimant's impairment's would not preclude work activity at the above stated level for 90 days.

(10) Claimant is a 46-year-old man whose birth date is [REDACTED]. Claimant is 5'9" tall and weighs 161 pounds. Claimant is attended the 11th grade and has no GED. Claimant is able to read and write and does have basic math skills.

(11) Claimant last worked August 15, 2008, for a baker as a line leader. Claimant has also worked as a manager, working maintenance in an apartment and as a meat cutter.

(12) Claimant alleges as disabling impairments: HIV/AIDS, frozen arm, arthritis in the neck and shoulder, colitis in the stomach, a staph infection, depression, and anxiety.

CONCLUSIONS OF LAW

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms)... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms,

diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the

analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and has not worked since 2008. Claimant is not disqualified from receiving disability at Step 1.

The objective medical evidence on the record indicates that claimant testified that he is single and lives alone in a house with no children under 18 and his family helps him support himself. Claimant receives the Adult Medical Program and the Food Assistance Program benefits. Claimant has a driver's license and does drive sometimes, but usually is dizzy and has no gas, but he does drive to the grocery store and to his appointment. Claimant testified that he cooks everyday and cooks things like meat, fish, chicken and rice and that he does grocery shop 2-3 times per month with no help. Claimant testified that he does vacuum, dust, do the dishes, and the bathroom, shovel the snow and he used to garden as a hobby. Claimant testified that he can stand for an hour at a time, sit for 2 hours, can walk with no limits, and is able to squat, bend at the waist, shower and dress himself, tie his shoes and touch his toes with difficulty. Claimant testified that his knees are fine and that he has pain in his back. Claimant testified that his level of pain on a scale from 1-10 without medication is a 7 and with medication is a 5-6. Claimant testified that he is right-handed and his hands and arms are fine and he does have fungus on his feet. Claimant testified that he can carry 50 pounds but he can't do anything repetitively, he smokes 3 packs of cigarettes per week and his doctor has told him to quit and he is not in a smoking cessation program. Claimant testified that he is an alcoholic and he stopped drinking in 2006 and he smokes marijuana whenever he can. Claimant testified that he was hospitalized for 3 days in August 2009, for a staph infection. In a typical day he gets up, fixes coffee, smokes, lies around and watches television for 6 hours a day sleeps a lot and lays around.

A radiograph of the cervical spine indicates that claimant had no fracture, dislocation, or radiopaque foreign body identified. Mild degenerative changes are seen at the acromioclavicular joint. The exam was taken December 15, 2009 (p. 3 of new information). A July 8, 2009, Medical examination report indicates that claimant was 5'9" and weighed 156 pounds, his blood pressure was 126/88, and he is right hand dominant, he was normal in all areas of examination, he would be deteriorating without medication, but he did not have any mental limitations and no physical limitations (pp. 8-9).

At Step 2, claimant has the burden of proof of establishing that he has a severely restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in the record that claimant suffers a severely restrictive physical or mental impairment. Claimant has reports of pain in multiple areas of his body; however, there are no corresponding clinical findings that support the reports of symptoms and limitations made by the claimant. There are no laboratory or x-ray findings listed in the file. The clinical impression is that claimant is stable. There is no medical finding that claimant has any muscle atrophy or trauma, abnormality or injury that is consistent with a

deteriorating condition. In short, claimant has restricted himself from tasks associated with occupational functioning based upon his reports of pain (symptoms) rather than medical findings. Reported symptoms are an insufficient basis upon which a finding that claimant has met the evidentiary burden of proof can be made. This Administrative Law Judge finds that the medical record is insufficient to establish that claimant has a severely restrictive physical impairment.

Claimant alleges the following disabling mental impairments: depression and anxiety.

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

There is insufficient objective medical/psychiatric evidence in the record indicating claimant suffers severe mental limitations. There is no mental residual functional capacity assessment in the record. There is insufficient evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was oriented to time, person and place during the hearing. Claimant was able to answer all of the questions at the hearing and was responsive to the questions. The evidentiary record is insufficient to find that claimant suffers a severely restrictive mental impairment. For these reasons, this Administrative Law Judge finds that claimant has failed to meet his burden of proof at Step 2. Claimant must be denied benefits at this step based upon his failure to meet the evidentiary burden.

If claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidence of claimant's condition does not give rise to a finding that he would meet a statutory listing in the code of federal regulations.

If claimant had not already been denied at Step 2, this Administrative Law Judge would have to deny him again at Step 4 based upon his ability to perform his past relevant work. There is no evidence upon which this Administrative Law Judge could base a finding that claimant is unable to perform work in which he has engaged in, in the past. Therefore, if claimant had not already been denied at Step 2, he would be denied a gain at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not claimant has the residual functional capacity to perform some other less strenuous tasks than in his prior jobs.

At Step 5, the burden of proof shifts to the department to establish that claimant does not have residual functional capacity.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Claimant has submitted insufficient objective medical evidence that he lacks the residual functional capacity to perform some other less strenuous tasks than in his prior employment or that he is physically unable to do light or sedentary tasks if demanded of him. Claimant's activities of daily living do not appear to be very limited and he should be able to perform light or sedentary work even with his impairments. Claimant has failed to provide the necessary objective medical evidence to establish that he has a severe impairment or combination of impairments which prevent him from performing any level of work for a period of 12 months. The claimant's testimony as to her limitations indicates that he should be able to perform light or sedentary work.

There is insufficient objective medical/psychiatric evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was able to answer all the questions at the hearing and was responsive to the questions. Claimant was oriented to time, person and place during the hearing. Claimant's complaints of pain, while profound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establish that claimant has no residual functional capacity. Claimant is disqualified from receiving disability at Step 5 based upon the fact that he has not established by objective medical evidence that he cannot perform light or sedentary work even with his impairments. Under the Medical-Vocational guidelines, a younger individual (age 46), with a less than high school

education and an unskilled work history who is limited to light work is not considered disabled.

The Federal Regulations at 20 CFR 404.1535 speak to the determination of whether Drug Addiction and Alcoholism (DAA) is material to a person's disability and when benefits will or will not be approved. The regulations require the disability analysis be completed prior to a determination of whether a person's drug and alcohol use is material. It is only when a person meets the disability criterion, as set forth in the regulations, that the issue of materiality becomes relevant. In such cases, the regulations require a sixth step to determine the materiality of DAA to a person's disability.

When the record contains evidence of DAA, a determination must be made whether or not the person would continue to be disabled if the individual stopped using drugs or alcohol. The trier of fact must determine what, if any, of the physical or mental limitations would remain if the person were to stop the use of the drugs or alcohol and whether any of these remaining limitations would be disabling.

Claimant's testimony and the information indicate that claimant has a history of tobacco, drug, and alcohol abuse. Applicable hearing is the Drug Abuse and Alcohol (DA&A) Legislation, Public Law 104-121, Section 105(b)(1), 110 STAT. 853, 42 USC 423(d)(2)(C), 1382(c)(a)(3)(J) Supplement Five 1999. The law indicates that individuals are not eligible and/or are not disabled where drug addiction or alcoholism is a contributing factor material to the determination of disability. After a careful review of the credible and substantial evidence on the whole record, this Administrative Law Judge finds that claimant does not meet the statutory disability definition under the authority of the DA&A Legislation because his substance abuse is material to his alleged impairment and alleged disability.

It should be noted that claimant continues to smoke despite the fact that his doctor has told her to quit. Claimant is not in compliance with his treatment program.

If an individual fails to follow prescribed treatment which would be expected to restore their ability to engage in substantial activity without good cause, there will not be a finding of disability.... 20 CFR 416.994(b)(4)(iv).

The department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability criteria for State Disability Assistance benefits either.

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was not eligible to receive Medical Assistance and/or State Disability Assistance.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department has appropriately established on the record that it was acting in compliance with department policy when it denied claimant's application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits. The claimant should be able to perform a wide range of light or sedentary work even with his impairments. The department has established its case by a preponderance of the evidence.

Accordingly, the department's decision is AFFIRMED.
