

STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

Reg. No: 2010-23020  
Issue No: 2009; 4031  
Case No: [REDACTED]  
Hearing Date:  
April 8, 2010  
Bay County DHS

**ADMINISTRATIVE LAW JUDGE:** Landis Y. Lain for Marlene Magyar

**HEARING DECISION**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on April 8, 2010. Claimant personally appeared and testified.

This hearing was originally held by Administrative Law Judge Marlene Magyar. Marlene Magyar is no longer affiliated with the Michigan Administrative Hearing System Administrative Hearings for the Department of Human Services and this hearing decision was completed by Administrative Law Judge Landis Y. Lain by considering the entire record.

**ISSUE**

Did the Department of Human Services (the department) properly deny claimant's application for Medical Assistance (MA-P) and State Disability Assistance (SDA)?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) On August 19, 2009, claimant filed an application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits.
- (2) On February 3, 2010, the Medical Review Team denied claimant's application stating that claimant could perform other work, pursuant to Medical Vocational Rule 202.19.
- (3) On February 6, 2010, the department caseworker sent claimant notice that his application was denied.

- (4) On February 22, 2010, claimant filed a request for a hearing to contest the department's negative action.
- (5) On March 10, 2010, the State Hearing Review Team again denied claimant's application stating that claimant is capable of performing other work in the form of light work per 20 CFR 416.967(b) and unskilled work per 20 CFR 416.968(a), pursuant to Medical Vocational Rule 202.17.
- (6) On the date of hearing claimant was a 41-year-old man whose birth date is [REDACTED]. Claimant is 5'10" tall and 270 weighs pounds. Claimant completed the 11<sup>th</sup> grade and dropped out. He was right handed and he does not have a driver's license because he had 2 DUI's. Claimant lives with his mother.
- (7) Claimant last worked in 2007 for a temporary service at a salvage yard separating metal and he was fired for missing too much work because of his narcotics addiction.
- (8) Claimant alleges as disabling impairments: Carpal tunnel syndrome, knee pain, amputated fingers and heart disease.
- (9) A recent SOLQ indicates that the Social Security Administration denied claimant's application for RSDI and SSI stating that he was not disabled pursuant to payment status code N32 which states capacity for substantial gainful activity, other work, no visual impairment.

### **CONCLUSIONS OF LAW**

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The

Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and has not worked since approximately 2007. Claimant is not disqualified from receiving disability at Step 1.

The objective medical evidence on the record indicates that a psychological evaluation dated [REDACTED] indicates that claimant's posture and gait were unremarkable. Clothing was clean. Hygiene was good. Mood was depressed. Mannerisms were cooperative. He denied any difficulty finding the location and arrived at the appointment 5 minutes early (p. A2).

At the time of the evaluation he appeared to be in contact with reality. He stated he did not like who he was at all right now. There was no unusual motor activity or hyperactivity. He did not appear to have a tendency to minimize or exaggerate symptomology. His thoughts were spontaneous and well organized. There were no problems in pattern or content of speech. He denied the presence of any auditory or visual hallucinations, delusions, obsessions, persecutions, or unusual powers. He reported ongoing feelings of worthlessness and frequent suicidal ideation. His weight fluctuated 30 pounds both ways over the past year. He reported sleep patterns that are restless and allowed him to sleep only 3-4 hours per night. He came to the evaluation unaccompanied. He reported a weight of 285 pounds and a height of 5'11" tall. He appeared his stated age. Posture and gait were unremarkable. Clothing was clean. His thoughts were spontaneous and well organized. No problems in the pattern or the content of his speech were noted. He was oriented x3. He correctly stated the year is 2010 and his current address. In the immediate memory he was able to recall 6 digits forward and 4 digits backwards. He was able to recall 1 of 3 objects after a 3 minute interval. He named the current president as Obama and the previous president as Bush. He was unable to identify the president prior to Bush. He correctly stated his birth date as [REDACTED]. He named 5 large cities as Detroit, Los Angeles, Atlanta, Miami and Memphis. He named current famous people as Brad Pitt and Angelina Jolie. He identified current events as the earthquake in Haiti and famous people getting divorced (p. A3). He was unable to perform serial 7 or serial 3 calculations. Performance on single digit calculations were as follows:  $9+8=17$ ,  $12-7=5$ , and  $5*5=25$ . He was unable to calculate  $8*7$  or  $36/4$ . When asked the meaning of the saying the grass is always greener on the other side of the fence he replied, "you are always looking at what someone else has and what you do not have". When asked the meaning of the saying don't cry over spilled milk he replied, "the damage is already done". When asked how a bush and a tree are alike he replied, "they both have leaves". When asked how they were different he replied, "a tree grows really big". When asked what he should do if he found a stamped addressed envelope lying on the sidewalk he replied, "put it in the mailbox", and when asked what he would do if he discovered smoke or fire in a theatre, he responded, "get out as quickly as possible" (p. A4).

He was diagnosed with major depressive disorder, panic disorder with agoraphobia, alcohol dependence in early partial remission, poly substance dependence in sustained full remission, and a GAF of 40 and his prognosis was poor (p. A5).

A [REDACTED] physical examination indicates that, the claimant was cooperative in answering questions and following commands. The claimant's immediate, recent and remote memory was intact with normal concentration. The claimant's insight and judgment are appropriate. The claimant provides a good effort during the examination. Blood pressure on the left arm is 140/100, pulse is 80 and regular, respiratory rate is 14. Weight is 289 pounds, height is 70" without shoes. The skin is normal. In the eyes and ears, visual acuity in the right eye is 20/30, left eye is 20/25 without corrective lenses. Pupils are equal, round and reactive to light. The claimant could hear conversational speech without limitation or aides. The neck was

supple without masses. The chest breath sounds are clear to auscultation and symmetrical. There is no accessory muscle use. In the heart, there is regular rate and rhythm without enlargement. There is a normal S1 and S2. In the abdomen, the abdomen is obese and there is no organomegaly or masses. Bowel sounds are normal. In the vascular area, there is no clubbing or cyanosis appreciated. There is 1+ pitting edema present. The femoral, popliteal and dorsalis pedis and posterior tibial pulses are decreased on the right and are normal on the left. Hair growth is present on the lower extremities. The feet are warm and normal color. There are no femoral bruits. In the musculoskeletal area there is no evidence of joint laxity, crepitation or effusion. There is no synovial thickening about the right knee. Grip strength remains intact. Dexterity is unimpaired. The claimant could pick up a coin, button clothing and open a door. The claimant had no difficulty getting on and off the examination table, mild difficulty heel and toe walking, mild difficulty performing a partial squat and mild difficulty standing on either foot. Range of motion studies were normal (pp. A7-A8). In the neurological area, cranial nerves are intact. Motor strength and tone are normal. Sensory is intact to light touch and pinprick. Romberg testing is negative. The claimant walks with a normal gait without the use of an assist device. Reflexes are normal (p. A9).

Conclusion is right knee pain and coronary disease, however, there are no other findings of significant cardio pulmonary disease, but his blood pressure was mildly elevated. Weight reduction would be of benefit. He did have some lower extremity edema (p. A10).

At Step 2, claimant has the burden of proof of establishing that she has a severely restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in the record that claimant suffers a severely restrictive physical or mental impairment. Claimant has reports of pain in multiple areas of his body; however, there are no corresponding clinical findings that support the reports of symptoms and limitations made by the claimant. There are no laboratory or x-ray findings listed in the file. The clinical impression is that claimant is stable. There is no medical finding that claimant has any muscle atrophy or trauma, abnormality or injury that is consistent with a deteriorating condition. In short, claimant has restricted himself from tasks associated with occupational functioning based upon his reports of pain (symptoms) rather than medical findings. Reported symptoms are an insufficient basis upon which a finding that claimant has met the evidentiary burden of proof can be made. This Administrative Law Judge finds that the medical record is insufficient to establish that claimant has a severely restrictive physical impairment.

Claimant alleges the following disabling mental impairments: depression, anxiety, agoraphobia.

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate

increased mental demands associated with competitive work)... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

There is insufficient objective medical/psychiatric evidence in the record indicating claimant suffers severe mental limitations. There is no mental residual functional capacity assessment in the record. There is insufficient evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was oriented to time, person and place during the hearing. Claimant was able to answer all of the questions at the hearing and was responsive to the questions. The evidentiary record is insufficient to find that claimant suffers a severely restrictive mental impairment. For these reasons, this Administrative Law Judge finds that claimant has failed to meet his burden of proof at Step 2. Claimant must be denied benefits at this step based upon his failure to meet the evidentiary burden.

If claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidence of claimant's condition does not give rise to a finding that he would meet a statutory listing in the code of federal regulations.

If claimant had not already been denied at Step 2, this Administrative Law Judge would have to deny him again at Step 4 based upon his ability to perform his past relevant work. There is no evidence upon which this Administrative Law Judge could base a finding that claimant is unable to perform work in which he has engaged in, in the past. Therefore, if claimant had not already been denied at Step 2, he would be denied a gain at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not claimant has the residual functional capacity to perform some other less strenuous tasks than in his prior jobs.

At Step 5, the burden of proof shifts to the department to establish that claimant does not have residual functional capacity.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of

walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls... 20 CFR 416.967(b).

Claimant has submitted insufficient objective medical evidence that he lacks the residual functional capacity to perform some other less strenuous tasks than in his prior employment or that he is physically unable to do light or sedentary tasks if demanded of him. Claimant's activities of daily living do not appear to be very limited and he should be able to perform light or sedentary work even with his impairments. Claimant has failed to provide the necessary objective medical evidence to establish that he has a severe impairment or combination of impairments which prevent him from performing any level of work for a period of 12 months. The claimant's testimony as to his limitations indicates that he should be able to perform light or sedentary work.

There is insufficient objective medical/psychiatric evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was able to answer all the questions at the hearing and was responsive to the questions. Claimant was oriented to time, person and place during the hearing. Claimant's complaints of pain, while profound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establish that claimant has no residual functional capacity. Claimant is disqualified from receiving disability at Step 5 based upon the fact that he has not established by objective medical evidence that he cannot perform light or sedentary work even with his impairments. Under the Medical-Vocational guidelines, a younger individual (age 41), with a high school education and an unskilled work history who is limited to light work is not considered disabled.

The Federal Regulations at 20 CFR 404.1535 speak to the determination of whether Drug Addiction and Alcoholism (DAA) is material to a person's disability and when benefits will or will not be approved. The regulations require the disability analysis be completed prior to a determination of whether a person's drug and alcohol use is material. It is only when a person meets the disability criterion, as set forth in the regulations, that the issue of materiality becomes relevant. In such cases, the regulations require a sixth step to determine the materiality of DAA to a person's disability.

When the record contains evidence of DAA, a determination must be made whether or not the person would continue to be disabled if the individual stopped using drugs or alcohol. The trier of fact must determine what, if any, of the physical or mental

limitations would remain if the person were to stop the use of the drugs or alcohol and whether any of these remaining limitations would be disabling.

Claimant's testimony and the information contained in the file indicate that claimant has a history of tobacco, drug, and alcohol abuse. Applicable hearing is the Drug Abuse and Alcohol (DA&A) Legislation, Public Law 104-121, Section 105(b)(1), 110 STAT. 853, 42 USC 423(d)(2)(C), 1382(c)(a)(3)(J) Supplement Five 1999. The law indicates that individuals are not eligible and/or are not disabled where drug addiction or alcoholism is a contributing factor material to the determination of disability. After a careful review of the credible and substantial evidence on the whole record, this Administrative Law Judge finds that claimant does not meet the statutory disability definition under the authority of the DA&A Legislation because his substance abuse is material to his alleged impairment and alleged disability.

If an individual fails to follow prescribed treatment which would be expected to restore their ability to engage in substantial activity without good cause there will not be a finding of disability.... 20 CFR 416.994(b)(4)(iv).

The department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability criteria for State Disability Assistance benefits either

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was not eligible to receive Medical Assistance and/or State Disability Assistance.

### **DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department has appropriately established on the record that it was acting in compliance with department policy when it denied claimant's application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits. The claimant should be able to perform a wide range of light or sedentary work even with his impairments. The department has established its case by a preponderance of the evidence.

Accordingly, the department's decision is AFFIRMED.

Landis

Y. Lain  
Administrative Law Judge  
for Maura D. Corrigan, Director  
Department of Human Services

Date Signed: June 15, 2011

Date Mailed: June 16, 2011

**NOTICE:** Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
