CONCLUSIONS OF LAW

The Medical Assistance (MA-P) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department administers the MA-P program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (BAM), the Program Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (BAM), the Program Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The Department conforms to state statute in administering the SDA program.

2000 PA 294, Sec. 604, of the statute states:

Sec. 604. (1) The department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempted from the supplemental security income citizenship requirement who are at least 18 years of age or emancipated minors meeting 1 or more of the following requirements:

- (a) A recipient of supplemental security income, social security, or medical assistance due to disability or 65 years of age or older.
- (b) A person with a physical or mental impairment which meets federal supplemental security income disability

standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the Federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the MA-P program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience are reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence or pace; and ability to tolerate increased mental demands associated with competitive work). 20 CFR, Part 404, Subpart P, Appendix 1, 12.00(C).

The Claimant testified to the following: muscle spasms, poor sleep, groggy feeling, severe pain, isolate self from others, racing thoughts, confusion, some suicidal thoughts, poor memory both short and long term, uses cane to walk, can walk in home without cane using the tables and walls for support, cannot stand for more than 5 minutes, dizzy spells, migraines occurring 2 times a week, light bothers her when she has migraines, some issues with vomiting and nausea, can sit about 10 minutes and 15 minutes, grip and grasp weakness, joints all hurt, trouble lifting a tea cup, needs help with all chores, needs help with bathing, muscle spasms, unable to grocery shop,

unable to drive, heart beat irregular, goes weeks without cleaning self and getting dressed.

In the third step of the analysis, the trier of fact must determine if the Claimant's impairment (or combination of impairments) is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. The medical record establishes the diagnosis of chronic fibromyalgia. Appendix I, Listing of Impairments does not have a specific listing for chronic fibromyalgia but there is a Social Security Ruling for chronic fatigue syndrome and like fibromyalgia, chronic fatigue syndrome is a medically determinable impairment.

Social Security Ruling (SSR) 99-2p; (SSR 99-2p (4/30/99)); restates policy of the Social Security Administration for claims of disability based on Chronic Fatigue Syndrome (CFS). SSR 99-2p: Footnote (3) provides:

There is a considerable overlap of symptoms between CFS and Fibromyalgia Syndrome (FMS), but individuals with CFS who have tender points have a medically determinable impairment. Individuals with impairments that fulfill the American College of Rheumatology criteria for FMS (which includes a minimum number of tender points) may also fulfill the criteria for CFS. However, individuals with CFS who do not have the specified number of tender points to establish, will still be found to have a medically determinable impairment.

The medical record establishes that, in addition to the diagnosis of chronic fibromyalgia for over twelve months, claimant has chronic fibromyalgia related impairment of depression and bipolar.

The person claiming a physical or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for a recovery and/or medical assessment of ability to do work-related activities or ability to reason and to make appropriate mental adjustments, if a mental disability is being alleged. 20 CFR 416.913. A conclusory statement by a physician or mental health professional that an individual is disabled or blind is not sufficient, without supporting medical evidence, to establish disability. 20 CFR 416.927. Claimant has met the burden of proof to find her presently disabled.

In this case, this Administrative Law Judge finds the claimant is presently disabled at the third step for purposes of the Medical Assistance (MA) program and retro MA. Other specific financial and non-financial criteria are found in Program Eligibility Manual, PEM 261.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 1939 PA 280, as amended. The Department of Human Services (formerly known as the Family Independence Agency) administers the SDA program pursuant to MCL 400.1 et seq., and MAC R 400.3151-400.3180.

Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

A person is considered disabled for purposes of SDA if the person has a physical or mental impairment which meets federal SSI disability standards for at least ninety days. Receipt of SSI or RSDI benefits based on disability or blindness or the receipt of MA benefits based on disability or blindness (MA-P) automatically qualifies an individual as disabled for purposes of the SDA program. Other specific financial and non-financial eligibility criteria are found in PEM 261. The Claimant is eligible for SDA benefits based on the above finding of disability.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that Claimant is medically disabled as of November 2009.

Accordingly, the Department's decision is hereby REVERSED and the Department is ORDERED to initiate a review of the application dated November 30, 2009, if not done previously, to determine Claimant's non-medical eligibility. The Department shall inform Claimant of the determination in writing. A review of this case shall be set for November 2011.
