

**STATE OF MICHIGAN**  
**STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES**  
**ADMINISTRATIVE HEARINGS FOR THE**  
**DEPARTMENT OF HUMAN SERVICES**

**IN THE MATTER OF:**

[REDACTED]

Reg. No.: 2010-41420  
Issue No.: 2009/4031  
Case No.: [REDACTED]  
Load No.: [REDACTED]  
Hearing Date: August 18, 2010  
Oakland County DHS (04)

**ADMINISTRATIVE LAW JUDGE:** Colleen M. Mamelka

**HEARING DECISION**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the Claimant's request for a hearing. After due notice, a hearing was held in Pontiac, Michigan on Wednesday, August 19, 2010. The Claimant appeared, along with [REDACTED], and testified. [REDACTED] appeared on behalf of the Claimant.

**ISSUE**

Whether the Department properly determined that the Claimant was not disabled for purposes of the Medical Assistance ("MA-P") and State Disability Assistance ("SDA") benefit programs?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. The Claimant submitted an application for public assistance seeking MA-P and SDA benefits on September 23, 2009.
2. On November 3, 2009, the Medical Review Team ("MRT") deferred the disability determination requesting additional medical evidence. (Exhibit 1, p. 68, 69)
3. On December 9, 2009, the MRT determined the Claimant was not disabled for purposes of the MA-P and SDA benefit programs. (Exhibit 1, pp. 1, 2)

4. The Department sent an Eligibility Notice to the Claimant informing him that he was found not disabled.
5. On February 9, 2010, the Department received the Claimant's timely written Request for Hearing. (Exhibit 2)
6. On July 12, 2010, the State Hearing Review Team ("SHRT") determined that the Claimant was not disabled. (Exhibit 3)
7. The Claimant's alleged physical disabling impairment(s) are due to residual complications due to multiple gunshot wounds.
8. The Claimant's alleged mental disabling impairment(s) is due to depression.
9. At the time of hearing, the Claimant was 37 years old with a [REDACTED] birth date; was 5'8" in height; and weighed 195 pounds.
10. The Claimant is a high school graduate with an employment history as a general laborer.
11. The Claimant's impairment(s) have lasted, or are expected to last, continuously for a period of 12 months or longer.

#### **CONCLUSIONS OF LAW**

The Medical Assistance ("MA") program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department of Human Services ("DHS"), formerly known as the Family Independence Agency, pursuant to MCL 400.10 *et seq* and MCL 400.105. Department policies are found in the Bridges Administrative Manual ("BAM"), the Bridges Eligibility Manual ("BEM"), and the Bridges Reference Manual ("BRM").

Disability is defined as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905(a) The person claiming a physical or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for recovery and/or medical assessment of ability to do work-related activities or ability to reason and make appropriate mental adjustments, if a mental disability is alleged. 20 CFR 413.913 An individual's subjective pain complaints are not, in and of themselves, sufficient to

2010-41420/CMM

establish disability. 20 CFR 416.908; 20 CFR 416.929(a) Similarly, conclusory statements by a physician or mental health professional that an individual is disabled or blind, absent supporting medical evidence, is insufficient to establish disability. 20 CFR 416.927

When determining disability, the federal regulations require several factors to be considered including: (1) the location/duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicants takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3) The applicant's pain must be assessed to determine the extent of his or her functional limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2)

In order to determine whether or not an individual is disabled, federal regulations require a five-step sequential evaluation process be utilized. 20 CFR 416.920(a)(1) The five-step analysis requires the trier of fact to consider an individual's current work activity; the severity of the impairment(s) both in duration and whether it meets or equals a listed impairment in Appendix 1; residual functional capacity to determine whether an individual can perform past relevant work; and residual functional capacity along with vocational factors (i.e. age, education, and work experience) to determine if an individual can adjust to other work. 20 CFR 416.920(a)(4); 20 CFR 416.945

If an individual is found disabled, or not disabled, at any step, a determination or decision is made with no need evaluate subsequent steps. 20 CFR 416.920(a)(4) If a determination cannot be made that an individual is disabled, or not disabled, at a particular step, the next step is required. 20 CFR 416.920(a)(4) If an impairment does not meet or equal a listed impairment, an individual's residual functional capacity is assessed before moving from step three to step four. 20 CFR 416.920(a)(4); 20 CFR 416.945 Residual functional capacity is the most an individual can do despite the limitations based on all relevant evidence. 20 CFR 945(a)(1) An individual's residual functional capacity assessment is evaluated at both steps four and five. 20 CFR 416.920(a)(4) In determining disability, an individual's functional capacity to perform basic work activities is evaluated and if found that the individual has the ability to perform basic work activities without significant limitation, disability will not be found. 20 CFR 416.994(b)(1)(iv) In general, the individual has the responsibility to prove disability. 20 CFR 416.912(a) An impairment or combination of impairments is not severe if it does not significantly limit an individual's physical or mental ability to do basic work activities. 20 CFR 416.921(a) The individual has the responsibility to provide evidence of prior work experience; efforts to work; and any other factor showing how the impairment affects the ability to work. 20 CFR 416.912(c)(3)(5)(6)

As outlined above, the first step looks at the individual's current work activity. In the record presented, the Claimant is not involved in substantial gainful activity therefore is not ineligible for disability benefits under Step 1.

The severity of the Claimant's alleged impairment(s) is considered under Step 2. The Claimant bears the burden to present sufficient objective medical evidence to substantiate the alleged disabling impairments. In order to be considered disabled for MA purposes, the impairment must be severe. 20 CFR 916.920(a)(4)(ii); 20 CFR 916.920(b) An impairment, or combination of impairments, is severe if it significantly limits an individual's physical or mental ability to do basic work activities regardless of age, education and work experience. 20 CFR 916.920(a)(4)(ii); 20 CFR 916.920(c) Basic work activities means the abilities and aptitudes necessary to do most jobs. 20 CFR 916.921(b) Examples include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;
3. Understanding, carrying out, and remembering simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers and usual work situations; and
6. Dealing with changes in a routine work setting.

*Id.* The second step allows for dismissal of a disability claim obviously lacking in medical merit. *Higgs v Bowen*, 880 F2d 860, 862 (CA 6, 1988). The severity requirement may still be employed as an administrative convenience to screen out claims that are totally groundless solely from a medical standpoint. *Id.* at 863 *citing Farris v Sec of Health and Human Services*, 773 F2d 85, 90 n.1 (CA 6, 1985) An impairment qualifies as non-severe only if, regardless of a claimant's age, education, or work experience, the impairment would not affect the claimant's ability to work. *Salmi v Sec of Health and Human Services*, 774 F2d 685, 692 (CA 6, 1985)

In the present case, the Claimant alleges disability due residual complications resulting from multiple gunshot wounds and depression.

On [REDACTED], the Claimant presented to the hospital with multiple gunshot wounds. The Claimant underwent several surgical procedures and was discharged on [REDACTED]. The discharge diagnoses were status post multiple gunshot

wounds to the thorax and left lower extremity and status post medial and lateral left lower extremity fasciotomy with closure.

On [REDACTED], the Claimant's physician authored a note stating that the Claimant requires for his gunshot wounds and still has pain and edema and is unable to work.

On [REDACTED], a Medical Needs form was completed on behalf of the Claimant. The current diagnoses were gunshot wounds resulting in an infected wound with a large amount of tissue damage. The estimated treatment time was between 4 to 6 months. The Claimant needed assistance with mobility, shopping, laundry, and housework. The Claimant was found unable to work for between 4 and 6 months.

On [REDACTED], a Medical Examination Report was completed on behalf of the Claimant. The current diagnoses were extensive tissue loss and muscle damage status post gunshot wounds. The physical examination revealed an impaired gait requiring the use of a walker, fatigue, pain, weakness, limited range of motion of the left lower extremity with some atrophy, motor deficits, and depression. The "return to work" date could not be given. The Claimant was unable to lift any weight; could stand and/or walk less than 2 hours during an 8 hour workday; required a walker for ambulation; and was able to perform simple grasping with his upper extremities. Further, the Claimant was unable to meet his needs in the home.

On [REDACTED], the Claimant's left leg trauma was evaluated. At this point, the Claimant used a front-wheeled walker with a significant antalgic gait. The Claimant had decreased range of motion of the knee and ankle as well as significant weakness and scar immobility and gait difficulty. The Claimant was referred to gait training, joint mobilizations, car mobilizations, and range of motion for mobility and strengthening for functioning to include electrical stimulation.

On [REDACTED], the Claimant attended a follow-up appointment. The ankle abduction, knee flexion, and hamstring strength had improved.

On the [REDACTED] follow-up appointment, the Claimant's foot drop was noted as well as swelling.

On [REDACTED], the Claimant attended a follow-up appointment where the pain was described as stinging and numb dead. The Claimant continued to use the roller walker.

The Claimant attended follow-up appointments from [REDACTED] through [REDACTED].

On [REDACTED], a Medical Examination Report was completed by the Claimant's treating physician on behalf of the Claimant. The current diagnosis was muscle mass loss post gunshot injury. The physical examination found abnormal gait with drop foot and muscle mass loss. The Claimant requires a cane for ambulation and he was found unable to lift/carry any weight; stand and/or walk less than 2 hours during an 8 hour workday with sitting at less than 6 hours during this same time frame; and able to perform repetitive actions with his extremities with the exception of his left leg.

As previously noted, the Claimant bears the burden to present sufficient objective medical evidence to substantiate the alleged disabling impairment(s). As summarized above, the Claimant has presented medical evidence establishing that he does have some physical and mental limitations on his ability to perform basic work activities. The medical evidence has established that the Claimant has an impairment, or combination thereof, that has more than a *de minimis* effect on the Claimant's basic work activities. Further, the impairments have lasted continuously for twelve months, therefore, the Claimant is not disqualified from receipt of MA-P benefits under Step 2.

In the third step of the sequential analysis of a disability claim, the trier of fact must determine if the Claimant's impairment, or combination of impairments, is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. The Claimant has alleged physical disabling impairments due to residual complications resulting from multiple gunshot wounds and depression.

Listing 1.00 defines musculoskeletal system impairments. Disorders of the musculoskeletal system may result from hereditary, congenital, or acquired pathologic processes. 1.00A Impairments may result from infectious, inflammatory, or degenerative processes, traumatic or developmental events, or neoplastic, vascular, or toxic/metabolic diseases. 1.00A Regardless of the cause(s) of a musculoskeletal impairment, functional loss for purposes of these listings is defined as the inability to ambulate effectively on a sustained basis for any reason, including pain associated with the underlying musculoskeletal impairment, or the inability to perform fine and gross movements effectively on a sustained basis for any reason, including pain associated with the underlying musculoskeletal impairment. Inability to ambulate effectively means an extreme limitation of the ability to walk; i.e., an impairment(s) that interferes very seriously with the individual's ability to independently initiate, sustain, or complete activities. 1.00B2b(1) Ineffective ambulation is defined generally as having insufficient lower extremity function to permit independent ambulation without the use of a hand-held assistive device(s) that limits the functioning of both upper extremities. (Listing 1.05C is an exception to this general definition because the individual has the use of only one upper extremity due to amputation of a hand.) *Id.* To ambulate effectively, individuals must be capable of sustaining a reasonable walking pace over a sufficient distance to be able to carry out activities of daily living. 1.00B2b(2) They must have the ability to travel without companion assistance to and from a place of employment or

school. . . . *Id.* When an individual's impairment involves a lower extremity uses a hand-held assistive device, such as a cane, crutch or walker, the medical basis for use of the device should be documented. 1.00J4 The requirement to use a hand-held assistive device may also impact an individual's functional capacity by virtue of the fact that one or both upper extremities are not available for such activities as lifting, carrying, pushing, and pulling. *Id.*

Categories of Musculoskeletal include:

- 1.02 Major dysfunction of a joint(s) due to any cause: Characterized by gross anatomical deformity (e.g. subluxation, contracture, bony or fibrous ankylosis, instability) and chronic joint pain and stiffness with signs of limitation of motion or other abnormal motion of the affected joint(s), and findings on appropriate medically acceptable imaging of joint space narrowing, bony destruction, or ankylosis of the affected joint(s). With:
- A. Involvement of one major peripheral weight-bearing joint (i.e., hip, knee, or ankle), resulting in inability to ambulate effectively as defined in 1.00B2b; or
  - B. Involvement of one major peripheral joint in each upper extremity (i.e., shoulder, elbow, wrist, hand), resulting in inability to perform fine and gross movements effectively as defined in 1.00B2c

In this case, the objective evidence reveals muscle mass loss of the left lower extremity with significant weakness, decreased range of motion, atrophy, abnormal gait, instability, and foot drop. The Claimant requires an assistive device ambulation and his condition has lasted more than one year. Based on the medical evidence, the Claimant's impairment(s) meets, or is the medical equivalent, a listed impairment within Listing 1.00, specifically 1.02A. Accordingly, the Claimant is found disabled at Step 3 with no further analysis required. Ultimately, the Claimant's impairments may meet the above listing however the evidence does not meet the intent and severity requirement thus the Claimant eligibility at Step 4 is necessary. 20 CFR 416.905(a)

The State Disability Assistance ("SDA") program, which provides financial assistance for disabled persons, was established by 2004 PA 344. DHS administers the SDA program pursuant to MCL 400.10 *et seq.* and Michigan Administrative Code ("MAC R") 400.3151 – 400.3180. Department policies are found in BAM, BEM, and BRM. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal SSI disability standards for at least ninety days. Receipt of SSI or RSDI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness (MA-P) automatically qualifies an individual as disabled for purposes of the SDA program.

In this case, the Claimant is found disabled for purposes of the Medical Assistance ("MA-P") program therefore the Claimant is found disabled for purposes of SDA benefit program.

**DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law finds the Claimant disabled for purposes of the Medical Assistance and State Disability Assistance programs.

It is ORDERED:

1. The Department's determination is REVERSED.
2. The Department shall initiate review of the September 23, 2009 application to determine if all other non-medical criteria are met and inform the Claimant and his authorized representative of the determination in accordance with department policy.
3. The Department shall supplement for any lost benefits (if any) that the Claimant was entitled to receive if otherwise eligible and qualified in accordance with department policy.
4. The Department shall review the Claimant's continued eligibility in September 2011 in accordance with department policy.

*Colleen M. Mamelka*
