[REDACTED]

Reg. No: 201112823
Issue No: 2009
Case No: [REDACTED]
Hearing Date: April 5, 2011
Kent County DHS

ADMINISTRATIVE LAW JUDGE: William A. Sundquist

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the claimant's request for a hearing. After due notice, a telephone hearing was held on April 5, 2011. The claimant appeared and testified.

Medical reports (Claimant Exhibit A) submitted at the hearing for a second SHRT review, delayed the Decision and Order below.

ISSUE

Was disability medically established?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

- (1) Claimant is currently unemployed.
- (2) On June 12, 2007, was the claimant's last employment.
- (3) Claimant's vocational factors are: age 39, high school graduate, and past work experience as an unskilled/semi-skilled carpet cleaner, stocking shelves at [REDACTED], church cleaner, and restaurant cook.
- (4) On May 16, 2010, the claimant applied for MA, was denied June 3, 2010, per BEM 260, and requested a hearing on June 10, 2010.

- (5) Claimant alleges disability due to depression, diabetes, and back pain.
- (6) Clinical assessment on May 5, 2010, states the claimant's current GAF score of 60 (Medical Packet, p. 34).
- (7) Medical exam on May 7, 2010, states the claimant is normal in the areas of musculoskeletal, neuro, and mental; that his condition is stable; that he is able to lift/carry frequently up to 25 pounds and occasionally 50 pounds or more; that he can sit about 6 hours in an 8 hour work day; and that he can use his extremities on a repetitive basis (Medical Packet, pgs. 18 & 19).
- (8) Mental work-related assessment on September 28, 2010, the claimant is moderately limited in following work rules, relating to co-workers, interacting with supervisors, using judgment, and functioning independently; that he is limited in restrictions of activities of daily living, difficulties in maintaining concentration, and persistence or pace; and that "moderate" means limitations that result in satisfactory, but limited function (Claimant Exhibit A, pgs. 3 & 4).
- (9) SHRT report dated January 28, 2011, states the claimant's impairments do not meet/equal a Social Security listing (Medical Packet, p. 77).

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The facts above are undisputed:

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

When determining disability, the federal regulations as a guideline require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, the evidence establishes that the claimant is not currently engaged in substantial gainful activity. Therefore, disability is not denied at this step.

At Step 2, the objective medical evidence of record does not establish that the claimant is significantly limited in performing basic mental/physical work activities, as defined below, based on the *de minimus* standard, and for the required duration stated below.

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

...[The impairment]...must have lasted or must be expected to last for a continuous period of at least 12 months. We call this the duration requirement. 20 CFR 416.909.

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not significantly limit

your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

i15118

Basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
 - (2) Capacities for seeing, hearing, and speaking;
 - (3) Understanding, carrying out, and remembering simple instructions;
 - (4) Use of judgment;
 - (5) Responding appropriately to supervision, co-workers and usual work situations; and
 - (6) Dealing with changes in a routine work setting.
- 20 CFR 416.921(b).

The objective mental evidence of record establishes the claimant's GAF score of 60. Scores under 51 are for persons with severe occupational impairment. And above persons with a non-severe occupational impairment.

The mental assessment establishes that the claimant has the satisfactory capability for understanding, remembering, and carrying out simple job instructions, as defined above, for basic work activities.

Therefore, the evidence establishes a non-severe mental impairment, as defined above, not meeting the duration requirement.

The objective physical evidence establishes that the claimant is normal in the areas of musculoskeletal, neuro, and mental; and that he is able to lift/carry 50 pounds or more.

Therefore, the evidence establishes that a non-severe physical impairment, as defined above, not meeting the duration requirement.

Therefore, disability is denied at this step.

At Step 3, the objective medical evidence does not establish the claimant's impairments meet/equal a Social Security listing.

At Step 4, the objective medical evidence does not establish the claimant's inability to do any of his past work, despite his non-severe impairments. His past work as a carpet cleaner falls within his medical limitations. Therefore, disability is denied at this step.

At Step 5, the objective medical evidence does not establish that the claimant is without a Residual Functional Capacity (RFC) for other work in the national economy, meeting the duration requirement.

...Your residual functional capacity is what you can still do despite limitations. If you have more than one impairment, we will consider all of your impairment(s) of which we are aware. We will consider your ability to meet certain demands of jobs, such as physical demands, mental demands, sensory requirements, and other functions, as described in paragraphs (b), (c) and (d) of this section. Residual functional capacity is an assessment based on all of the relevant evidence.... 20 CFR 416.945(a).

...To determine the physical exertion requirements of work in the national economy, we classify jobs as sedentary, light, medium, heavy, and very heavy. These terms have the same meaning as they have in the Dictionary of Occupational Titles, published by the Department of Labor.... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Claimant's disabling complaints above that he has no RFC for any work is not supported by the objective medical evidence of record. Sedentary work, as defined above, falls within the claimant's physical RFC. At this level, considering the claimant's vocational profile (younger individual, age 39, high school graduate, and past unskilled/semi-skilled work experience) he is not considered disabled under Vocational Rules 201.27 and 201.28. Therefore, disability is denied at Steps 2, 4, and 5.

Therefore, the claimant has not established disability, as defined above, by the necessary competent, material, and substantial evidence on the whole record.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law decides that disability was not medically established.

Accordingly, MA denial is UPHELD.
