1. The Appellant is a Medicaid beneficiary.
2. The Appellant resides in [REDACTED], Michigan. She is a member of the population required to enroll in a Medicaid Health Plan (MHP). (Exhibit 1, page 2)

4. On [REDACTED], the Appellant's request for a managed-care exception was denied. The denial notice indicated that the Appellant's physicians participate in at least one MHP available to the Appellant. (Exhibit 1, pages 10-11)

5. On [REDACTED], the Michigan Administrative Hearing System for the Department of Community Health received the Appellant's signed Request for Administrative Hearing. (Exhibit 1, pages 6-8)

### **CONCLUSIONS OF LAW**

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

On May 30, 1997, the Department was notified of the Health Care Financing Administration's approval of its request for a waiver of certain portions of the Social Security Act to restrict Medicaid beneficiaries' choice to obtain medical services only from specified Qualified Health Plans.

Michigan Public Act 187 of 2010 states, in relevant part:

Sec. 1650 (3) The criteria for medical exceptions to HMO enrollment shall be based on submitted documentation that indicates a recipient has a serious medical condition, and is undergoing active treatment for that condition with a physician who does not participate in 1 of the HMOs. If the person meets the criteria established by this subsection, the department shall grant an exception to mandatory enrollment at least through the current prescribed course of treatment, subject to periodic review of continued eligibility.

The MDCH Medicaid Provider Manual, Beneficiary Eligibility Section, January 1, 2011, pages 31-32, states in relevant part:

The intent of the medical exception process is to preserve continuity of medical care for a beneficiary who is receiving active treatment for a serious medical condition from an attending physician (M.D. or D.O.) who would not be available to the beneficiary if the beneficiary is enrolled in a MHP. The medical exception may be granted on a time-limited basis necessary to complete treatment for the serious condition. The medical exception process is only available to a beneficiary who is not yet enrolled in a MHP, or who has been enrolled for less than two months. MHP enrollment would be delayed until one of the following occurs:

- the attending physician completes the current ongoing plan of medical treatment for the patient's serious medical condition, or
- the condition stabilizes and becomes chronic in nature, or

- the physician becomes available to the beneficiary through enrollment in a MHP.

If the treating physician can provide service through a MHP that the beneficiary can be enrolled in, then there is no basis for a medical exception to managed care enrollment.

### **Serious Medical Condition**

Grave, complex, or life threatening

Manifests symptoms needing timely intervention to prevent complications or permanent impairment.

An acute exacerbation of a chronic condition may be considered serious for the purpose of medical exception.

### **Chronic Medical Condition**

Relatively stable

Requires long term management

Carries little immediate risk to health

Fluctuates over time, but responds to well-known standard medical treatment protocols.

### **Active treatment**

Active treatment is reviewed in regards to intensity of services when:

- The beneficiary is seen regularly, (e.g., monthly or more frequently,) and
- The condition requires timely and ongoing assessment because of the severity of symptoms and/or the treatment.

### **Attending/Treating Physician**

The physician (M.D. or D.O.) may be either a primary care doctor or a specialist whose scope of practice enables the interventions necessary to treat the serious condition.

**MHP Participating Physician**

A physician is considered participating in a MHP if he is in the MHP provider network or is available on an out-of-network basis with one of the MHPs with which the beneficiary can be enrolled. The physician may not have a contract with the MHP but may have a referral arrangement to treat the plan's enrollees. If the physician can treat the beneficiary and receive payment from the plan, then the beneficiary would be enrolled in that plan and no medical exception would be allowed.

The Department does not dispute the seriousness of the Appellant's condition or the frequency of the Appellant's treatment. However, in reviewing the Appellant's medical-exception requests, the Department found that her physicians do participate in, or accept referrals from, at least one MHP available to the Appellant [REDACTED]. (Exhibit 1, pages 56-50) Accordingly, the Department determined that the criteria for a medical exception have not been met.

The Appellant testified that she treats with several doctors for various conditions, and she is concerned that she will not be able to continue treatment with them if she is required to enroll in a MHP. She is also concerned about access to her medications.

This Administrative Law Judge reviewed the evidence of record. The evidence supports the Department's determination that the Appellant did not meet the criteria because her physicians do participate in a MHP. The burden of proof rests with the Appellant to establish that the Department's decision is incorrect. The evidence does not establish that the Appellant meets all the criteria necessary to be granted a managed-care exception.

**DECISION AND ORDER**

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that the Appellant does not meet the criteria for Medicaid managed-care exception.

**IT IS THEREFORE ORDERED THAT:**

The Department's decision is AFFIRMED.
