STATE OF MICHIGAN MICHIGAN ADMINISTRATIVE HEARING SYSTEM

ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

Reg No.: 2011-37790 Issue No.: 2009, 4031 Case No.:

Hearing Date: September 21, 2011

Macomb County DHS (20)

ADMINISTRATIVE LAW JUDGE: Colleen M. Mamelka

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the Claimant's request for a hearing. After due notice, a hearing was held in Warren, Michigan on Wednes day, September 21, 201 1. The Claimant appeared and testified. The Clai mant was represented by appeared on behalf of the Department of Human Servic es ("Department").

During the hearing, the Claimant waived the time period for the issuance of this decision in order to allow for the submission of additional medical records. The evidence was received, reviewed, and forwarded to the State Hearing Review Team ("S HRT") for consideration. On January 26, 2012, this office received the SHRT determination which found the Claimant not disabled. This matter is now before the undersigned for a final decision.

<u>ISSUE</u>

Whether the Department proper ly determined that the Claimant was not disabled for purposes of the Medical Assistance ("MA-P") and St ate Disability Assistance ("SDA") benefit programs?

FINDINGS OF FACT

The Administrative Law Judge, based on t he competent, material, and substantial evidence on the whole record, finds as material fact:

1. The Claimant submitted an application on for public assistance seeking MA-P, retroactive to July 2010, and SDA benefits on October 18, 2010.

- 2. On January 12, 2011, the Medical Revi ew Team ("MRT") found the Claimant not disabled. (Exhibit 1, pp. 1, 2)
- 3. The Department notified the Claimant of the MRT determination.
- 4. On June 6, 2011, the Department received the Claimant's timely written request for hearing.
- 5. On July 5, 2011 and January 19, 2012, the SHRT found the Claimant not disabled. (Exhibit 3)
- 6. The Claimant alleged physical disabli ng impairments due to bac k, knees, ankle, hip, shoulder, neck and hand pain, feet numbness, chest pain, high blood pressure, and hernias.
- 7. The Claim ant alleged mental disabling impairments due to anxiety and depression.
- 8. At the time of hearing, the Claimant was years old with a date; was 6' in height; and weighed 200 pounds.
- 9. The Claimant has the equivalent of a high school education with an employment history in automotive body repair and self employment in wholesale chickens.
- 10. The Claimant's impairments have lasted, or are expected to last, continuously for a period of 12 months or longer.

CONCLUSIONS OF LAW

The Medical Assistance program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department of Human Services, formerly known as the Family Independence Agency, pursuant to MCL 400.10 et seq. and MCL 400.105. Department policies are found in the Bridge's Administrative Manual ("BAM"), the Bridges Eligib ility Manual ("BEM"), and the Bridges Reference Tables ("RFT").

Disability is defined as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental im pairment which can be expected to result in death or which has lasted or can be expect ed to last for a continuous period of not less than 12 months. 20 CFR 416.905(a). The person claiming a physical or mental

disability has the burden to esta blish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinica l/laboratory findings, diagnosis/prescri bed treatment, prognosis for recovery and/or medical assessment of ability to do work-related ac tivities o r ability to reason and make appropriate mental adjustments, if a mental disability is alleged. 20 CRF 413 .913. An individual's subjective pain complaints are not, in and of themselves, sufficient to establish disability. 20 CF R 416.908; 2 0 CFR 4 16.929(a). Similarly, conclusor y statements by a physician or mental health professional that an individual is disabled or blind, absent supporting medical evidence, is insufficient to establish disability. 20 CFR 416.927.

When determining disability, the federal regulations require several factors to be considered including: (1) the location/duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicant natakes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determine the extent of his or her functional limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2).

In order to determine whether or not an individual is disabled, federal regulations require a five-step sequential evaluation process be utilized. 20 CFR 416.920(a)(1). The five-step analysis requires the trier of fact to cons ider an individual's current work activit y; the severity of the impairment(s) both in duration and whether it meets or equals a listed impairment in Appendix 1; residual functional capacity to det ermine whether an individual can perform past relev ant work; and residual functional capacity along with vocational factors (i .e. age, education, and work experienc e) to determine if an individual can adjust to other work. 20 CFR 416.920(a)(4); 20 CFR 416.945.

If an individual is found disabled, or not disabled, at any step, a determination or decision is made with no need evaluate subsequent steps. 20 CFR 416.920(a)(4). If a determination cannot be made that an individual is disabled, or not disabled, at a particular step, the next step is required. 20 CFR 416.920(a)(4). If an impairment does not meet or equal a listed impairment, an individual's residual functional capacity is assessed before moving from step three to step four. 20 CFR 416.920(a)(4); 20 CFR 416.945. Residual functional capacity is the most an individual can do despite the limitations based on all relevant evidence. 20 CFR 945(a)(1). An individual's residual functional capacity assessment is evaluated at both steps four and five. 20 CFR 416.920(a)(4). In determining disability, an individual's functional capacity to perform basic work activities is evaluated and if found that the individual has the ability to perform basic work activities without significant limitation, disability will not be found. 20

CFR 416.994(b)(1)(iv). In general, the i ndividual has the responsibility to prove disability. 20 CFR 4 16.912(a). An impair ment or combi nation of impairments is n ot severe if it does not signific antly limit an i ndividual's physical or mental ability to do basic work activities. 20 CFR 416.921(a). The in dividual has the responsibility to provide evidence of prior work experience; efforts to work; and any other factor showing how the impairment affects the ability to work. 20 CFR 416.912(c)(3)(5)(6).

In addition to the above, when evaluating mental impairments, a special technique is utilized. 2 0 CFR 41 6.920a(a). First, an i ndividual's pertinent sym ptoms, signs, a nd laboratory findings are evaluated to determine whether a medically determinable mental impairment exists. 20 CFR 416.920a(b)(1). When a medically determinable mental impairment is established, the symptoms, signs and laboratory findings that substantiate the impairment are documented to include the individual's significant history, laboratory findings, and functional limitations. 20 CFR 416.920a(e)(2). Functional limitation(s) is assessed based upon the extent to whic h the impairment(s) interferes with an tion independently, appropriately , effectively, and on individual's ability to func Id.; 20 CFR 416.920a(c)(2). Chronic m ental disorders, structured sustained basis. settings, medication, and other treatment and the effect on the overall degree of functionality is considered. 20 CFR 416.920a(c)(1). In addition, four broad functional areas (activities of daily living; social f unctioning; concentration, persistence or pace; and episodes of decompensat ion) are consider ed when deter mining an individual's degree of functional limitation. 20 CFR 416.920a(c)(3). The degree of limitation for the first three functional areas is rated by a five point scale: none, mild, moderate, marked, and extreme. 20 CFR 416.920a(c)(4). A four point scale (none, one or two, three, four or more) is used to rate the degree of limit ation in the fourth functional area. *Id.* The last point on each scale represents a degree of limitation that is incompatible with the ability to do any gainful activity. Id.

After the degree of functional limitation is determined, the severity of the mental impairment is determined. 20 CFR 416.920a(d). If severe, a determination of whether the impairment meets or is the equivalent of a listed mental disorder is made. 20 CF R 416.920a(d)(2). If the severe mental im pairment does not meet (or equal) a listed impairment, an individual's residual functional capacity is assessed. 20 CF R 416.920a(d)(3).

As outlined above, the first step looks at the i ndividual's current work activity. In the record presented, the Claimant is not involved in substantial gainful activity; therefore is not ineligible for disability benefits under Step 1.

The severity of the Claimant's alleged impa irment(s) is considered under St ep 2. The Claimant bears the burden to present sufficient objective medical evidence et o

substantiate the alleged disa bling impairments. In order to be considered disabled for MA purpos es, the impairment must be se vere. 20 CFR 916. 920(a)(4)(ii); 20 CFR 916.920(b). An impairment, or combination of impairments, is severe if it signific antly limits an in dividual's physical or mental ability to do basic work activities regardless of age, education and work experience. 20 CFR 916.920(a)(4)(ii); 20 CFR 916.920(c). Basic work activities means the abilities and aptitudes necessary to do most jobs. 20 CFR 916.921(b). Examples include:

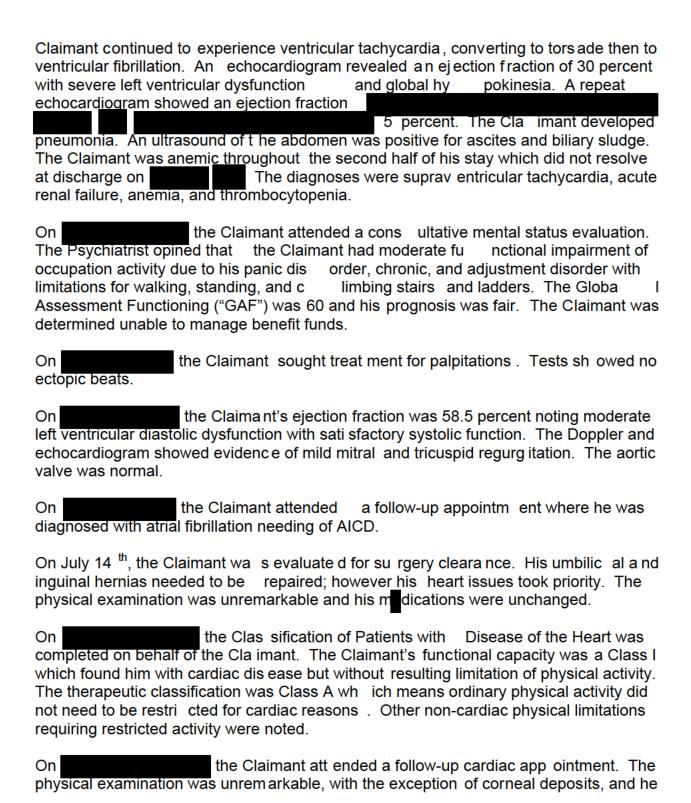

- 1. Physical functions such as wa lking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- 2. Capacities for seeing, hearing, and speaking;
- 3. Understanding, carrying out, and remembering simple instructions:
- 4. Use of judgment;
- 5. Responding appropriately to supervision, co-workers and usual work situations; and
- 6. Dealing with changes in a routine work setting.

ld.

The second step allows for dismissal of a disability claim obviously lacking in medical merit. Higgs v Bowen, 880 F2d 860, 862 (CA 6, 1988). The severity requirement may still be employed as an admin istrative convenience to screen out claims that are totally groundless solely from a medical standpoint. Id. at 863 citing Farris v Sec of Health and Human Services, 773 F2d 85, 90 n.1 (CA 6, 1985). An impairment qualifies as non-severe only if, regardless of a claimant's age, education, or work experience, the impairment would not affect the claimant's ability to work. Salmi v Sec of Health and Human Services, 774 F2d 685, 692 (CA 6, 1985).

In the present case, the Claim ant alleges disability due to back, knees, ankle, hip, shoulder, neck and hand pain, feet numbness, shortness of breath, chest pain, high blood pressure, hernias, anxiety, and depression.

On the Claimant presented to the emergency room with complaints of shortness of breath and racing heartbeat. The Claimant was in supraventricular tachycardia and subsequently placed in ICU. During the stay, the

was asymptomatic and stable. The Claim ant was referred for an ophthalmology consultative examination.

On _____ The Cl aimant underwent a laparoscopic ventral hernia repa ir without complication.

As previously noted, the Claim ant bears the burden to present sufficient objective medical evidence to substantiate the alleged disabling impairment(s). As summarized above, the Claimant has presented medical evidence establishing that he does have some physical and mental limitations on his ability to perform basic work activities. The medical evidence has established that the Claimant has an impairment, or combination thereof, that has more than a *de minimus* effect on the Claimant's basic work activities. Further, the impairments have lasted continuous ly for twelve months; therefore, the Claimant is not disqualified from receipt of MA-P benefits under Step 2.

In the third step of the seque ntial an alysis of a disability claim, the trier of fact must determine if the Claimant's impairment, or co mbination of impairm ents, is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. The Claim ant has alleged physical and mental disabling impairments due to back, knees, ankle, hip, shoulder, nec k and hand pain, feet numbness, chest pain, high blood pressure, and hernias.

Listing 1.00 (musculoskeletal system), Listing 3.00 (respiratory system), Listing 4.00 (cardiovascular system), Listing 9.00 (endocerine system), Listing 11.00 (neurologic), and Listing 12.00 (mental disorders) were considered in light of the objective medical evidence. There was no evidence a major dysfunction of joint(s) or nerve root impingement nor was there ongoing treatment for any respiratory issues. During the September-October hospitalization, the Claimant's ejection fraction ranged from 20 to 30 percent; however at discharge, the ejection fraction was 55 percent. The heart classification is a Class I and Class A. Ult imately, based on the objective findings, it is found that the Claimant's impairment(s) do not meet the intent and severity requirement of a listed impairment; therefore the Claimant cannot be found disabled, or not disabled, at Step 3. Accordingly, the Claimant's eligibility is considered under Step 4. 20 CFR 416.905(a).

Before considering the fourth step in the sequential analysis, a determination of the individual's residual functional capacity ("RFC") is made. 20 CFR 416.945. An individual's RFC is the most he/she canstill do on a sustained bas is despite the limitations from the impairment(s). *Id.* The total limiting effects of all the impairments, to include those that are not severe, are considered. 20 CFR 416.945(e).

To determine the physical demands (exertional requirements) of work in the national economy, jobs are c lassified as sedentary, light, medium, heavy, and very heavy. 2 0 CFR 416.967. Sedentary work involves lifting of no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. 20 CFR 416.967(a). Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties . Id. Jobs equired occasionally and other sedentary are sedentary if walking and standing are r criteria are met. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying objects weighing up to 10 pounds. 20 CFR 416.967(b). Even though weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it invo lves sit ting most of the time with some pushing and pulling of arm or leg controls. *Id.* To be considered capable of performing a full or wide range of light work, an individual must have the ability to do substantially all of thes e activities . Id. A n individual capab le of light work is also capable of sedentary work, unless there are additionally limiting factors such as loss of fin dexterity or inability to sit for long periods of time. *Id*. Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. 20 CFR 416.967(c). An individual capable of performing medium work is also capable of light and sedentary work. *Id.* Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of object is weighing up to 50 pounds. 20 CFR 416.967(d). A n individual capable of heavy work is also c apable of medium, light, and sedentary work. *Id.* Finally, very heavy work involves lifting objects weighing more than 100 pounds at a time with frequent lifting or carrying objects weighing 50 pounds or more. 20 CFR 416.967(e). An individual capable of very heavy work is able to perform work under all categories. *Id.*

Limitations or restrictions which affect the ability to meet the demands of jobs other than standing, walk ing, lifting, strength demands (exertional requirements, i.e. sitting, carrying, pushing, or pulling) are consider ed nonexertional. 20 CFR 416.969a(a). In considering whether an individual can perform past relevant work, a comparis on of the individual's residual functional c apacity with the demands of past relevant work. an individual can no longer do past relevant work the same residual functional capacity ge, education, and work experience is assessment along with an individual's a considered to determine whether an individual can adjust to other work which exists in the national economy. *Id.* Examples of non-exertional limitations or restrictions include difficulty to function due to nervousness. anxiousness, or depression; difficulty maintaining attention or concentration; difficulty understanding or remembering detailed instructions; difficulty in seeing or hearing; difficulty tolerating so me physical feature(s) of certain work settings (i.e. ca n't tolerate dust or fumes); or di fficulty performing the manipulative or postur al functions of some work such as reaching, handling, stooping, climbing, crawling, or crouching. 20 CFR 4 16.969a(c)(1)(i) – (vi). If the imp airment(s) and related symptoms, such as pain, only affect the ability to perform the non-exertional aspects of work-related activities, the rules in Appendix 2 do not direct factual conclusions of disabled or not disabled. 20 CF R 416.969a(c)(2). The determination of whether disability exists is bas ed upon the principles in the appr opriate sections of the regulations, giving consideration to the rules for specific case situations in Appendix 2.

In this case, the Claimant alleged disability based on back, knees, ankle, hip, shoulder, neck, and hand pain, feet nu mbness, shortness of breath, chest pain, high blood pressure, hernias, anxiety, and depression. The Claimant testified that he can lift/carr y about 5 pounds; walk less than a block; sit and/or stand for less than 2 hours; and is able to bend but not squat. The objective evidence does not contain any physical restrictions. Mentally, the Claimant had moderate functional impairment of occupation activity; however, his GAF was 60 with a fair prognosis. There was no evidenc e of marked limitations and as such the degree of limitation in the area of social functioning, concentration, persistence, or pace is mild to moderate. And finally, the record reflects that the Claimant's mental c ondition is stable without evidence of repeated episodes of decompensation. Applying the f our point s cale, the Claimant 's degree of limitation in the fourth functional area is at most a 1. After review of the entire record to include the Claimant's testimony, it is found that the Claimant mainta ins the residual functional capacity to perform at least unskilled, limit ed, sedentary work as defined by 20 CFR 416.967(a). Limitations being the alternation between sitting and standing at will.

Over the past 15 years, the Claimant worked in autom otive body repair and owned a wholesale chicken company. In light of the Claimant's testimony and in consideration of the Occupational Code, the Claimant's prior work is classified as skilled, medium to heavy work. If the impairment or combination of impairments does not limit an individual's physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. 20 CFR 416.920. In consideration of the Claimant's testimony, medical re cords, RFC and current limitat ions, it is found that the Claimant is unable to return to past relevant employment thus Step 5 of the sequential analysis is required.

In Step 5, an assessment of the individua I's residual functional capac ity and age, education, and work experience is consider ed to determine whet her an adjustment to other work can be m ade. 20 CFR 416.920(4)(v) At the time of hear ing, the Claimant was years old thus consider ed to be closely approaching advanced age for MA-P purposes. The Claimant has the equivalent of a high school degree. Disability is found if an individual is unable to adjust to other work. *Id.* At this point in the analysis, the burden shifts from the Claimant to the Depart ment to present proof that the Claimant has the residual capacity to substantia I gainful employment. 20 CFR 416.960(2);

Richardson v Sec of Health and Human Services , 735 F2d 962, 964 (CA 6, 1984). While a vocational expert is not required, a finding supported by substantial evidence that the individual has the vo cational qualifications to perform specific jobs is needed to meet the burden. O'Banner v Sec of Heal th and Human Services, 587 F 2d 321, 323 (CA 6, 1978). Medical-Vocational guide lines found at 20 CF R Subpart P, Appendix II, may be used to satisfy the burden of proving that the individual can perform specific jobs in the national economy. Heckler v Campbell, 461 US 458, 467 (1983); Kirk v Secretary, 667 F2d 524, 529 (CA 6, 1981) cert den 461 US 95 7 (1983). Individuals approaching advanced age (age 50-54) may be significantly limited in vocational adaptability if they are restricted to sedentary work. 20 CFR 416.963(d).

In this case, the evidence reveals that the Claimant suffers from back and chest pain, heart disease, supraventricular tachycardia, acute renal failure, anemia, panic attacks, thrombocytopenia and adjustment disorders. There was no evidence of severe physical or mental restrictions outside of the Claim ant's credible testimony. In light of the foregoing, the Claimant's residual functional capacity for work activities on a regular and continuing basis includes the ability to meet the physical and mental demands required to perform sedentary work as defined in 20 CF R 416.967(a). After review of the entire record finding no contradiction with the Claimant's non-exertional limitations, and using the Medical-Vocational Guidelines [20 CFR 404, Subpart P, Ap pendix II] as a guide, specifically Rule 201.14, it is found that the Claimant is disabled for purposes of the MA-P program at Step 5.

The State Disability Assist ance program, which provid es financial as sistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program purusant to MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. Department policie s are found in BAM, BEM, and RFT. A person is considered disabled for SDA purposes if the person has a phys ical or menta I impariment which meets federal SSI disability standards for at least ninety days. Receipt of SSI or RSDI benefit s based on disability or blindness, or the receipt of MA benefits based on disability or blindness automatically qualifies an individual as disabled for purposes of the SDA program.

In this case, the Claimant is found disabled for purposes of the MA-P program; therefore he is found disabled for purposes of SDA benefit program.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusion sof law finds the Claimant disabled for purposes of the MA-P and SDA benefit programs.

Accordingly, it is ORDERED:

- 1. The Department's determination is REVERSED.
- 2. The Department shall in itiate processing of the October 18, 2010 application, to include any applic able retroactive m onths, to determine if all other non-medical criteria are m et and inform t he Claimant and his Au thorized Hearing Representative of the determination in accordance with Department policy.
- 3. The Department shall supplement fo r any lost benefits (if any) that the Claimant was entitled to receive if otherwise eligib le and qualifie d in accordance with Department policy.
- 4. The Department shall review the Claim ant's continued eligib ility in March of 2013 in accordance with Department policy.

Administrative Law Judge

For Maura Corrigan, Director Department of Human Services

Date Signed: February 7, 2012

Date Mailed: February 7, 2012

NOTICE: Michigan Administrative Hearing Syst em (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a par ty within 30 days of the mailing date of this Dec ision and Order. MAHS will not order a rehearing or reconsideration on the Department's mo tion where the final decis ion cannot be implemented within 90 days of the filing of the original request. (60 days for FAP cases)

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing <u>MAY</u> be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:
 - misapplication of manual policy or law in the hearing decision,
 - typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
 - the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at Michigan Administrative Hearings
