## STATE OF MICHIGAN

# MICHIGAN ADMINISTRATIVE HEARING SYSTEM ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

Reg No.: 2011-39546

Issue No.: 2009

Case No.:

Hearing Date: December 1, 2011

Wayne County DHS (31)

ADMINISTRATIVE LAW JUDGE: Colleen M. Mamelka

## **HEARING DECISION**

This matter is before the undersigned Administ rative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the Claimant 's request for a hearing. After due notice, a telephone hearing was conducted from Detroit, Michigan on Thursday, December 1, 2011. The Claimant, who is incarcerated, participated from the correctional facility. The Claimant was represented by

appeared on behalf of the Department of Human Services ("Department").

## <u>ISSUE</u>

Whether the Department proper ly determined that the Claimant was not disabled for purposes of the Medical Assistance ("MA-P") benefit program?

## FINDINGS OF FACT

The Administrative Law Judge, based on t he competent, material, and substantial evidence on the whole record, finds as material fact:

- The Claimant submitt ed an application for public assistance seeking MA-P benefits on September 14, 2010.
- 2. On December 18, 2010, the Medical Re view Team ("MRT") found the Claimant not disabled. (Exhibit 1, pp. 1, 2)
- 3. The Department notified the Claimant of the MRT determination.
- 4. On February 15, 2011, the Department received the Cla imant's written request for hearing. (Exhibit 1, p. 2)

- 5. On August 23, 2011, the State H earing Review Team ("SHRT") found the Claimant not disabled. (Exhibit 4)
- 6. The Claim ant alleged physical disa bling impairments due to a colostomy, abdominal pain, and residual complications from gun shot wounds ("GSW").
- 7. The Claimant has not alleged any mental disabling impairment(s).
- 8. At the time of hearing, the Claimant was years old with an date; was 5'7" in height; and weighed 112 pounds.
- 9. The Claim ant has a limit ed education with some vocational training and an employment history working as a general laborer and as a cashier.

## **CONCLUSIONS OF LAW**

The Medical Assistance program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department of Human Services, formerly known as the Family Independence Agency, pursuant to MCL 400.10 *et seq.* and MCL 400.105. Department policies are found in the Bridge's Administrative Manual ("BAM"), the Bridges Elig ibility Manual ("BEM"), and the Bridges Reference Tables ("RFT").

Disability is defined as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental im pairment which can be expected to result in death or which has lasted or can be expect ed to last for a continuous period of not less than 12 months. 20 CFR 416.905(a). The person claiming a physical or mental disability has the burden to esta blish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinical/laboratory findings, diagnosis/prescri bed treatment, prognosis for recovery and/or medical assessment of ability to do work-related ac tivities o r ability to reason and make appropriate mental adjustments, if a mental disability is alleged. 20 CRF 413.913. An individual's subjective pain complaints are not, in and of themselves, sufficient to establish disab ility. 20 CF R 416.908; 2 0 CFR 4 16.929(a). Similarly, conclusor y statements by a physician or mental health professional that an individual is disabled or blind, absent supporting medical evidence, is insufficient to establish disability. 20 CFR 416.927.

When determining disability, the federal regulations require several factors to be considered including: (1) the location/du ration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicant has takes to relieve pain; (3) any treatment other than pain medication that the applicant has

received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determine the extent of his or her function on all limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2).

In order to determine whether or not an individual is disabled, federal regulations require a five-step sequential evaluation process be utilized. 20 CFR 416.920(a)(1). The five-step analysis requires the trier of fact to cons ider an individual's current work activit y; the severity of the impairment(s) both in duration and whether it meets or equals a listed impairment in Appendix 1; residual functional capacity to det ermine whether an individual can perform past relev ant work; and residual functional capacity along with vocational factors (i .e. age, education, and work experienc e) to determine if an individual can adjust to other work. 20 CFR 416.920(a)(4); 20 CFR 416.945.

If an individual is found disabled, or not disabled, at any step, a determination or decision is made with no need evaluate subsequent steps. 20 CFR 416.920(a)(4). If a determination cannot be made that an individual is disable ed, or not disabled, at particular step, the next step is required. 20 CFR 416.920(a)(4). If an impairment does not meet or equal a listed impairment, an indi vidual's residual functional capacity is assessed before moving from step three to step four. 20 CFR 416.920(a)(4); 20 CFR 416.945. Residual f unctional capacity is the most an indiv idual can do despite the limitations based on all relevant evidence. 20 CF R 945(a)(1). An individual's residua l functional capacity assessment is evaluat ed at both steps four and five. 20 CF 416.920(a)(4). In determining disability, an individual's functional capacity to perform basic work activities is evaluated and if found that the individ ual has the ability to perform basic work activities without significant limitation, disability will not be found. 20 CFR 416.994(b)(1)(iv). In general, the indi vidual has the responsibility to prove disability. 20 CFR 4 16.912(a). An impair ment or combination of impairments is not severe if it does not signific antly limit an individual's physical or mental ability to do basic work activities. 20 CFR 416.921(a ). The in dividual has the responsibility to provide evidence of prior work experience; efforts to work; and any other factor showing how the impairment affects the ability to work. 20 CFR 416.912(c)(3)(5)(6).

As outlined above, the first step looks at the i ndividual's current work activity. In the record presented, the Cla imant is not involved in substantial gainful activity therefore is not ineligible for disability benefits under Step 1.

The severity of the Claimant 's alleged impairment(s) is considered under St ep 2. The Claimant bears the burden to pr esent sufficient objective medical evidenc et o substantiate the alleged disa bling impairments. In order to be considered disabled for MA purpos es, the impairment must be se vere. 20 CFR 916. 920(a)(4)(ii); 20 CFR 916.920(b). An impairment, or combination of impairments, is severe if it significantly limits an in dividual's physical or mental ability to do basic work activities regardless of

age, education and work exper ience. 20 CFR 916.920(a)(4)(ii); 20 CFR 916.920(c). Basic work activities means the abilities and aptitudes necessary to do most jobs. 20 CFR 916.921(b). Examples include:

- 1. Physical functions such as wa lking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- 2. Capacities for seeing, hearing, and speaking;
- 3. Understanding, carrying out, and remembering simple instructions:
- 4. Use of judgment;
- 5. Responding appropriately to supervision, co-workers and usual work situations; and
- 6. Dealing with changes in a routine work setting.

ld.

The second step allows for dismissal of a disability claim obviously lacking in medical merit. Higgs v Bowen, 880 F2d 860, 862 (CA 6, 1988). The severity requirement may still be employed as an admin istrative convenience to screen out claims that are totally groundless solely from a medical standpoint. *Id.* at 863 citing Farris v Sec of Health and Human Services, 773 F2d 85, 90 n.1 (CA 6, 1985). An impairment qualifies as non-severe only if, regardless of a claimant's age, education, or work experience, the impairment would not affect the claimant's ability to work. Salmi v Sec of Health and Human Services, 774 F2d 685, 692 (CA 6, 1985).

In the pres ent case, the Claima nt alleges di sability due to co lostomy, abdominal pain, and residual complications from GSWs.

On the Claimant was admitted to the hos pital with multiple gunshot wounds to the abdomen, right forearm, and left foot. He underwent emergency exploratory laparotomy with par tial gastrec tomy, small bowel resection, and colon resection with colost omy without complication. Irrigation and debridement of e left ankle, foot, and forearm was also done. The Claimant was discharged on with the diagnoses of status post multiple GS Ws to the abdomen and extremities; small bowel injury status post small bowel rese ction; transverse colon injury secondary to GSW, status post resection and transverse colostomy; wound to stomach with wedge resection; status post GSW to right forea rm with was hout; and status post GSW to left foot with washout.

On the Cla imant presented to the hosp ital with complaints of productive cough and shortness of breath. The Clamant was treated and discharged with the diagnosis of upper respiratory infection.

On the Claimant attended a consultative physical evaluation. The Clamant was 5'7" and weighe dot 122 pounds. The impressions were some stiffness in the left foot, but otherwise not affecting the gait or am bulation. The Physic ian opined that the Claimant was able to work as far as his physical condition was concerned. There were no limitations with manipulations, walking, standing, pushing, lifting, or carrying. The only issue was that his colostomy bag needs to be reversed.

As previously noted, the Claim ant bears the burden to present sufficient objective medical evidence to substantiate the alleged disabling impairment(s). As summarized above, the Claimant has presented medical evidence establishing that he does have some physical limitations on his ability to perform basic work activities. The medical evidence has established that the Claimant has an impairment, or combination thereof, that has more than a deminimus effect on the Claimant's basic work activities. Further, the impairments have lasted continuously for twelve months; therefore, the Claimant is not disqualified from receipt of MA-P benefits under Step 2.

In the third step of the seque ntial an alysis of a disability claim, the trier of fact must determine if the Claimant's impairment, or co mbination of impairments, is listed in Appendix 1 of Subpart P of 20 CFR, Part 404.

The Claimant has alleged phys ical disabling impairments due to colostomy, abdominal pain, and residual complications from GSWs.

Listing 1.00 defines musculoskeletal syst em impairments. Disor ders of the musculoskeletal system may re sult from her editary, congenital, or acquired pathologic processes. 1.00A. Impairments may resu It from infectious , inflammatory , or degenerative processes, traumatic or developmental events, or neoplastic, vascular, or toxic/metabolic dis eases. 1.00A. Regardle ss of the cause(s) of a musculoskeleta impairment, functional loss for purposes of these listings is defined as the inability to ambulate effectively on a sustained basis for any reason, including pain associated with the underlying musculoskeletal impairment, or the inability to perform fine and gross movements effectively on a sus tained basis for any reason, including pain associated with the underlying musculoskeletal impairment. Inability to ambulate effectively means an extreme limitation of the ab ility to walk; i.e., an impairment(s) that interferes very seriously with the individual's ability to independently initiate, su stain, or complete activities. 1.00B2b(1). Ineffective ambulation is defined generally as having insufficient lower extremity function to permit independ ent ambulation without the use of a handheld assistive device(s) that limits the functioning of both upper extremities. (Listing

1.05C is an exception to this general definition because the individual has the use of only one upper extremity due to amput ation of a hand.) 1.00B2b(1). To ambulat e effectively, individuals must be capable of sustaining a reasonable walking pace over a sufficient distance to be able to carry out activities of daily living. 1.00B2b(2). They must have the ability to travel without companion assistance to and from a place of employment or school. . . . 1.00B2b(2). When an individual's impairment involves a lower extremity uses a hand-held assistive device, such as a cane, crutch or walker, the medical basis for use of the device should be documented. 1.00J4. The requirement to use a hand-held assistive device may also impact an individual's functional capacity by virtue of the fact that one or both upper extremities are not available for such activities as lifting, carrying, pushing, and pulling. 1.00J4.

## Categories of Musculoskeletal include:

- 1.02 Major dysfunction of a joint(s) due to any cause:
  Characterized by gross anat omical deformity (e.g. subluxation, contracture, bony or fibrous ankylosis, instability) and chronic joint pain and stiffne ss with s igns of limitation of motion or other abnormal motion of the affected joint(s), and findings on appropriat e medically acceptable imaging of joint space nar rowing, bony destruction, or ankylosis of the affected joint(s). With:
  - A. Involvement of one major peri pheral weight-bearing joint (i.e., hip, knee, or ank le), resulting in inab ility to ambulate effectively as defined in 1.00B2b; or
  - B. Involvement of one major peripheral joint in each upper extremity (i.e., shoulder, elbow, wr ist, hand), resulting in inability to perform fine and gross movements effectively a defined in 1.00B2c

\* \* \*

- 1.04 Disorders of the spine (e .g., herniated nucleus pulposus, spinal arachnoiditis, spinal stenosis, osteoarthritis, degenerative disc disease, facet arthritis, vertebral fracture), resulting in compromise of a ner ve root (including the cauda equine) or spinal cord. With:
  - A. Evidence of nerve root compression charact erized by neuro-anatomic distribution of pain, limitation of motion of the spine, motor loss (atrophy with associated muscle weakness or muscle weakness) accompanied by sensory or reflex loss and, if there is

- involvement of the lower ba ck, positive straight-leg raising test (sitting and supine); or
- B. Spinal arachnoiditis, confirmed by an oper ative note or pathology report of tissue biopsy, or by appropriate medically acceptable imaging, manifested by severe burning or painful dys esthesia, resulting in the need for changes in position or post ure more than onc e every 2 hours; or
- C. Lumbar spinal stenosis res ulting in pseudoclaudication, established by findings on appropriate medically acceptable imaging, manifested by chronic nonradic ular pain and weak ness, and resulting in inability to ambulate effectively, as defined in 1.00B2b. (see above definition)

In this case, the Claimant suffered GSWs to his abdomen, left foot and right arm. The wounds were cleaned (debridement/irrigation) without complication. The Claimant is able to walk without an assist ive device and has no limitati ons with fine manipulation, walking, standing, pushing, lifting, or carry ing. There was no evidence of a major dysfunction of a joint(s) or evidence of compression of the nerve or spinal cord. Ultimately, the Claimant's injuries to the left foot and right arm do not meet the intent and severity requirement of a listed impairment within 1.00.

The Claimant also alleges disability on the bases of the re sidual complications from the GSW to the abdomen whic h resulted in a colo stomy. Listing 5.00 defines digestive system impairments. Disorder s of the digestive system include gastrointestinal hemorrhage, hepatic (liver) dy sfunction, infl ammatory bowel disease, s hort bowel syndrome, and malnutrition. 5.00A. Medica I docum entation necessary to meet the listing must record the severity and duration of the impairment. 5. 00B. The severity and duration of the impairment is c onsidered within the context of the prescribed treatment. 5.00C1. Surgical diversion of the intestinal tract, including ileostomy and colostomy, does not preclude an y gainful activity if an indi vidual is able to maintain adequate nutrition and function of the s toma. 5.00E4. If adequate nut maintained, weight loss due to any digestive disorder despite continuing treatment is considered. 5.00E4; 5.08 Weight loss with BMI of less than 17.5 calculated on at least two evaluations at least 60 day s apart wit hin a cons ecutive 6-month period satisfies Listing 5.08.

In this case, the Claimant has a colostomy which needs to be reversed. The Claimant's BMI in March 2011 was 19.1. At the time of hearing, the Claimant testified that his weight was 112 pounds which, based on his 5'7" height, equates to a 17.5 BMI. There was no evidence of a BMI of less than 17.5, and, as noted above, a colostomy does not preclude gainful activity if an individual is able to maintain adequate weight. Based on

these records, it is found to hat the Claimant's impairm ents do not meet the intent and severity requirement of a listed impairment within 5.00. Accordingly, the Claimant cannot be found disabled or not disabled at Step 3; therefore, the Claimant's eligibility is considered under Step 4. 20 CFR 416.905(a).

The fourth step in analyzing a dis ability claim requires an assessment of the Claimant's residual f unctional capacity ("RFC") and pas t relevant employment. 20 CF R 416.920(a)(4)(iv). An individual is not disabled if he/she can perform past relevant work. Id.; 20 CFR 416.960(b)(3). Past relevant work is work that has been performed within the past 15 years that was a substantial gainful activity and that lasted long enough for the individual to learn the position. 20 CF R 416.960(b)(1). Vocational fact ors of age, education, and work experience, and whether the past relevant employment exists in significant numbers in the national economy is not considered. 20 CF R 416.960(b)(3). RFC is as sessed based on impairment(s), and any related symptoms, such as pain, which may cause physical and mental limitations that affect what can be done in a work setting. RFC is the most that can be done, despite the limitations.

To determine the physical demands (exertional requirements) of work in the national economy, jobs are c lassified as sedentary, light, medium, heavy, and very heavy. 2 0 CFR 416.967. Sedentary work involves lifting of no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. 20 CFR 416.967(a). Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Id. Jobs are sedentary if walking and standing are r equired occasionally and other sedentary lifting no more than 20 pounds at a time with criteria are met. Light work involves frequent lifting or carrying objects weighing up to 10 pounds. 20 CFR 416.967(b). Even though weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it invo Ives sit ting most of the time with some pushing and pulling of arm or leg controls. *Id.* To be considered capable of performing a full or wide range of light work, an individual must have the ability to do substantially all of these activities. Id. A n individual capable of light work is also capable of sedentary work, unless there are additionally limiting factors such as loss of fin е dexterity or inability to sit for long periods of time. *Id*. Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. 20 CFR 416.967(c). An individual capable of performing medium work is also capable of light and sedentary work. *Id.* Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of object is weighing up to 50 pounds. 20 CFR 416.967(d). A n individual capable of heavy work is also c apable of medium, light, and sedentary work. *Id.* Finally, very heavy work involves lifting objects weighing more than 100 pounds at a time with frequent lifting or carrying objects weighing 50 pounds or more. 20 CFR 416.967(e). An individual capable of very heavy work is able to perform work under all categories. Id.

Limitations or restrictions which affect the ability to meet the demands of jobs other than strength demands (exertional requirements, i.e. sitting, standing, walk ing, lifting, carrying, pushing, or pulling) are consider ed nonexertional. 20 CFR 416.969a(a). In considering whether an individual can perform past relevant work, a comparis on of the individual's residual functional c apacity with the demands of past relevant work. an individual can no longer do past relevant work the same residual functional capacity assessment along with an individual's a ge, education, and work experience is considered to determine whether an individual can adjust to other work which exists in the national economy. *Id.* Examples of non-exertional limitations or restrictions include difficulty to function due to nervousness, anxiousness, or depression; difficulty maintaining attention or concentration; difficulty understanding or remembering detailed instructions; difficulty in seeing or hearing; difficulty tolerating some physic al feature(s) of certain work settings (i.e. ca n't tolerate dust or fumes); or di fficulty performing the manipulative or postur al functions of some work such as reaching, handling, stooping, climbing, crawling, or crouching. 20 CFR 4 16.969a(c)(1)(i) – (vi). If the imp airment(s) and related symptoms, such as pain, only affect the ability to perform the non-exertional aspects of work-related activities, the rules in Appendix 2 do not direct factual conclusions of disabled or not disabled. 20 CFR 416.969a(c)(2). The determination of whether disability exists is bas ed upon the principles in the appropriate sections of the regulations, giving consideration to the rules for specific case situations in Appendix 2. ld.

The Claimant's work history in cludes employment his tory of work as a general laborer, cashier, and bus boy. In light of the Claim ant's testimony and in consideration of the Occupational Code, the Claimant's prior work is classified as unskilled light work.

The Claimant testified that he c an lift/carry less than 10 pounds; walk about ½ block; stand 1 hour; sit for over 2 hours; and has some difficulty bending and/or squatting. The objective medical evidence finds the Clai mant physically able to work noting no limitations with fine mani pulation, standing, walk ing, pushing, lifting, or pulling. If the impairment or combination of impairments does not limit an indi vidual's physical or mental ability to do basic work activities, it is not a severe impairment(s) and disab ility does not exist. 20 CFR 416.920. In consi deration of the Claimant's testimony and medical records, it is found that the Claim ant is able to return to past relevant work. Accordingly, the Claimant is found not di sabled at Step 4 with not further analysis required.

Assuming arguendo, Step 5 were necessary, an assessment of the individual's residual functional capacity and age, education, and work experience is considered to determine whether an adjustment to other work can be made. 20 CFR 41 6.920(4)(v). At the time of hearing, the Claimant was greatly years old thus considered to be a younger individual for MA-P purposes. The Claimant has the equivalent of a high school education. Disability is found if an individual is una ble to adjust to other work. *Id.* At this point in the

analysis, the burden shifts from the Claimant to the Department to present proof that the Claimant has the residual ca pacity to substantial gainful employment. 20 CF R 416.960(2); *Richardson v Sec of Health and Human Services*, 735 F2d 962, 964 (CA 6, 1984). While a voc ational expert is not r equired, a finding s upported by substantial evidence that the individual has the vocational qualific ations to perform specific jobs is needed to meet the burden. *O'Banner v Sec of Healt h and Human Services*, 587 F2d 321, 323 (CA 6, 1978). Medical-Vocationa I guidelines found at 20 CFR Subpart P, Appendix II, may be used to satisfy the burden of proving that the individual can perform specific jobs in the national economy. *Heckler v Campbell*, 461 US 458, 467 (1983); *Kirk v Secretary*, 667 F2d 524, 529 (CA 6, 1981) *cert den* 461 US 957 (1983). The age for younger individuals (under 50) generally will not seriously affect the ability to adjust to other work. 20 CFR 416.963(c).

In this case, the evidence established that the Claim ant suffers from some residual effects as a result of GSWs, mainly dealing with a colostomy that needs to be reversed. The Claimant is in stable condition, and, based on the objective findings, has no physical limitations on his ability to work. In light of the foregoing, it would be found that the Claimant maintains the residual functional capacity for work activities on a regular and continuing basis to meet the physical and mental demands required to perform at least light work as defined in 20 CFR 416.967(b). After review of the entire record using the Medical-Vocational Guidelines [20 CFR 404, Subpart P, Appendix II] as a guide, specifically Rule 202.22, the Claimant would be found not disabled for purposes of the MA-P program at Step 5 as well.

The State Disability Assist ance program, which pr ovides financial assistance for disabled persons, was established by 2004 PA 344. DHS administers the SDA program purusant to MCL 400.10 et seq. and Mich Admin Code, Rules 400.3151 – 400.3180. Department policies are f ound in BAM, BEM, and BRM. A person is considered disabled for SDA pur poses if the person has a physical or mental impairment which meets federal SSI disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness automatically qualifies an individual as disabled for purposes of the SDA program.

In this cas e, the Claimant is found not disabled for purposes of the MA-P program; therefore, the Claimant is found not disabled for purposes of SDA benefit program.

## **DECISION AND ORDER**

The Administrative Law Judge, based on the above findings of fact and conclusions of law finds the Claimant not disabled for purposes of the MA-P and SDA benefit programs.

Accordingly, it is ORDERED:

The Department's determination is AFFIRMED.

Colleen M. Mamuka

Colleen M. Mamelka

Administrative Law Judge

For Maura Corrigan, Director

Department of Human Services

Date Signed: December 14, 2011

Date Mailed: December 14, 2011

**NOTICE**: Administrative Hearings may or der a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hear ings will not orde rarehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a ti mely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing <u>MAY</u> be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:
  - misapplication of manual policy or law in the hearing decision,
  - typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
  - the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at
