IN THE MATTER OF:

██████████,

Appellant

Docket No. 2011-41982 MCE

Case No. ██████████

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge (ALJ) pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Appellant's request for a hearing appealing the Department's denial of exception from Medicaid Managed Care Program enrollment.

After due notice, a hearing was held ██████████ ██████████, mother, appeared on the Appellant's behalf. ██████████, Medical Exception and Special Disenrollment Program Specialist, represented the Department.

ISSUE

Does the Appellant meet the requirements for a managed care exception?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. The Appellant is a ██████ year-old Medicaid beneficiary.
2. The Appellant resides in ████████████████████. She is a member of the population required to enroll in a Medicaid Health Plan (MHP).
3. The Appellant has been enrolled in ████████████████████, a MHP, since ██████████ ██████████. (Exhibit 1, page 2)

4. On ██████████, the Michigan Department of Community Health Enrollment Services Section received a managed care exception request for the Appellant because she has ADHD, Extreme Rage disorder and depression and needs coverage for counseling costs. There was no signature from the treating doctor, ██████████. (Exhibit 1, page 8)
5. On ██████████, the Appellant's request for a managed care exception was denied. The denial notice indicated: the Appellant has been enrolled in ██████████ for more than two months; ██████████ is a participating provider in at least one Medicaid Health Plan available to the Appellant; ██████████ works with ██████████; behavioral health services are available to the Appellant through her local Community Mental Health Service Program and the MHPs have a limited 20 visit per year mental health benefit. (Exhibit 1, pages 9-10)
6. On ██████████, the Appellant's Request for Hearing was received. (Exhibit 1, page 7)

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

On May 30, 1997, the Department was notified of the Health Care Financing Administration's approval of its request for a waiver of certain portions of the Social Security Act to restrict Medicaid beneficiaries' choice to obtain medical services only from specified Qualified Health Plans.

Michigan Public Act 131 of 2009 states, in relevant part:

Sec. 1650 (3) The criteria for medical exceptions to HMO enrollment shall be based on submitted documentation that indicates a recipient has a serious medical condition, and is undergoing active treatment for that condition with a physician who does not participate in 1 of the HMOs. If the person meets the criteria established by this subsection, the department shall grant an exception to mandatory enrollment at least through the current prescribed course of treatment, subject to periodic review of continued eligibility.

MDCH Medicaid Provider Manual, Beneficiary Eligibility Section, April 1, 2011, page 31, states in relevant part:

9.3 Medical Exceptions to Mandatory Enrollment

The intent of the medical exception process is to preserve continuity of medical care for a beneficiary who is receiving active treatment for a serious medical condition from an attending physician (M.D. or D.O.) who would not be available to the beneficiary if the beneficiary is enrolled in a MHP. The medical exception may be granted on a time-limited basis necessary to complete treatment for the serious condition. The medical exception process is only available to a beneficiary who is not yet enrolled in a MHP, or who has been enrolled for less than two months. MHP enrollment would be delayed until one of the following occurs:

- the attending physician completes the current ongoing plan of medical treatment for the patient's serious medical condition, or
- the condition stabilizes and becomes chronic in nature, or
- the physician becomes available to the beneficiary through enrollment in a MHP.

If the treating physician can provide service through a MHP that the beneficiary can be enrolled in, then there is no basis for a medical exception to managed care enrollment.

If a beneficiary is enrolled in a MHP, and develops a serious medical condition after enrollment, the medical exception does not apply. The beneficiary should establish relationships with providers within the plan network who can appropriately treat the serious medical condition.

MDCH Medicaid Provider Manual, Beneficiary Eligibility Section, April 1, 2011, pages 31-32, states in relevant part:

9.3.A Definitions

Serious Medical Condition

Grave, complex, or life threatening.

Manifests symptoms needing timely intervention to prevent complications or permanent impairment.

An acute exacerbation of a chronic condition may be considered serious for the purpose of medical exception.

Chronic Medical Condition

Relatively stable.

Requires long term management.

Carries little immediate risk to health.

Fluctuates over time, but responds to well-known standard medical treatment protocols.

Active treatment

Active treatment is reviewed in regards to intensity of services when:

- The beneficiary is seen regularly, (e.g., monthly or more frequently,) and
- The condition requires timely and ongoing assessment because of the severity of symptoms and/or the treatment.

Attending/Treating Physician

The physician (M.D. or D.O.) may be either a primary care doctor or a specialist whose scope of practice enables the interventions necessary to treat the serious condition.

MHP Participating Physician

A physician is considered participating in a MHP if he is in the MHP provider network or is available on an out-of-network basis with one of the MHPs with which the beneficiary can be enrolled. The physician may not have a contract with the MHP but may have a referral arrangement to treat the plan's enrollees. If the physician can treat the beneficiary and receive payment from the plan, then the

beneficiary would be enrolled in that plan and no medical exception would be allowed.

The Appellant's request for a medical exception indicates that she suffers from ADHD, Extreme Rage disorder and depression and needs coverage for counseling costs. The treatment plan lists ongoing counseling, medication, and doctor checks. (Exhibit 1, page 8) The Medical Exception and Special Disenrollment Program Specialist questioned whether the listed treating doctor completed this form as he did not sign the Medical Exception Request. (Medical Exception and Special Disenrollment Program Specialist Testimony)

The Appellant has been enrolled in ██████████ since ██████████. In reviewing the Appellant's medical exception request, the Department noted that the request for the medical exception was received on ██████████, well after the two month period allowed by the Medicaid policy. (Medical Exception and Special Disenrollment Program Specialist Testimony) The Department further verified that ██████████ is a participating provider in several Medicaid Health Plans available to the Appellant, including ██████████ (Exhibit 1, page 10) The Medical Exception and Special Disenrollment Program Specialist explained that the documentation submitted did not show current active treatment for the Appellant's serious medical condition by a doctor who is not available to her through a MHP. Therefore, the Department determined that the Appellant did not meet the criteria for a medical exception to mandatory enrollment. (Medical Exception and Special Disenrollment Program Specialist Testimony)

The Appellant's mother disagrees with the Department's determination, however the issues raised related to the Appellant's mental health are not considered under the medical exception criteria. As the Medical Exception and Special Disenrollment Program Specialist explained, the MHP's have a limited mental health benefit of 20 visits, and serious mental illnesses are covered through the local Community Mental Health Services Program. The Appellant's mother stated that they have tried the local Community Mental Health, but they only authorized six visits. The Appellant's hearing request has been forwarded for a Community Mental Health hearing.

This ALJ has reviewed the evidence of record. It does not establish that the Appellant submitted a timely request for a medical exception or that she is currently receiving frequent and active treatment for a serious medical condition with a doctor who does not participate with a MHP as defined in the Medicaid Provider Manual policy. To the contrary, the evidence documents that ██████████ is available to the Appellant through at least one MHP available to the Appellant, including the MHP the Appellant is currently enrolled in. The Appellant's mother also acknowledged that the doctor did not complete the Medical Exception Request form because she did not know a doctor needed to do this. (Mother Testimony) No additional medical documentation was submitted. Accordingly, there is no medical documentation to support the requested exception. Decision and Order

2011, pages 32-33 address the physician responsibility for completing section II of the Medical Exception Request form. The evidence does not establish that the Appellant meets the criteria necessary to be granted a managed care exception at this time.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that the Appellant does not meet the criteria for Medicaid Managed Care exception.

IT IS THEREFORE ORDERED THAT:

The Department's decision is AFFIRMED.
