

STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

Reg. No: 2011-47349

Issue No: 2009

██████████
██████████
██████████
ADMINISTRATIVE LAW JUDGE: ██████████

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon Claimant's request for a hearing. After due notice, an in-person hearing was held on ██████████. Claimant was represented by ██████████, ██████████. Claimant personally appeared and testified. ██████████ provided testimony on behalf of the department.

During the hearing, Claimant waived the time period for the issuance of this decision in order to allow for the submission of additional medical evidence. The new evidence was forwarded to the State Hearing Review Team ("SHRT") for consideration. On ██████████, ██████████, the SHRT found Claimant was not disabled. This matter is now before the undersigned for a final decision.

ISSUE

Whether the Department of Human Services (the department) properly denied Claimant's application for Medical Assistance (MA-P) and Retro-MA benefit programs?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On ██████████ Claimant filed an application for MA and Retro-MA benefits alleging disability.
2. On ██████████, the Medical Review Team (MRT) denied Claimant's application for MA-P and Retro-MA.
3. On ██████████, the department caseworker sent Claimant notice that his application was denied.

4. On [REDACTED], Claimant filed a request for a hearing to contest the department's negative action.
5. On [REDACTED] and [REDACTED], the State Hearing Review Team (SHRT) found Claimant was not disabled.
6. Claimant alleges disability due to ruptured discs, migraines, arthritis and a personality changes.
7. At the time of the hearing, Claimant was [REDACTED] birth date; was 5'10" in height and weighed 250 pounds.
8. Claimant is a high school graduate. He last worked as an office manager for a property management company in [REDACTED]. Prior to that, he also had worked in the construction industry (carpentry), welding and performing maintenance.
9. Claimant was appealing the denial of Social Security disability benefits at the time of the hearing.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by the Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (formerly known as the Family Independence Agency) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

Under the Medicaid (MA) program:

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

When determining disability, the federal regulations require several factors to be considered, including: (1) the location/duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicant takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed

to determine the extent of his or her functional limitations in light of the objective medical evidence presented. 20 CFR 416.929(c)(94).

In determining whether you are disabled, we will consider all of your symptoms, including pain, and the extent to which your symptoms can reasonably be accepted as consistent with objective medical evidence, and other evidence. 20 CFR 416.929(a).

Pain or other symptoms may cause a limitation of function beyond that which can be determined on the basis of the anatomical, physiological or psychological abnormalities considered alone. 20 CFR 416.945(e).

In evaluating the intensity and persistence of your symptoms, including pain, we will consider all of the available evidence, including your medical history, the medical signs and laboratory findings and statements about how your symptoms affect you. We will then determine the extent to which your alleged functional limitations or restrictions due to pain or other symptoms can reasonably be accepted as consistent with the medical signs and laboratory findings and other evidence to decide how your symptoms affect your ability to work. 20 CFR 416.929(a).

Since symptoms sometimes suggest a greater severity of impairment than can be shown by objective medical evidence alone, we will carefully consider any other information you may submit about your symptoms. 20 CFR 416.929(c)(3).

Because symptoms such as pain, are subjective and difficult to quantify, any symptom-related functional limitations and restrictions which you, your treating or examining physician or psychologist, or other persons report, which can reasonably be accepted as consistent with the objective medical evidence and other evidence, will be taken into account in reaching a conclusion as to whether you are disabled. 20 CFR 416.929(c)(3).

We will consider all of the evidence presented, including information about your prior work record, your statements about your symptoms, evidence submitted by your treating, examining or consulting physician or psychologist, and observations by our employees and other persons. 20 CFR 416.929(c)(3).

Your symptoms, including pain, will be determined to diminish your capacity for basic work activities to the extent that your alleged functional limitations and restrictions due to symptoms, such as pain, can reasonably be accepted as consistent with the objective medical evidence and other evidence. 20 CFR 416.929(c)(4).

In Claimant's case, the ongoing pain, bladder control problems, the need to use a cane for ambulation and other non-exertional symptoms he describes are consistent with the objective medical evidence presented. Consequently, great weight and credibility must be given to his testimony in this regard.

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

Claimant has not been employed since 2010; consequently, the analysis must move to Step 2.

In this case, Claimant has presented the required medical data and evidence necessary to support a finding that Claimant has significant physical limitations upon his ability to perform basic work activities.

Medical evidence has clearly established that Claimant has an impairment (or combination of impairments) that has more than a minimal effect on Claimant's work activities. See Social Security Rulings 85-28, 88-13, and 82-63.

In the third step of the sequential consideration of a disability claim, the trier of fact must determine if the claimant's impairment (or combination of impairments) is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. This Administrative Law Judge finds that the Claimant's medical record will not support a finding that Claimant's impairment(s) is a "listed impairment" or equal to a listed impairment. See Appendix 1 of Subpart P of 20 CFR, Part 404, Part A. Accordingly, Claimant cannot be found to be disabled based upon medical evidence alone. 20 CFR 416.920(d).

In the fourth step of the sequential consideration of a disability claim, the trier of fact must determine if the claimant's impairment(s) prevents claimant from doing past relevant work. 20 CFR 416.920(e). Although the claimant's past relevant work is partially sedentary in nature, this Administrative Law Judge finds the claimant is unable to engage in a full range of even sedentary work activities on a regular and continuing basis. 20 CFR 404, Subpart P. Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986). The claimant has documented muscle weakness and atrophy in his lower extremity due to the pain and limping. He ambulates with the use of a cane. The medical evidence documents that he loses control of his bladder due to the pain. The claimant testified that he is unable to sit for more than 15 minutes before he has to change positions to relieve the pain. The claimant's testimony is found to be credible and persuasive. The objective medical evidence does not support a finding that the claimant would be capable of performing even sedentary work.

The department has failed to provide vocational evidence which establishes that Claimant has the residual functional capacity for substantial gainful activity and that, given Claimant's age, education, and work experience, there are significant numbers of jobs in the national economy which the Claimant could perform despite Claimant's limitations. Accordingly, this Administrative Law Judge concludes that Claimant is disabled for purposes of the MA program. Consequently, the department's denial of his [REDACTED] MA/Retro-MA application cannot be upheld.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the department erred in determining Claimant is not currently disabled for MA/Retro-MA eligibility purposes.

Accordingly, the department's decision is **REVERSED**, and it is Ordered that:

1. The department shall process Claimant's [REDACTED] MA/Retro-MA application, and shall award him all the benefits he may be entitled to receive, as long as he meets all non-medical eligibility factors.
2. The department shall review Claimant's medical condition for improvement in [REDACTED] [REDACTED], unless his Social Security Administration disability status is approved by that time.

/s/ [REDACTED]
Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date [REDACTED]

Date Mailed: [REDACTED]

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
