Reg. No. 2011-47890
Issue No. 2009
Case No. [REDACTED]
Hearing Date: November 16, 2011
Kent County DHS

ADMINISTRATIVE LAW JUDGE: William A. Sundquist

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the claimant's request for a hearing. After due notice, a telephone hearing was held on November 16, 2011.

ISSUE

On date of application, did claimant have a severe impairment(s) that had lasted or would be expected to last for a one year **continuous** duration?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. The claimant has not worked since February 4, 2011.
2. On February 4, 2011, the claimant was laid off from his last job as a head chef for a retirement home; thereafter, he became a UCB recipient starting in March 2011 with exhaustion expected in December 2011.
3. Claimant alleges that he became unable to do any past work because of a physical disorder(s); he admits he can do sedentary-type work as defined below.
4. On June 15, 2011, claimant applied for Medicaid, was denied on July 20, 2011 per BEM 260, and requested a hearing on August 2, 2011.
5. Claimant's vocational factors are: age 41; 12th grade education, and past job at time of layoff as a head chef at a retirement home.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

Facts above are undisputed.

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and has not worked since February 4, 2011. Therefore, disability is not denied at this step.

At Step 2, the objective medical evidence of record does not establish that the claimant is significantly limited in performing basic physical work activities, as defined below, for the required duration stated below.

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

...[The impairment]...must have lasted or must be expected to last for a continuous period of at least 12 months. We call this the duration requirement. 20 CFR 416.909.

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

Basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;

- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

The claimant has the burden of proof to establish that he has a severely restrictive physical impairment that has lasted or can be expected to last for a duration of at least one **continuous** year. There is insufficient objective medical evidence in the record that claimant suffers a severely restrictive physical impairment for the required period.

The claimant admitted that he has the residual functional capacity to perform at least sedentary-type work as defined above; and that in order to remain eligible for UCB, he has to be able and available for work.

In addition, claimant does receive unemployment compensation benefits. In order to receive unemployment compensation benefits under the federal regulations, a person must be monetarily eligible. They must be totally or partially employed. They must have an approvable job separation. Also, they must meet certain legal requirements which include being physically and mentally able to work, being available for and seeking work, and filing a weekly claim for benefits on a timely basis. This Administrative Law Judge finds that claimant has not established that she has a severe impairment or combination of impairments which have lasted or will last the durational requirement of 12 months or more or have kept her from working for a period of 12 months or more.

Therefore, disability is denied at Step 2.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that disability was not medically established.

Accordingly, Medicaid denial is UPHELD.
