County: Wayne (82-49)

ADMINISTRATIVE LAW JUDGE: Robert J. Chavez

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a hearing was held on November 23, 2011, by teleconference from Detroit, Michigan.

ISSUE

Was the denial of claimant's application for Medical Assistance program (MA-P), State Disability Assistance (SDA) and retroactive MA-P benefits for lack of disability correct?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Claimant applied for MA-P and SDA on May 9, 2011.
2. Claimant is 50 years old.
3. Claimant has a limited education.
4. Claimant has an unskilled work history.
5. Claimant is not currently engaged in Substantial Gainful Activity (SGA).
6. On [REDACTED], claimant was admitted into the emergency room with a lower GI bleed, irregular uterine bleeding, stool impaction, and anemia secondary to those conditions.

7. Treating sources noted in a follow-up examination on [REDACTED] that claimant was stable, and did not list any particular limitations.
8. No further medical intervention was required.
9. Claimant testified that she has occasional incontinence problems, but this problem is not consistent.
10. Claimant has had no hospitalizations or complications since the initial admission.
11. On August 4, 2011, the Medical Review Team denied MA-P, stating that claimant could perform prior relevant work.
12. On August 8, 2011, claimant filed for a hearing.
13. On September 27, 2011, the State Hearing Review Team (SHRT) denied MA-P, stating that claimant's impairment did not meet durational requirements.
14. On November 23, 2011, a hearing was held before the Administrative Law Judge.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (Department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

Federal regulations require that the Department use the same operative definition of the term "disabled" as is used by the Social Security Administration for Supplemental Security Income (SSI) under Title XVI of the Social Security Act. 42 CFR 435.540(a).

Disability is defined as the inability to do any substantial gainful activity (SGA) by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

This is determined by a five-step sequential evaluation process where current work activity, the severity and duration of the impairment(s), statutory listings of medical impairments, residual functional capacity, and vocational factors (i.e., age, education, and work experience) are considered. These factors are always considered in order according to the five-step sequential evaluation, and when a determination can be made at any step as to the claimant's disability status, no analysis of subsequent steps is necessary. 20 CFR 416.920.

The first step that must be considered is whether the claimant is still partaking in SGA. 20 CFR 416.920(b). To be considered disabled, a person must be unable to engage in SGA. A person who is earning more than a certain monthly amount (net of impairment-related work expenses) is ordinarily considered to be engaging in SGA. The amount of monthly earnings considered as SGA depends on the nature of a person's disability; the Social Security Act specifies a higher SGA amount for statutorily blind individuals and a lower SGA amount for non-blind individuals. Both SGA amounts increase with increases in the national average wage index. The monthly SGA amount for statutorily blind individuals for 2011 is \$1,640. For non-blind individuals, the monthly SGA amount for 2011 is \$1,000.

In the current case, claimant testified that she is not working, and the Department has presented no evidence or allegations that claimant is engaging in SGA. Therefore, the undersigned holds that claimant is not performing SGA, and passes step one of the five-step process.

The second step that must be considered is whether or not the claimant has a severe impairment. A severe impairment is an impairment expected to last 12 months or more (or result in death), which significantly limits an individual's physical or mental ability to perform basic work activities. The term "basic work activities" means the abilities and aptitudes necessary to do most jobs. Examples of these include:

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting.

20 CFR 416.921(b).

The purpose of the second step in the sequential evaluation process is to screen out claims lacking in medical merit. *Higgs v. Bowen* 880 F2d 860, 862 (6th Cir, 1988). As a result, the Department may only screen out claims at this level which are “totally groundless” solely from a medical standpoint. This is a *de minimus* standard in the disability determination that the court may use only to disregard trifling matters. As a rule, any impairment that can reasonably be expected to significantly impair basic activities is enough to meet this standard.

In the current case, claimant has not presented evidence of a severe impairment that has lasted or is expected to last the durational requirement of 12 months.

Claimant has alleged an impairment stemming from a lower GI bleed, irregular uterine bleeding, stool impaction, and anemia secondary to those conditions. However, claimant’s medical records show that claimant had no complications after admittance, and was progressing as expected. There are no records that show claimant’s injuries are expected to last one year or more. Claimant has had no admissions or treatment since the injury. Claimant has no devices or other attachments that are permanent and affect work-related activity. Claimant testified that she had occasional incontinence, but there was no indication this had affected claimant’s ability to perform work-related activities. Treating sources noted in follow-up exams that claimant was stable. There is no medical evidence that this condition is expected to last; claimant is currently following the regimen of prescribed treatment. Therefore, the undersigned holds that claimant’s condition does not appear likely to last for the 12-month duration required by the regulations.

Claimant has not presented the required competent, material, and substantial evidence which would support a finding that claimant has an impairment or combination of impairments which would significantly limit the physical or mental ability to do basic work activities. 20 CFR 416.920(c).

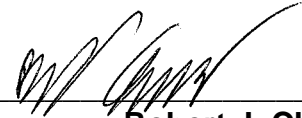

The medical record as a whole does not establish any impairment that would impact claimant’s basic work activities for a period of 12 months. There are no current medical records in the case that establish that claimant continues to have a serious medical impairment. There is no objective medical evidence to substantiate claimant’s claim that the impairment or impairments are severe enough to reach the criteria and definition of disabled. Accordingly, after careful review of claimant’s medical records, this Administrative Law Judge finds that claimant is not disabled for the purposes of MA-P.

Furthermore, with regards to the SDA program, there is no evidence that claimant’s condition would last 90 days, for the same reasoning as above. Therefore, the undersigned holds that claimant does not meet the durational requirements for the SDA program and is not disabled for the purposes of the SDA program.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that claimant is not disabled for the purposes of the MA-P and SDA programs. Therefore, the decisions to deny claimant's MA-P and SDA application were correct.

Accordingly, the Department's decision in the above-stated matter is, hereby, AFFIRMED.
