STATE OF MICHIGAN MICHIGAN ADMINISTRATIVE HEARING SYSTEM ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

Reg. No: 2011-6463 Issue No: 2009, 4031

Case No: Hearing Date:

: March 9, 2011

Ingham County DHS

ADMINISTRATIVE LAW JUDGE: Landis Y. Lain for Jay W. Sexton

HEARING DECISION

This matter is before the undersigned Admini strative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, an in-person hearing was held on March 9, 2011. Claimant per sonally appeared a nd testified. Claimant was represented at the

This hearing was originally held by Administrative Law Judge Jay Sexton. Jay Sexton is no lon ger affiliated with the Michigan Adm inistrative Hearing System Administrative Hearings for the Department of Human Services. This hearing decision was completed by Administrative Law Judge Landis Y. Lain by considering the entire record.

<u>ISSUE</u>

Did the Department of Human Services (the department) properly deny claimant's application for Medical Assistance (MA-P), retroactive Medical Assistance (retro MA-P) and State Disability Assistance (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) On June 30, 2010, claimant filed an application for Medical As sistance, retroactive Medical Assistance and St ate Disability Assistance benefits alleging disability.
- (2) On Augus t 20, 2010, the Medi cal Rev iew Team denied c laimant's application stating that claimant c ould perform other work pursuant to Medical Vocational Rule 202.17.

- (3) On August 25, 2010, the department ca seworker sent claimant notice that his application was denied.
- (4) On November 10, 2010, claimant's representative filed a request for a hearing to contest the department's negative action.
- (5) On December 1, 2010, the State Hearing Re view Team again denied claimant's application st ating in its' analy sis and recommendation: the claimant was admitted in the claimant was admit
- (6) The hearing was held on March 19, 2011. At the hearing, claimant waived the time periods and requested to submit additional medical information.
- (7) Additional medical information wa s submitted and sent to the State Hearing Review Team on May 31, 2011.
- (8) On June 9, 2011, the State Hearing Review Team again denied claimant's application stating in its' analysis and recommendation: the claimant was admitted in due to ac ute and chronic pancreatitis. There was indication of alcohol rela ted pancreatitis. The claimant's admission was prolonged due to his refusal of intervention and general lack of cooperation. The claimant had at I east 5 admissions since due to abdominal pain. The claimant denied alcohol and drug but did admit at one time to smoking marijuana. The records however, did indicate that there was at least al cohol abuse and doctors on at least a couple occasions tell the claimant to stay aw ay from alcohol because it could be causing his problems. There was possible drug seeking behavior. In May 2011 he was eating full dinner portions while continuing to complain of abdominal pain. He would intentionally give way to his legs when staff was present but was able to ambulat e out of the ward independently without issues. He frequently asked for pain medication. A mental status examination dated May 2011 indicated that the claimant was extremely anxious, hypervigilant and frightened. With all his admissions these behaviors were not noted. However, in May 2010 he refused interventions and was generally uncooperative. The claimant reportedly is unable to as not clear how much if any malingering wa speak English. It w involved. Public Law 104-121 is cited due to the mat eriality of drug and alcohol abuse. The clai mant's impairment's do not meet/equal the intent or severity of a Social Security listing. The medical evidence of record

indicates that the claimant retains the capacity to perform simple unskilled light work. In lieu of detaile d work history the claimant will be returned to other work. Therefore, based on the claimant's vocational profile of a younger individual, limited education and a history of unskilled/semi-skilled work, MA-P is denied us ing Vocational Rule 202.16 as a guide. Retroactive MA-P was considered in this case and is also denied. SDA is denied per PEM 261 because the nature and diseverity of the claimant's impairment's would not preclude work activity at the above stated level for 90 days.

- (9) On the date of hearing claimant was a 33-y ear-old man whose birth date is Claimant is 5'11" tall and weighed 330 pounds. Claimant alleges that he has a 6th grade education.
- (10) Claimant last worked at the also worked as a handyman. warehouse as a laborer. Claimant has
- (11) Claimant alleges as disabling impairments: pain in the abdomen and kidneys, pancreatitis, depression, su icidal thought s, sleep disorder, anxiety, shortness of breath, back pain, and muscle problems.

CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An oppor tunity for a hearing shall be granted to an ap plicant who requests a hearing because his or her clai m for assistance has been denied. MAC R 400.903(1). Clients h ave the right to contes t a department decision affecting elig ibility or benefit levels whenev er it is believed that the decision is incorrect. The department will provide an adm inistrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability A ssistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Service s (DHS or department) admin isters the SDA program pursuant to MCL 400.10, et seq., and MAC R 400.3151-400.3180. Department polic ies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is estab lished by Title XIX of the Social Sec urity Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, et seq., and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substant ial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to deter mine disability. Current work activity, severity of impairments, residual functional capacity, past wor k, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experienc e. 20 CFR 416.920(c).

If the impairment or combination of impair ments do not signific antly limit physica I or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include -

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood press ure, X-rays);
- (4) Diagnosis (statement of disease or injury based on it s signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing bas ic work activities is evaluated. If an individual has the ability to perform basic work activities with out significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other a cceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an indiv idual can do des pite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regula tions require that s everal considerations be analyzed in s equential order. If disability can be ruled out at any step, analys is of the next step is <u>not</u> required. These steps are:

- 1. Does the client perf orm S ubstantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
- 2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the cli ent is ineligible for MA. If yes, the analysis c ontinues to Step 3. 20 CF R 416.920(c).
- 3. Does the impairment appear on a spec ial listing of impairments or are the cli ent's symptoms, signs, and laboratory findings at least eq uivalent in s everity to the set of medical findings specified for the listed impairment? If no, the analys is continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
- 4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
- 5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and is not disqualified from receiving disability at Step 1.

The objective medical evidence on the record indicates that the claimant was admitted in with acute and chronic pancreatitis. In admitted with the same complaints (records from DDS).

In the claimant was admitted for acute and c hronic verses recurrent acute pancreatitis likely se condary to alcohol abuse versus triglycerides versus medication. He was noted to have pol ysubstance abuse with a y ear end drug screen positive for THC. The claimant acknowledged that he had been smokin g marijuana. The ER staff mentioned that claimant had been occasionally visiting the ER with alcohol intoxication. The importance of staying away from alcohol was emphasized as this could be causing his recurrent episodes (D1-35).

In the c laimant was admitted again. It was noted that the claimant was tolerating full dinner portions while he continued to complain of abdominal pain. The claimant was noted to intentionally give away two his legs when staff was present, however, he was able to ambulate out of the ward and to the bathroom independently without issues. He was frequently asking for pain medications when he was able to tolerate a full diet (records from DDS).

The claimant was admitted in esophagogastroduodenoscopy to assess the etiology of his ab-dominal pain. Findings included mild esophagitis, small hiatal hernia, proximal gastritis, and otherwis eunremarkable EGD with no explanation for his abdominal pain. It was noted that the claimant was constantly asking for pain medication (records from DDS).

A mental status examination dated indicated the claim ant spoke no english. He had almost no eye contact. He was extremely anxious, hypervigilant and frightened. The claimant denied any substance abuse. The claimant's interpreter indicated that sometimes the claimant says things and behaves in ways suggesting he is having auditory hallucinations. Diagnosis included post traumatic stress disorder and depressive disorder. Claimant's axis 5 GAF was 42. His prognosis was poor and he would not be able to manage his own be nefit funds (p. 3 of May 6, 2011, comprehensive psychological evaluation).

burden of proof of establis hing that he has a severely At Step 2, claimant has the restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in the record that claimant suffers a severely restrictive physical or mental impairment. in multiple areas of his Claimant has reports of pain body; however, there are no corresponding clinic al findings that suppor t the reports of symptoms and limitations made by the claimant. There are no labor atory or x-ray findings listed in the file which support claimant's contention of disability. The clinical impression is that claimant is stable. There is no medical finding that claim ant has any muscle at rophy or trauma, abnormality or injury that is consistent with a deteriorating condition. In short, claimant has restricted himself from tasks associated with occupational func tioning based upon his reports of pain (symptoms) rather than medical findings. Reported symptoms are an insufficient basis upon which a finding that claimant has me t the evidentiary burden of proof can be made. This Admini strative Law Judge finds th at the medical record is insufficient to establish that claimant has a severely restrictive physical impairment.

Claimant a lleges the following disabling m ental impairment s: p ost trauma tic stress disorder, depression and anxiet y as well as schizophrenia and affective disorders and anxiety related disorders pursuant to listings 12.03, 12.04, and 12.06.

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrict ions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated wit h competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

There is insufficient objective medical/ps ychiatric e vidence in the record indicating claimant s uffers severe mental limitations . There is no ment al residual functional capacity assessment in the record. There is in sufficient evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was or iented to time, person and place during the hearing. Claimant was able to answer all of the questions at the hearing and was responsive to the questions. The evidentiar y record is insufficient to find that claimant suffers a severely restrictive mental impair ment. For these reasons, this Administrative Law Judge finds that claimant has failed to meet his burden of proof at Step 2. Claimant must be denied benefits at this step based upon his failure to meet the evidentiary burden.

If claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidence of claimant's condition does not give rise to a finding that he would meet a statutory listing in the code of federal regulations.

If claimant had not already be en denied at Step 2, this Administrative Law Judge would have to deny him again at Step 4 based upon hi s ability to perform his past relevant work. There is no evidence upon which this Admin istrative Law Judge could base a finding that claimant is unable to perform work in which he has engaged in, in the past. Therefore, if claimant had not already been denied at Step 2, he would be denied again at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not claimant has the residual functional capacity to perform some other less strenuous tasks than in his prior jobs.

At Step 5, the burden of proof shifts to the department to establish that claimant does not have residual functional capacity.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we class ify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more t han 10 pounds at a time and occasionally lifting or carrying articles lik e docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of

walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light wor k involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this categor y when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Claimant has submitted insufficient objecti ve medical evidence that he lacks the residual functional capacity to perform some other less strenuous tasks than in his prior employment or that he is physically unable to do light or sedentary tasks if demanded of him. Claimant's activities of daily living do not appear to be very limited and he should be able to perform light or sedentary work even with his impairments. Claimant has failed to pr ovide the necessary objective medical evidence to establish that he has a severe impairment or combination of impairments which prevent him from performing any level of work for a period of 12 mont hs. The claimant's testimony as to his limitations indicates that he should be able to perform light or sedentary work.

ychiatric evidence contained in There is insufficient objective medical/ps depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was able to answer all the guestions at the hearing and was responsive to the questions. Claimant was oriented to time, person and place during the hearing. Claimant's c omplaints of pain, while pr ofound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establis h that claimant has no residual functional capacity. Clai mant is dis qualified from receiving disability at Step 5 based upon the fact that he has not established by objective medical evidence that he cannot perform light or sedentary work even with his impairments. Under the Medical-Vocational guidelines, a younger individual (age 33), with a less than high school education and an unskilled work higher story who is limited to light work is not considered disabled.

The Federal Regulations at 20 CFR 404.1535 speak to the determination of whethe r Drug Addiction and Alcoholism (D AA) is material to a person's disability and when benefits will or will not be a pproved. The regulations require the disability analysis be completed prior to a determination of whether a person's drug and alcohol use is material. It is only when a person meets the disability criterion, as set forth in the regulations, that the issue of materiality becomes relevant. In such cases, the regulations require a sixth step to determine the materiality of DAA to a person's disability.

When the record contains ev idence of DAA, a determination must be made whether or not the per son would continue to be disabled if the individual stopped using drugs or

alcohol. The trier of fact must determi ne what, if any, of the physical or mental limitations would remain if the person were to stop the use of the drugs or alcohol and whether any of these remaining limitations would be disabling.

Claimant's testimony and the information contained in the file indicate that claimant has a history of drug and alcohol abuse. Applicable hearing is the Drug Abuse and Alcohol (DA&A) Legislation, Public La w 104-121, Section 105(b)(1), 110 STAT. 853, 42 USC 423(d)(2)(C), 1382(c)(a)(3)(J) Supplement Five 1999. The law indicates that individuals are not eligible and/or are not disabled where drug addiction or alcoholism is a contributing factor material to the determination of disability. After a careful review of the credible and substantial ev idence on the whole record, this Administrative Law Judg e finds that claimant does not meet the statutory disability definition under the authority of the DA&A Legis lation because his subs tance abuse is material to his alleged impairment and alleged disability.

It should be noted that claimant continues to smoke despite the fact that his doctor has told him to quit. Claimant is not in compliance with his treatment program.

If an individual fails to follow prescribed treatment which would be expected to restore their ability to engage in substantial activity without good cause there will not be a finding of disability.... 20 CFR 416.994(b)(4)(iv).

The department's Program Elig ibility Manual contains the following policy statements and instructions for casework ers regarding the State Disability Assistance program: to receive State Disability Assist ance, a person must be disabled, caring for a disable diperson or age 65 or older. BEM I, Item 261, p. 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability craiteria for State Disability Assistance benefits either

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was not eligible to receive Medical Assistance and/or State Disability Assistance.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusion sof law, decides that the department has appropriately established on the record that it was acting in compliance with department policy when it denied claimant's application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits. The claimant should be able to perform a wide range of light or sedentary work even with his impairments. The department and enthas established its case by a preponderance of the evidence.

Accordingly, the department's decision is AFFIRMED.
