IN THE MATTER OF:

Reg. No: 20118398 Issue No: 2009; 4031

Case No:

Hearing Date: February 10, 2011

Monroe County DHS

ADMINISTRATIVE LAW JUDGE: William A. Sundquist

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the claimant's request for a hearing. After due notice, a telephone hearing was held on February 10, 2011. The claimant appeared and testified

<u>ISSUE</u>

Was disability medically established?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds a material fact:

Medical reports (claimant's Exhibit A) submitted at the hearing delayed the Decision and Order below.

- Claimant is currently unemployed.
- (2) On April 26, 2010, the claimant ended his last job after a car accident.
- (3) Claimant's vocational factors are: age 27, 10th grade education, and past work experience as an unskilled fast food worker, semi-skilled building/construction worker, and skilled restaurant cook.

- (4) On August 4, 2010, the claimant applied for MA/SDA, was denied on October 13, 2010, per BEM260/261, and requested a hearing on November 19, 2010.
- (5) Claimant's disabling complaint is chronic low back pain.
- (6) Medical exam on states the claimant, regarding low back pain, has no gross bruising; that x-rays of the lumbar spine are within normal limits; that x-ray of the thoracic spine reveals subtle irregularity of the superior end plate of T-12 which maybe normal; that otherwise, he is normal; and stated a diagnosis of back pain status post motor vehicle accident (Medical Packet, page 11).
- (7) Medical exam on that examination is suggestive of mild left lumbosacral radiculopathy approximately in the left LS nerve root distribution; and that muscles tested in the claimant's bilateral lower extremities appear to be within normal limits (Medical Packet, pages 52 and 53).
- (8) Medical exam on kneeling, reaching, standing, lifting, pushing, stooping, climbing, and pulling; that he can continuously up to 2 hours or occasionally up to 6 hours sit, stand, walk, lift up to 10 pounds, squat, crawl, kneel, reach over shoulder, grasping, stair climbing, and never lift more than 25 pounds, pushing/pulling activities and climbing (Claimant Exhibit A, pages 2 and 3).
- (9) SHRT reported dated December 15, 2010, that claimant's impairments do not meet/equal a Social Security listing (Medical Packet, page 57).

CONCLUSIONS OF LAW

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The facts above are undisputed:

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

- 1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
- 2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
- Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
- 4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
- 5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, the evidence establishes that the claimant is not currently engaged in substantial gainful work. Therefore, disability is not denied at this step.

At Step 2, the objective medical evidence of record establishes that the claimant is significantly limited in performing basic work activities, as defined below, based on the *de minimus* standard, but not for the required duration stated below.

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

...[The impairment]...must have lasted or must be expected to last for a continuous period of at least 12 months. We call this the duration requirement. 20 CFR 416.909.

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

Basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include --

- Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, coworkers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Therefore, disability is denied at this step.

At Step 3, the objective medical evidence does not establish that the claimant's impairments meet/equal a Social Security listing.

At Step 4, the objective medical evidence does not establish the claimant's inability to do any of his past work, such as his fast food job. Therefore, disability is denied at this step.

At Step 5, the objective medical does not establish that the claimant is without a Residual Functional Capacity (RFC) for other work in the national economy.

...Your residual functional capacity is what you can still do despite limitations. If you have more than one impairment, we will consider all of your impairment(s) of which we are aware. We will consider your ability to meet certain demands of jobs, such as physical demands, mental demands, sensory requirements, and other functions, as described in paragraphs (b), (c) and (d) of this section. Residual functional capacity is an assessment based on all of the relevant evidence.... 20 CFR 416.945(a).

...To determine the physical exertion requirements of work in the national economy, we classify jobs as sedentary, light, medium, heavy, and very heavy. These terms have the same meaning as they have in the <u>Dictionary of Occupational Titles</u>, published by the Department of Labor.... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Claimant's disabling complaints above, that he has no RFC for any work is not supported by the objective medical evidence of record. His medical limitations fall within the definition of sedentary type work, as defined above. Therefore, the claimant would be able to perform, at least, sedentary work. At this level, considering the claimant's vocational profile (younger individual, age 27, 10th grade education, and past unskilled/semi-skilled work experience) he is not considered disabled under Vocational Rule 201.24. Therefore, disability is denied at Steps 2, 4, and 5.

The department's program eligibility manual contains following policy statements and instructions for caseworkers regarding the State Disability Assistance Program: to receive state disability assistance, a person must disabled, caring for a disabled person or age 65 or older. BEM Item 261, page 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is not able to work for a period exceeding 90 days, the claimant does not meet the disability criteria for State Disability Assistance Benefits either.

Therefore, the claimant has not established disability, as defined above, by the necessary competent, material, and substantial evidence on the whole record.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law decides that disability was not medically established.

Accordingly, MA/SDA denial is UPHELD.
