1) The Appellant is a r Medicaid beneficiary. (Appellant's Exhibit #1)

2) The Appellant alleges disability by way of paraplegia, wheelchair dependence and T-12 spinal cord injury. (Appellant's Exhibit #1)

3) The Appellant testified that he needs assistance with daily chores including bowel movements, transfers from chair to commode, bathing and meal preparation. He is unable to provide transportation for himself. (See Testimony and Appellant's Exhibit #1)

4) The physician (.) did not certify the Appellant for assistance with personal care, although he acknowledged the Appellant's paraplegia on DHS54A completed on . (See Department's Exhibit A, p. 5)

5) On [redacted] the ASW sent the Appellant an Advance Negative Action Notice (DHS1212) advising him that home help services (HHS) cannot be provided because the Medical Needs form DHS54A did not state that the Appellant a need for assistance. (Department's Exhibit A, pp. 2, 3)

6) The request for hearing on the instant appeal was received by SOAHR on [redacted].

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

COMPREHENSIVE ASSESSMENT

> The Adult Services Comprehensive Assessment (DHS-324) is the primary tool for determining need for services. The comprehensive assessment will be completed on all open cases, whether a home help payment will be made or not. ASCAP, the automated workload management system provides the format for the comprehensive assessment and all information will be entered on the computer program.
>
> Requirements for the comprehensive assessment include, but are not limited to:
>
> - A comprehensive assessment will be completed on all new cases.
> - A face-to-face contact is required with the customer in his/her place of residence.
> - An interview must be conducted with the caregiver, if applicable.
> - Observe a copy of the customer's social security card.
> - Observe a picture I.D. of the caregiver, if applicable.

- The assessment must be updated as often as necessary, but minimally at the six-month review and annual re-determination.

- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the agency record.

- Follow specialized rules of confidentiality when ILS cases have companion APS cases.

Adult Service Manual (ASM), §363, page 2 of 24, September 1, 2009.

Necessity For Service

The adult services worker is responsible for determining the necessity and level of need for HHS based on:

- Client choice.
- A complete comprehensive assessment and determination of the client's need for personal care services.
- Verification of the client's medical need by a Medicaid enrolled medical professional. The client is responsible for obtaining the medical certification of need. The Medicaid provider identification number must be entered on the form by the medical provider. The Medical Needs form must be signed and dated by one of the following medical professionals:

  •• Physician.
  •• Nurse practitioner.
  •• Occupational therapist.
  •• Physical therapist.

Exception: DCH will accept a DHS-54A completed by a VA physician or the VA medical form in lieu of the medical needs form.

The medical professional certifies that the client's need for service is related to an existing medical condition. The medical professional does not prescribe or authorize personal care services.

If the medical needs form has not been returned, the adult services worker should follow-up with the client and/or medical professional.

If the case is closed and reopened within 90 days with no changes in the client's condition, a new DHS-54A is not necessary.

Do **not** authorize HHS prior to the date of the medical professional signature on the DHS-54A. ASM *Supra* page 9 of 24.

***

The Department witness testified that he checked the Appellant's file and found that his physician had not certified him as a person in need of personal care. Without that proof he terminated services sending the Appellant appropriate notice and appeal rights information.

The Appellant testified that he needs help going to the rest room and transferring to the toilet. His chore provider said that she prepares his meals and does his laundry and that he needs assistance – as he is "unable to do it alone."

On review, the Appellant's appeal must fail because he had no relevant evidence demonstrating medical necessity at the time of his assessment or to be presented at hearing. Absent medical certification the ASW was correct to terminate the Appellant's HHS.

If the new data represents a change in condition for the Appellant – or if the doctor somehow erred - then the Appellant is free to reapply for HHS benefits without having his file closed so long as he does not exceed the 90-day time limit and he obtains the required medical certification.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that the Department properly terminated the Appellant's HHS for lack of a medical certification.

IT IS THEREFORE ORDERED that:

The Department's decision is AFFIRMED.
