ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

Reg. No: 201123280
Issue No: 2009
Case No: [REDACTED]
Hearing Date: June 2, 2011
Lapeer County DHS

ADMINISTRATIVE LAW JUDGE: William A. Sundquist

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the claimant's request for a hearing. After due notice, an in-person hearing was held on June 2, 2011. The claimant appeared and testified.

ISSUE

Was disability medically established?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

- (1) Claimant is currently unemployed.
- (2) In September 2010, the claimant was laid off from his last job and was ineligible for Unemployment Compensation Benefits because he had been working under the table for cash.
- (3) Claimant's vocational factors are: age 26, 12th grade education, and past skilled/semi-skilled work experience as a roofer, horse farm general laborer, car tires business laborer, and cutting of trees.
- (4) On October 14, 2010, the claimant applied for MA, was denied on December 14, 2010, per BEM 260, and requested a hearing February 25, 2011.

- (5) Claimant alleges disability due to acute facial abscess, cellulitis, lymphangitis, crooked spine, back pain, emotional impairment, learning disability, and attention deficit disorder.
- (6) Medical exam on [REDACTED], states the claimant was alert, oriented x3, and in no apparent distress; that his right cheek had a mass the size of half a golf ball; and that there was some erythema with scaly rash (Medical Packet, pages 15 and 16).
- (7) Medical exam on [REDACTED], states the claimant has some evidence of an abscess on his cheek/mandibular area; that he has gross dental caries (Medical Packet, page 11).
- (8) Medical exam on [REDACTED], states the claimant is alert and in no acute distress; that he has right facial subcutaneous swelling, abscess like with loculation (Medical Packet, page 12).
- (9) Medical exam on [REDACTED], states the claimant was started on intravenous antibiotics for his facial abscess; that the abscess opened up spontaneously and drained; that he did fairly well and had a culture by PCR which was negative for methicillin-resistant Staphylococcus Aureus; and that he was discharged home in stable condition (Medical Packet, page 14).
- (10) SHRT report dated March 28, 2011, states the claimant's impairments do not meet/equal a Social Security listing (Medical Packet, page 19).

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The facts above are undisputed:

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, the evidence establishes that the claimant is not currently engaged in substantial gainful activity. Therefore, disability is not denied at this step.

At Step 2, the objective medical evidence of record establishes that the claimant is significantly limited in performing basic physical work activities, but not mentally, as defined below, and not for the required physical duration stated below.

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

...[The impairment]...must have lasted or must be expected to last for a continuous period of at least 12 months. We call this the duration requirement. 20 CFR 416.909.

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

Basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting.
20 CFR 416.921(b).

Therefore, disability is denied at this step.

At Step 3, the objective medical evidence does not establish that the claimant's impairments meet/equal a Social Security listing.

At Step 4, the objective medical evidence does not establish the claimant's inability to do any of his past work, despite his physical severe impairment for the required duration of one continuous year. He testified that he can lift/carry up to 25 pounds; and that he can sit or stand for 4 hours at a time before his pain bothers him. Therefore, disability is denied at this step.

At Step 5 the objective medical evidence does not establish that the claimant is without a Residual Functional Capacity (RFC) for other work in the national economy based on the one year duration requirement.

...Your residual functional capacity is what you can still do despite limitations. If you have more than one impairment, we will consider all of your impairment(s) of which we are

aware. We will consider your ability to meet certain demands of jobs, such as physical demands, mental demands, sensory requirements, and other functions, as described in paragraphs (b), (c) and (d) of this section. Residual functional capacity is an assessment based on all of the relevant evidence.... 20 CFR 416.945(a).

...To determine the physical exertion requirements of work in the national economy, we classify jobs as sedentary, light, medium, heavy, and very heavy. These terms have the same meaning as they have in the Dictionary of Occupational Titles, published by the Department of Labor.... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Claimant's disabling complaints above that he has no RFC for any work for the required duration of one continuous year is not supported by the objective medical evidence of record. His medical limitations fall within the definition of sedentary work, as defined above. Therefore, the claimant would be able to perform, at least, sedentary work. At this level, considering the claimant's vocational profile (younger individual, age 26, 12th grade education, and past unskilled/skilled work experience) he is not considered disabled under Vocational Rules 201.27 and 201.28. Therefore, disability is denied at Steps 2, 4, and 5.

Therefore, the claimant has not established disability, as defined above, by the necessary competent, material, and substantial evidence on the whole record.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law decides that disability was not medically established.

Accordingly, MA denial is UPHELD.
