

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
FOR THE DEPARTMENT OF COMMUNITY HEALTH**

P.O. Box 30763, Lansing, MI 48909
(877) 833-0870; Fax: (517) 334-9505

IN THE MATTER OF:

Docket No. 2012-15936 HHS

██████████

██████████

Appellant

_____ /

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Appellant's request for a hearing.

After due notice, a hearing was held on ██████████. ██████████, the Appellant, appeared on her own behalf. ██████████ son, appeared as a witness for the Appellant. ██████████, Appeals Review Officer, represented the Department. ██████████ Adult Services Worker ("ASW"), appeared as a witness for the Department.

ISSUE

Did the Department properly terminate the Appellant's Home Help Services ("HHS") payments?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. The Appellant is a Medicaid beneficiary who has been authorized for Home Help Services.
2. The Appellant has been diagnosed with coronary artery disease, hypothyroidism, hyperlipidemia, osteoarthritis, peripheral neuropathy, herniated rectum area, and cellulitis. (Exhibit 1, page 14)
3. The Appellant has been receiving HHS for assistance with bathing, grooming, dressing, transferring, mobility, housework, laundry, shopping and meal preparation. (Exhibit 1, page 11)
4. On ██████████, an ASW went to the Appellant's home and completed an in home assessment with the Appellant. The ASW did not

discuss each of the Activities of Daily Living (“ADLs”) and Instrumental Activities of Daily Living (“IADLs”) with the Appellant. The ASW briefly went over the activities authorized on the Time and Task, then discussed various other things during her ██████ minute visit. (Exhibit 1, page 9 and ASW Testimony)

5. Based on the information available at the time of the assessment, the ASW concluded that the Appellant did not have a medical need for hands on assistance with any ADL. (ASW Testimony)
6. On ████████████████████, the Department sent the Appellant an Advance Action Notice which informed her that effective ████████████████████, her HHS case would be terminated based on the new policy which requires the need for hands on services with at least one ADL. (Exhibit 1, pages 5-8)
7. The Appellant requires some hands on assistance with bathing and toileting. (Appellant and Son Testimony)
8. On ████████████████████, the Michigan Administrative Hearing System received the Appellant’s request for hearing. (Exhibit 1, page 4)

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM 120, 11-1-2011), pages 2-5 of 6 addresses the adult services comprehensive assessment:

INTRODUCTION

The DHS-324, Adult Services Comprehensive Assessment is the primary tool for determining need for services. The comprehensive assessment must be completed on **all open independent living services cases**. ASCAP, the automated workload management system, provides the

format for the comprehensive assessment and all information will be entered on the computer program.

Requirements

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six-month review and annual redetermination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.
 - Use the DHS-26, Authorization to Release Information, when requesting client information from another agency.
 - Use the DHS-1555, Authorization to Release Protected Health Information, if requesting additional medical documentation; see RFF 1555. The form is primarily used for APS cases.
- Follow rules of confidentiality when home help cases have companion APS cases, see SRM 131 Confidentiality.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the HHS payment.

Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal Preparation and Cleanup.
- Shopping.
- Laundry.
- Light Housework.

Functional Scale

ADLs and IADLs are assessed according to the following five-point scale:

1. Independent
Performs the activity safely with no human assistance.
2. Verbal Assistance
Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some Human Assistance
Performs the activity with some direct physical assistance and/or assistive technology.
4. Much Human Assistance
Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent
Does not perform the activity even with human assistance and/or assistive technology.

HHS payments may only be authorized for needs assessed at the 3 level or greater.

An individual must be assessed with at least one activity of daily living in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADLs if the assessment determined a need at a level 3 or greater.

See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

Time and Task

The specialist will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a **guide**. The RTS can be found in ASCAP under the Payment module, Time and Task screen. When hours exceed the RTS rationale **must** be provided.

An assessment of need, at a ranking of 3 or higher, does not automatically guarantee the maximum allotted time allowed by the reasonable time schedule (RTS). **The specialist must assess each task according to the actual time required for it's completion.**

Example: A client needs assistance with cutting up food. The specialist would only pay for the time required to cur the food and not the full amount of time allotted under the RTS for eating.

IADL Maximum Allowable Hours

There are monthly maximum hour limits on all IADLs except medication. The limits are as follows:

- Five hours/month for shopping
- Six hours/month for light housework
- Seven hours/month for laundry
- 25 hours/month for meal preparation

Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hour for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

Note: This does not include situations where others live in adjoining apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

Example: Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

*Adult Services Manual (ASM) 120, 11-1-2011,
Pages 1-4 of 6*

The Appellant had been authorized for a total of ██████████ per month for assistance with bathing, grooming, dressing, transferring, mobility, housework, laundry, shopping and meal preparation with a total monthly care cost of ██████████. (Exhibit 1, page 11)

On ██████████, the ASW completed a home visit to assess the Appellant's HHS case. The ASW did not discuss each of the ADLs and IADLs with the Appellant. Rather, the ASW briefly went over the activities authorized on the Time and Task, then discussed various other things with the Appellant during her ██████████ minute visit. (Exhibit 1, page 9 and ASW Testimony) Based on the information available at the time of the assessment, the ASW concluded that the Appellant did not have a medical need for hands on assistance with any ADL. (ASW Testimony)

However, the ASW's testimony supports the Appellant's explanation that she did not have time to go into detail about her functional abilities and needs for assistance with ADLs during the home visit. (Appellant Testimony) The Appellant and her son provided credible testimony that the Appellant does require hands on assistance with some ADLs. Specifically, the Appellant needs hands on assistance with bathing for washing her back, feet, and hair, and with toileting to empty the bed side commode. (Appellant and Son Testimony) Accordingly, the proposed termination of the Appellant's HHS case because she did not require hands on assistance with at least one ADL can not be upheld. The Appellant should be ranked as a level 3 for bathing and toileting. A new assessment is needed to determine the appropriate ongoing HHS authorization for the Appellant.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that the Department improperly determined that the Appellant is ineligible for and terminated the Appellant's HHS case.

IT IS THEREFORE ORDERED THAT:

The Department's decision is REVERSED. The Appellant's HHS case shall be reinstated. A new assessment is needed to determine the appropriate ongoing HHS authorization for the Appellant.

Colleen Lack
Administrative Law Judge
for Olga Dazzo, Director
Michigan Department of Community Health

***** NOTICE *****

The Michigan Administrative Hearing System may order a rehearing on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. The Michigan Administrative Hearing System will not order a rehearing on the Department's motion where the final decision or rehearing cannot be implemented within 90 days of the filing of the original request. The Appellant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt of the rehearing decision.
