STATE OF MICHIGAN

MICHIGAN ADMINISTRATIVE HEARING SYSTEM ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

Reg No.: 2012-27316

Issue No.: 2009

Case No.:

Hearing Date: March 21, 2012 Macomb County DHS (36)

ADMINISTRATIVE LAW JUDGE: Colleen M. Mamelka

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the Claimant 's request for a hearing. After due notice, a telephone hearing was conducted from Detroit, Michigan on Monday, March 19, 2012. The Claim ant appeared and test ified.

The Claim and appeared and test ified.

Department of Human Services ("Department").

ISSUE

Whether the Department proper ly determined that the Claimant was not disabled for purposes of the Medical Assistance ("MA-P") benefit program?

FINDINGS OF FACT

The Administrative Law Judge, based on t he competent, material, and substantial evidence on the whole record, finds as material fact:

- The Claimant submitt ed an application for public assistance seeking MA-P benefits, retroactive to November 2011, on December 2, 2011.
- 2. On January 5, 2012, the Medical Revi ew Team ("MRT") found the Claimant not disabled. (Exhibit 3)
- 3. On January 10, 2012, the Department notified the Claimant of the MRT determination.
- 4. On January 17, 2012, the Department received the Claimant's timely written request for hearing.

- 5. On February 27, 2012, the State H earing Review Team ("SHRT") found the Claimant not disabled. (Exhibit 4)
- 6. The Claimant alleged physical disabling impairments due to myocardial infarction and residual complications from a prior stroke.
- 7. The Claimant has not alleged any mental disabling impairment(s).
- 8. At the time of hearing, the Claimant was years old with an birth date; was 5'10" in height; and weighed 190 pounds.
- 9. The Claimant has a limited education with an employ ment history as a banque t cook and in providing security services in abandoned HUD homes.

CONCLUSIONS OF LAW

The Medical Assistance program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department of Human Services, formerly known as the Family Independence Agency, pursuant to MCL 400.10 *et seq.* and MCL 400.105. Department policies are found in the Bridge's Administrative Manual ("BAM"), the Bridges Elig ibility Manual ("BEM"), and the Bridges Reference Tables ("RFT").

Disability is defined as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental im pairment which can be expected to result in death or which has lasted or can be expect ed to last for a continuous period of not less than 12 months. 20 CFR 416.905(a). The person claiming a physical or mental disability has the burden to esta blish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinica I/laboratory findings, diagnosis/prescri bed treatment, prognosis for recovery and/or medical assessment of ability to do work-related ac tivities o r ability to reason and make appropriate mental adjustments, if a mental disability is alleged. 20 CRF 413.913. An individual's subjective pain complaints are not, in and of themselves, sufficient to establish disab ility. 20 CF R 416.908; 2 0 CFR 4 16.929(a). Similarly, conclusor y statements by a physician or mental health professional that an individual is disabled or blind, absent supporting medical evidence, is insufficient to establish disability. 20 CFR 416.927.

When determining disability, the federal regulations require several factors to be considered including: (1) the location/duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicant has takes to relieve pain; (3) any treatment other than pain medication that the applicant has

received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determine the ext ent of his or her function on all limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2).

In order to determine whether or not an individual is disabled, federal regulations require a five-step sequential evaluation process be utilized. 20 CFR 416.920(a)(1). The five-step analysis requires the trier of fact to cons ider an individual's current work activit y; the severity of the impairment(s) both in duration and whether it meets or equals a listed impairment in Appendix 1; residual functional capacity to det ermine whether an individual can perform past relev ant work; and residual functional capacity along with vocational factors (i .e. age, education, and work experienc e) to determine if an individual can adjust to other work. 20 CFR 416.920(a)(4); 20 CFR 416.945.

If an individual is found disabled, or not disabled, at any step, a determination or decision is made with no need evaluate subsequent steps. 20 CFR 416.920(a)(4). If a determination cannot be made that an individual is disable ed, or not disabled, at particular step, the next step is required. 20 CFR 416.920(a)(4). If an impairment does not meet or equal a listed impairment, an indi vidual's residual functional capacity is assessed before moving from step three to step four. 20 CFR 416.920(a)(4); 20 CFR 416.945. Residual f unctional capacity is the most an indiv idual can do d espite the limitations based on all relevant evidence. 20 CF R 945(a)(1). An individual's residua I functional capacity assessment is evaluat ed at both steps four and five. 20 CF 416.920(a)(4). In determining disability, an individual's functional capacity to perform basic work activities is evaluated and if found that the individ ual has the ability to perform basic work activities without significant limitation, disability will not be found. 20 CFR 416.994(b)(1)(iv). In general, the i ndividual has the responsibility to prove disability. 20 CFR 4 16.912(a). An impair ment or combi nation of impairments is not severe if it does not signific antly limit an individual's physical or mental ability to do basic work activities. 20 CFR 416.921(a). The in dividual has the responsibility to provide evidence of prior work experience; efforts to work; and any other factor showing how the impairment affects the ability to work. 20 CFR 416.912(c)(3)(5)(6).

After the degree of functional limitation is determined, the severity of the mental impairment is determined. 20 CFR 416.920a(d). If severe, a determination of whether the impairment meets or is the equivalent of a listed mental disorder is made. 20 CF R 416.920a(d)(2). If the severe mental im pairment does not meet (or equal) a listed impairment, an individual's residual functional capacity is assessed. 20 CF R 416.920a(d)(3).

As outlined above, the first step looks at the i ndividual's current work activity. In the record presented, the Claiman t is not involved in substantial gainful activity and, therefore, is not ineligible for disability benefits under Step 1.

The severity of the Claimant 's alleged impairment(s) is considered under St ep 2. The Claimant bears the burden to pr esent sufficient objective medical evidenc et o substantiate the alleged disa bling impairments. In order to be considered disabled for MA purpos es, the impairment must be se vere. 20 CFR 916. 920(a)(4)(ii); 20 CFR 916.920(b). An impairment, or combination of impairments, is severe if it signific antly limits an in dividual's physical or mental ability to do basic work activities regardless of age, education and work experience. 20 CFR 916.920(a)(4)(ii); 20 CFR 916.920(c). Basic work activities means the abilities and aptitudes necessary to do most jobs. 20 CFR 916.921(b). Examples include:

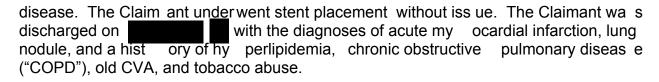

- 1. Physical functions such as wa lking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- 2. Capacities for seeing, hearing, and speaking;
- 3. Understanding, carrying out, and remembering simple instructions;
- 4. Use of judgment;
- 5. Responding appropriately to supervision, co-workers and usual work situations; and
- 6. Dealing with changes in a routine work setting.

ld.

The second step allows for dismissal of a disability claim obviously lacking in medical merit. Higgs v Bowen, 880 F2d 860, 862 (CA 6, 1988). The severity requirement may still be employed as an admin istrative convenience to screen out claims that are totally groundless solely from a medical standpoint. *Id.* at 863 citing Farris v Sec of Health and Human Services, 773 F2d 85, 90 n.1 (CA 6, 1985). An impairment qualifies as non-severe only if, regardless of a claimant's age, education, or work experience, the impairment would not affect the claimant's ability to work. Salmi v Sec of Health and Human Services, 774 F2d 685, 692 (CA 6, 1985).

In the present case, the Claima nt alleg es disability d ue to myocardial infa rction and residual complications from a prior stroke.

On the complaints of chest pain and shortness of breath. The Claimant was found to have acute myocardial infarction resulting in a cardiac catheterization which found multi-vessel

On the Claimant presented to the hos pital with complaints of bloody nose. X-rays of the the horacic spine revealed some spondylotic changes. The Claimant was treated and discharged with the diagnoses of back pain and epistaxis.

On the CI aimant was admitted to the hos pital with complaints of shortness of breath and chest pain. An EK G was normal. An echocardiogram showed borderline dilation of the left ventricle; moderate asymmetric left ventricular hypertrophy left ventricle ejection fraction of 40 to 45 percent; severe hypokinetic basal to mid inferior wall; severe hypokinetic basal to distal inferolateral wall; and borderline aortic root dilation. The Claimant was discharged the following the day with the diagnoses of acute bronchitis, chest pain (stable), hyper tension (stable), dyslipidemia (stable), coronary artery disease status post card iac catheterization with stent placemen t (stable), and history of stroke (stable).

On the Claimant atten ded a Psychiatric/Psychological Evaluation. The diagnosis was his tory of alcohol dependence. Depressive dis order was not ruled out. The Global Assessment Functioning ("GAF") was 59 with a fair prognosis.

As previously noted, the Claim ant bears the burden to present sufficient objective medical evidence to substantiate the alleged disabling impairment(s). As summarized above, the Claimant has presented some medical evidence establishing that he does have some physical limitations on his ability to perform basic work activities. The medical evidence has established that the Claimant has an impairment, or combination thereof, that has more than a deminimus effect on the Claimant's basic work activities. Ultimately, it is found that the Claimant is not disqualified from receipt of MA-P benefits under Step 2.

In the third step of the seque ntial an alysis of a disability claim, the trier of fact must determine if the Claimant's impairment, or co mbination of impairments, is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. The Claimant has alleged physic al disabling impairments due to my ocardial infarction and residual complic ations from a prior stroke.

Listing 4.00 (cardiov ascular sy stem), Li sting 11.00 (neurologic al), and Listing 12.00 (mental disorders) were considered in light of the objective evidence. There were no objective findings showing ongoing and continuing comp lications from a cardia c perspective nor do the records demonstrate severe residual complications as a result of the Claimant's previous stroke. The evidence show that the Claimant is progressing

well without significant complications. The medical records do not contain any physic al and/or mental restrictions. Ultimately, based on the evidence, the Claimant cannot be found disabled, or not disabled, at Step 3.

Before considering the fourth step in the sequential analysis, a determination of the individual's residual functional capacity ("R FC") is made. 20 CFR 416.945. An individual's RFC is the most he/she canstill do on a sustained bas is despite the limitations from the impairment(s). *Id.* The total limiting effects of all the impairments, to include those that are not severe, are considered. 20 CFR 416.945(e).

To determine the physical demands (exertional requirements) of work in the national economy, jobs are c lassified as sedentary, light, medium, heavy, and very heavy. 2 0 CFR 416.967. Sedentary work involves lifting of no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. 20 CFR 416.967(a). Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties . Id. Jobs equired occasionally and other sedentary are sedentary if walking and standing are r criteria are met. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying objects weighing up to 10 pounds. 20 CFR 416.967(b). Even though weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it invo Ives sit ting most of the time with some pushing and pulling of arm or leg controls. Id. To be considered capable of performing a full or wide range of light work, an individual must have the ability to do substantially all of thes e activities. Id. A n individual capab le of light work is also capable of sedentary work, unless there are additionally limiting factors such as loss of fine dexterity or inability to sit for long periods of time. *Id.* Medium work involves lifting no more than 50 pounds at a time with frequent li fting or carrying of objects weighing up to 25 pounds. 20 CFR 416.967(c). An individual capable of performing medium work is also capable of light and sedentary work. *Id.* Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of object is weighing up to 50 pounds. 20 CFR 416.967(d). A n individual capable of heavy work is also c apable of medium, light, and sedentary work. *Id.* Finally, very heavy work involves lifting objects weighing more than 100 pounds at a time with frequent lifting or carrying objects weighing 50 pounds or more. 20 CFR 416.967(e). An individual capable of very heavy work is able to perform work under all categories. *Id.*

Limitations or restrictions which affect the ability to meet the demands of jobs other than strength demands (exertional requirements, i.e. sitting, standing, walk ing, lifting, carrying, pushing, or pulling) are consider ed nonexertional. 20 CFR 416.969a(a). In considering whether an individual can perform past relevant work, a comparis on of the individual's residual functional c apacity with the demands of past relevant work. *Id.* If an individual can no longer do past relevant work the same residual functional capacity assessment along with an individual's a ge, education, and work experience is

considered to determine whether an individual can adjust to other work which exists in the national economy. *Id.* Examples of non-exertional limitations or restrictions include difficulty to function due to nervousness. anxiousness, or depression; difficulty maintaining attention or concentration; difficulty understanding or remembering detailed instructions; difficulty in seeing or hearing; difficulty tolerating so me physical feature(s) of certain work settings (i.e. ca n't tolerate dust or fumes); or di fficulty performing the manipulative or postur al functions of some work such as reaching, handling, stooping, climbing, crawling, or crouching. 20 CFR 4 16.969a(c)(1)(i) – (vi). If the imp airment(s) and related symptoms, such as pain, only affect the ability to perform the non-exertional aspects of work-related activities, the rules in Appendix 2 do not direct factual conclusions of disabled or not disabled. 20 CFR 416.969a(c)(2). The determination of whether disability exists is bas ed upon the principles in the appropriate sections of the regulations, giving consideration to the rules fo r specific case situat ions in Appendix 2. ld.

In this case, the Claimant alleged disability based on myocardial infarction and residual complications from a prior stroke. The Claim ant testified that he is able to walk shor t distances; grip/grasp with some difficultie spicking up/holding small objects; sit for 2 hours; lift/carry 15 pounds; stand less than 2 hours; and is able to bend and/or squat. As previously noted, the objective medical findings do not address any physical and/or mental limitations. After review of the entire record to include the Claimant's testimony, it is found that the Claimant maintains the residual functional capacity to perform unskilled, limited, light work as defined by 20 CFR 416.967(b). Li mitations being the alternation between sitting and standing at will.

The fourth step in analyzing a dis ability claim requires an assessment of the Claimant's residual f unctional capacity ("RFC") and pas t relevant employment. 20 CF R 416.920(a)(4)(iv). An individual is not disabled if he/she can perform past relevant work. *Id.*; 20 CFR 416.960(b)(3). Past relevant work is work that has been performed within the past 15 years that was a substantial gainful activity and that lasted long enough for the individual to learn the position. 20 CF R 416.960(b)(1). Vocational fact ors of age, education, and work experience, and whether the past relevant employment exists in significant numbers in the national economy is not considered. 20 CFR 416.960(b)(3).

The Claimant's prior work history consists of work as a banquet cook and in providing security service in abandon HUD homes . Each position req uired a great deal of standing. In consideration of the Claimant's testimony and the Occupational Code, the Claimant's prior work as a banquet cook is classified as semi-skilled medium to heavy work while his security work is considered unskilled light to medium work. If the impairment or combination of impairments does not limit physical or mental ability to do basic work activities, it is not as evere impairment(s) and disability does not exist. 20 CFR 416.920. In light of the entire record and the Claimant's RFC (see above), it is found that the Claimant is unable to perform past relevant work.

In Step 5, an assessment of the individua I's residual functional capace ity and age, education, and work experience is consider ed to determine whet her an adjustment to other work can be made. 20 CFR 416.920(4)(v). At the time of hearing, the Claimant years old thus consider ed to be closely approaching advanced age for MA-P purposes. The Claimant has a limited education. Disability is found if an individual is unable to adjust to other work. *Id.* At this point in the analysis, the burden shifts from proof that the Claimant has the residu al the Claimant to the Department to present capacity to substantial gainfu I employment. 20 CFR 416.960(2); Richardson v Sec of Health and Human Services, 735 F2d 962, 964 (CA 6, 1984). While a vocational expert is not required, a finding supported by subs tantial evidence that the indiv idual has the vocational qualifications to perform specif ic jobs is needed to meet the burde n. O'Banner v Sec of Health and Human Services , 587 F2d 321, 323 (CA 6, 1978). Medical-Vocational guidelines found at 20 CFR Subpart P, Appendix II, may be used to satisfy the burden of proving that the individual can perform specific jobs in the nation al economy. Heckler v Campbell, 461 US 458, 467 (1983); Kirk v Secretary, 667 F2d 524, 529 (CA 6, 1981) cert den 461 US 957 (1983).

In this case, the objective findings reveal that the Claimant suff ers from myocardial infarction status post stent pl acement and residual complications from a prior stroke. The Claimant experienced sever all severe symptoms prior to his surgery but has since progressed well. After review of the entire record, an din consider ation of the Claimant's age, education, work experience, and RFC, and using the Medical-Vocational Guidelines [20 CFR 404, Subpar t P, Appendix II] as a guide, specifically Rule 202.10 and 202.11, it is found that the Claimant is not disabled for purposes of the MA-P program at Step 5.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law finds the Claimant not disabled for purposes of the MA-P benefit program.

Accordingly, It is ORDERED:

The Department's determination is AFFIRMED.

Colleen M. Mamuka

Colleen M. Mamelka

Administrative Law Judge

For Maura Corrigan, Director

Department of Human Services

Date Signed: March 22, 2012 Date Mailed: March 22, 2012 **NOTICE**: Michigan Administrative Hearing Syst em (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a par ty within 30 days of the mailing date of this Dec ision and Order. MAHS will not order a rehearing or reconsideration on the Department's mo tion where the final decis ion cannot be implemented within 90 days of the filing of the original request. (60 days for FAP cases)

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a ti mely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing <u>MAY</u> be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:
 - misapplication of manual policy or law in the hearing decision,
 - typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
 - the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at Michigan Administrative Hearings
