STATE OF MICHIGAN

MICHIGAN ADMINISTRATIVE HEARING SYSTEM ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

Reg No.: 2012-2814

Issue No.: 2009

Case No.:

Hearing Date: February 15, 2012

Wayne County DHS (82)

ADMINISTRATIVE LAW JUDGE: Colleen M. Mamelka

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400. 9 and MCL 400.37 upon the Claimant's request for a hearing. After due notice, a hearing was held in Detroit, Mich igan on Wednesday, February 15, 2012. The Claimant appeared and testified. The Cl aimant was represented by appeared on behalf of the Department of

Human Services ("Department").

<u>ISSUE</u>

Whether the Department proper ly determined that the Claimant was not disabled for purposes of the Medical Assistance ("MA-P") benefit program?

FINDINGS OF FACT

The Administrative Law Judge, based on t he competent, material, and substantial evidence on the whole record, finds as material fact:

- The Claimant submitted an application for public assistance seeking MA-P benefits, retroactive to March 2011, on June 8, 2011.
- 2. On July 14, 2011, the Medical Review Team ("MRT") found the Claimant not disabled. (Exhibit 1, pp. 1, 2)
- 3. The Department notified the Claimant of the MRT determination.
- 4. On October 3, 2011, the Department received the Cla imant's timely written request for hearing.

- 5. On December 5, 2011, the State Hearing Review Team ("SHRT") found the Claimant not disabled. (Exhibit 3)
- 6. The Claimant alleged physical disabling impairments due do leg pain, myocardial infarction status post stent placements, and headaches.
- 7. The Claimant has not alleged any mental disabling impairment(s).
- 8. At the time of hearing, the Claimant was birth date; was 5'10" in height; and weighed approximately 230 pounds.
- 9. The Claim ant is a high school graduate with some vocational training and an employment history in a library, as a file clerk, and transaction coordinator.
- 10. The Claimant's impairments have lasted, or are expected to last, continuously for a period of 12 months or longer.

CONCLUSIONS OF LAW

The Medical Assistance program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department of Human Services, formerly known as the Family Independenc e Agency, pursuant to MCL 400.10 et seq. and MCL 400.105. Department policies are found in the Bridge's Administrative Manual ("BAM"), the Bridges Eligib ility Manual ("BEM"), and the Bridges Reference Tables ("RFT").

Disability is defined as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental im pairment which can be expected to result in death or which has lasted or can be expect ed to last for a continuous period of not less than 12 months. 20 CFR 416.905(a). The person claiming a physical or mental disability has the burden to esta blish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinica l/laboratory findings, diagnosis/prescri bed treatment, prognosis for recovery and/or medical assessment of ability to do work-related ac tivities o r ability to reason and make appropriate mental adjustments, if a mental disability is alleged. 20 CRF 413.913. An individual's subjective pain com plaints ar e not, in and of themselves, sufficient to establish disab ility. 20 CF R 416.908; 2 0 CFR 4 16.929(a). Similarly, conclusor v statements by a physician or mental health professional that an individual is disabled or blind, absent supporting medical evidence, is insufficient to establish disability. 20 CFR 416.927.

When determining disability, the federal regulations require several factors to be considered including: (1) the location/duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicant takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determine the extent of his or her functional limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2).

In order to determine whether or not an individual is disabled, federal regulations require a five-step sequential evaluation process be utilized. 20 CFR 416.920(a)(1). The five-step analysis requires the trier of fact to cons ider an individual's current work activit y; the severity of the impairment(s) both in duration and whether it meets or equals a listed impairment in Appendix 1; residual functional capacity to det ermine whether an individual can perform past relev ant work; and residual functional capacity along with vocational factors (i .e. age, education, and work experienc e) to determine if an individual can adjust to other work. 20 CFR 416.920(a)(4); 20 CFR 416.945.

If an individual is found disabled, or not disabled, at any step, a determination or decision is made with no need evaluate subsequent steps. 20 CFR 416.920(a)(4). If a determination cannot be made that an individual is disabled, or not disabled, at particular step, the next step is required. 20 CFR 416.920(a)(4). If an impairment does not meet or equal a listed impairment, an indi vidual's residual functional capacity is assessed before moving from step three to step four. 20 CFR 416.920(a)(4); 20 CFR 416.945. Residual f unctional capacity is the most an indiv idual can do d espite the limitations based on all relevant evidence. 20 CF R 945(a)(1). An individual's residua l functional capacity assessment is evaluat ed at both steps four and five. 20 CF 416.920(a)(4). In determining disability, an individual's functional capacity to perform basic work activities is evaluated and if found that the individ ual h as the ability to perform basic work activities without significant limitation, disability will not be found. 20 ndividual has the responsibility to prove CFR 416.994(b)(1)(iv). In general, the i disability. 20 CFR 4 16.912(a). An impair ment or combi nation of impairments is not severe if it does not signific antly limit an individual's physical or mental ability to do basic work activities. 20 CFR 416.921(a). The in dividual has the responsibility to provide evidence of prior work experience; efforts to work; and any other factor showing how the impairment affects the ability to work. 20 CFR 416.912(c)(3)(5)(6).

As outlined above, the first step looks at the i ndividual's current work activity. In the record presented, the Claimant is workin g part-time approximately 18 hours a week earning \$7.40 an hour. For 2012, the Social Security Administration has determined the gross income level for substantial gainful activity is \$1,010.00. In light of the foregoing, it is found that the Claimant is not involved in substantial gainful activity and, therefore, is not ineligible for disability benefits under Step 1.

The severity of the Claimant's alleged impa irment(s) is considered under St ep 2. The Claimant bears the burden to present sufficient objective medical evidence to substantiate the alleged disabling impairments. In order to be considered disabled for MA purpos es, the impairment must be seven re. 20 CFR 916. 920(a)(4)(ii); 20 CFR 916.920(b). An impairment, or combination of impairments, is severe if it significantly limits an individual's physical or mental ability to do basic work activities regardless of age, education and work experience. 20 CFR 916.920(a)(4)(ii); 20 CFR 916.920(c). Basic work activities means the abilities and aptitudes necessary to do most jobs. 20 CFR 916.921(b). Examples include:

- 1. Physical functions such as wa lking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- 2. Capacities for seeing, hearing, and speaking;
- 3. Understanding, carrying out, and remembering simple instructions;
- 4. Use of judgment;
- 5. Responding appropriately to supervision, co-workers and usual work situations; and
- 6. Dealing with changes in a routine work setting.

ld.

The second step allows for dismissal of a disability claim obviously lacking in medical merit. Higgs v Bowen, 880 F2d 860, 862 (CA 6, 1988). The severity requirement may still be employed as an admin istrative convenience to screen out claims that are totally groundless solely from a medical standpoint. *Id.* at 863 citing Farris v Sec of Health and Human Services, 773 F2d 85, 90 n.1 (CA 6, 1985). An impairment qualifies as non-severe only if, regardless of a claimant's age, education, or work experience, the impairment would not affect the claimant's ability to work. Salmi v Sec of Health and Human Services, 774 F2d 685, 692 (CA 6, 1985).

In the present case, the Claimant alleges disability due to leg pain, myocardial infarction status post stent placements, and headaches.

On the Claimant was admitted to the hospital and underwent emergent catheterization requiring vent ricular fibrillation. The left anterior descending g coronary

artery was occluded. A rep eat angiography reveale d evidence of 80% st enosis just distal to the stent which may have been secondary to dissection within the stent. The diagnoses were acute anteroseptal myocardial infarction; evidence of subtotal occlusion of the left anterior descending with a thrombotic lesion resulting in decreased flow status post successful thrombectomy and double stenting; and severe left ventricular systolic dysfunction. The disc harge summary was not submitted so it is unclear how long the Claimant remained in the hospital.

On the Claimant's ECG was abnormal showing possible left atrial enlargement and sinus rhythm with sinus arrhythmia.

On a Medical Examination Report was completed on behalf of the Claimant. The current diagnoses were core onary artery disease status post stent placements.

On or about the Claimant's treating cardiologist completed a

Medical Examination Report on behalf of the Claimant. The current diagnoses were coronary artery disease, arteriosclerotic heart disease, hyperlipidemia, fatigue, and arm pain. The physical examination noted dyspnea. The Claimant was limited to the occasional lifting/carrying of less than 10 pounds and found unable to stand, walk, or sit for any significant amount of time. The Claimant was able to per form simple grasping, reaching, and pushing/pulling as well as operate feet/legs controls.

On the Claimant attended a consultative evaluation. The physical examination was unremarkable. The ass essment was cor onary artery dis ease with a blocked left anterior descending artery with stent as well as congestive heart failure based on the March ejection fraction.

On Exercise a Heart Classification was completed on behalf of the Claimant. The Functional Capacity was Class III, meaning marked limitations in physical activity with less than ordinary activity resulting in fatigue, palpitation, dyspnea, or anginal pain. The Therapeutic Classification was a Class D which means ordinary physical activity should be markedly restricted.

As previously noted, the Claim ant bears the burden to present sufficient objective medical evidence to substantiate the alleged disabling impairment(s). As summarized above, the Claimant has present ed some medical evidence establishing that she does have some physical limitations on her ability to perform basic work activities. The medical evidence has established that the Claimant has an impairment, or combination thereof, that has more than a *de minimus* effect on the Claimant's basic work activities. Further, the impairments have lasted continuous ly for twelve months; therefore, the Claimant is not disqualified from receipt of MA-P benefits under Step 2.

In the third step of the seque ntial an alysis of a disability claim, the trier of fact must determine if the Claimant's impairment, or co mbination of impairm ents, is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. The Claimant has alleged physic al disabling impairments due to leg pain, myoc ardial infarction status post stent placements and ventricular fibrillation, and headaches.

Listing 1.00 (musculoskeletal s ystem), Li sting 3.00 (respirator y system), and Listing 4.00 (cardiovascular system) were considered in light of the objective evidence. The objective medical records establish s evere physical impairments; however, these records do not meet the intent and severity requirements of a listing, or its equivalent. Accordingly, the Claimant can not be found disabled, or not disabled, at Step 3.

Before considering the fourth step in the sequential analysis, a determination of the individual's residual functional capacity ("Recording FC") is made. 20 CFR 416.945. An individual's RFC is the most he/she canestill do on a sustained base is despite the limitations from the impairment(s). *Id.* The total limiting effects of all the impairments, to include those that are not severe, are considered. 20 CFR 416.945(e).

To determine the physical demands (exertional requirements) of work in the national economy, jobs are c lassified as sedentary, light, medium, heavy, and very heavy. 2 0 CFR 416.967. Sedentary work involves lifting of no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. 20 CFR 416.967(a). Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Id. Jobs equired occasionally and other sedentary are sedentary if walking and standing are r criteria are met. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying objects weighing up to 10 pounds. 20 CFR 416.967(b). Even though weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it invo Ives sit ting most of the time with some pushing and pulling of arm or leg controls. Id. To be considered capable of performing a full or wide range of light work, an individual must have the ability to do substantially all of these activities. Id. A n individual capable of light work is also capable of sedentary work, unless there are additionally limiting factors such as loss of fin dexterity or inability to sit for long periods of time. *Id*. Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. 20 CFR 416.967(c). An individual capable of performing medium work is also capable of light and sedentary work. *Id.* Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of object s weighing up to 50 pounds. 20 CFR 416.967(d). A n individual capable of heavy work is also c apable of medium, light, and sedentary work. *Id.* Finally, very heavy work involves lifting objects weighing more than 100 pounds at a time with frequent lifting or carrying objects weighing 50 pounds or more. 20 CFR 416.967(e). An individual capable of very heavy work is able to perform work under all categories. Id.

Limitations or restrictions which affect the ability to meet the demands of jobs other than strength demands (exertional r equirements, i.e. sitting, standing, walk ing, lifting, carrying, pushing, or pulling) are consider ed nonexertional. 20 CFR 416.969a(a). In considering whether an individual can perform past relevant work, a comparis on of the individual's residual functional c apacity with the demands of past relevant work. an individual can no longer do past relevant work the same residual functional capacity assessment along with an individual's a ge, education, and work experience is considered to determine whether an individual can adjust to other work which exists in the national economy. Id. Examples of non-exertional limitations or restrictions include difficulty to function due to nervousness. anxiousness, or depression; difficulty maintaining attention or concentration; difficulty understanding or remembering detailed instructions; difficulty in seeing or hearing; difficulty tolerating so me physical feature(s) of certain work settings (i.e. ca n't tolerate dust or fumes); or di fficulty performing the manipulative or postur al functions of some work such as reaching, handling, stooping, climbing, crawling, or crouching. 20 CFR 4 16.969a(c)(1)(i) – (vi). If the imp airment(s) and related symptoms, such as pain, only affect the ability to perform the non-exertional aspects of work-related activities, the rules in Appendix 2 do not direct factual conclusions of disabled or not disabled. 20 CFR 416.969a(c)(2). The determination of whether disability exists is bas ed upon the principles in the appropriate sections of the regulations, giving consideration to the rules fo r specific case situat ions in Appendix 2. ld.

In this cas e, the Claimant alleged dis ability based on leg pain, myocardial infarction status post catheterization and ventricular fibrillation. So ubsequent to the procedures, the Claimant's echocardiogram was abnormal. The Heart Classification confirmed the Claimant's marked limitations in less than sedentary physica. I activity. The Claimant testified that she can walk so hort distances; grip/grasp without is sue; sit for less than 2 hours; lift/carry less than 10 pounds; stand less than 2 hours; and is able to bend but unable to squat. After review of the entire record to include the Claimant's testimony, it is found that, at this time, the Claimant is unable to maintain the physical and mental demands of even sedentary work as defined by 20 CFR 416.967(a).

The fourth step in analyzing a dis ability claim requires an assessment of the Claimant's residual f unctional capacity ("RFC") and past relevant employment. 20 CF R 416.920(a)(4)(iv). An individual is not disabled if he/she can perform past relevant work. *Id.*; 20 CFR 416.960(b)(3). Past relevant work is work that has been performed within the past 15 years that was a substantial gainful activity and that lasted long enough for the individual to learn the position. 20 CFR 416.960(b)(1). Vocational fact ors of age, education, and work experience, and whether the past relevant employment exists in significant numbers in the national economy is not considered. 20 CFR 416.960(b)(3).

The Claimant's prior work history consists of work library (semi-skilled sedentary); as a file clerk (semi-skilled, light), and transaction coordinator (semi-skilled, light). If the impairment or combination of impairments does not limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. 20 CFR 416.920. In light of the entire record and the Claimant's RFC (see above), it is found that the Claimant is unable to perform past relevant work.

In Step 5, an assessment of the individua I's residual functional capace ity and age, education, and work experience is consider ed to determine whet her an adjustment to other work can be made. 20 CFR 416.920(4)(v). At the time of hearing, the Claimant years old thus consider ed to be of advanced age for MA-P purpo Claimant is a high school graduate with som e vocational training. Disability is found if an individual is unable to adjust to other work. Id. At this po int in the analysis, the burden shifts from the Claimant to the Depart ment to present proof that the Claimant I gainful employment. 20 CFR 416.960(2); has the residual capacity to substantia Richardson v Sec of Health and Human Services , 735 F2d 962, 964 (CA 6, 1984). While a vocational expert is not required, a finding supported by substantial evidence that the individual has the vo cational qualifications to perform specific jobs is needed to meet the burden. O'Banner v Sec of Heal th and Hum an Services, 587 F 2d 321, 323 (CA 6, 1978). Medical-Vocational guide lines found at 20 CF R Subpart P, Appendix II, may be used to satisfy the burden of provi ng that the individual can perform specific jobs in the national economy. Heckler v Campbell, 461 US 458, 467 (1983); Secretary, 667 F2d 524, 529 (CA 6, 1981) cert den 461 US 957 (1983). In order to find transferability of skills to skilled sedentary work for individuals who are of advanced age (55 and over), there must be very little, if any, vocational adjustment required in terms of tools, work processes, work settings, or the industry. Individuals of advanced age found to be significantly affected in their ability to adjust to other work. 20 CFR 416.963(e).

In this case, the objective findings reveal t hat the Claimant suffers from coronary artery disease status post stent pl acements and ventricular fibrillation; arterisclerotic heart disease, hyperlipidemia, fatigue, and arm pain. The Claimant is limited to the equivalent of less than sedentary activity. After review of the entire record, and in consideration of the Claimant's age, education, work experien ce, and RFC, it is fo und that the Claimant is disabled for purposes of the MA-P program at Step 5.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law finds the Claimant disabled for purposes of the MA-P benefit program.

Accordingly, It is ORDERED:

1. The Department's determination is REVERSED.

- The Department shall in itiate processing of the June 8, 2011 application, retroactive to March 2011, and notify the Claimant and her Authorized Hearing Representative of the determination in accordance with department policy.
- 3. The Department shall supplement for lo st benefits (if any) that the Claimant was entitled to receiv e if otherwise elig ible and qualified in acc ordance with department policy.
- 4. The Depar tment shall review the Clai mant's continued eligibility in March 2013 in accordance with department policy.

Colleen M. Mamelka Administrative Law Judge For Maura Corrigan, Director Department of Human Services

Date Signed: February 27, 2012

Date Mailed: February 27, 2012

NOTICE: Michigan Administrative Hearing Syst em (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a par ty within 30 days of the mailing date of this Dec ision and Order. MAHS will not order a rehearing or reconsideration on the Department's mo tion where the final decis ion cannot be implemented within 90 days of the filing of the original request. (60 days for FAP cases)

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing <u>MAY</u> be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:

- misapplication of manual policy or law in the hearing decision,
 typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
- the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at Michigan Administrative Hearings
