ISSUE

Was disability, as defined below, medically established?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Claimant's MA-P application on June 6, 2011 and SDA application on November 16, 2011 were denied on January 23, 2012 per BEM 260/261, with a hearing request on January 27, 2012.
2. Claimant was 50, with an 11th grade education, and history of unskilled/semi-skilled/skilled work.
3. Claimant last worked on September 9, 2010 and became an unemployment compensation benefit (UCB) recipient with exhaustion on December 23, 2010.
4. Claimant alleges disability due to a combination of multiple medically diagnosed mental/physical impairments.
5. Medical exam on November 29, 2010, states the claimant's GAF score of 60 (Medical Packet, Page 102).

6. Medical exam on September 29, 2011, states the claimant's hands are free of atrophy, swelling, or deformity; that fine and gross dexterity are intact, and sensory is full; that the spine is unremarkable and the lower extremities appear normal as well; that she moves about the clinic normally with stable stance and gait; that she has good strength walking on heels and toes but was moderately unstable on tandem gait; that she was alert and oriented x3, maintained good eye contact, and did not exhibit overt sad or anxious behaviors (Medical Packet, Page 4).

CONCLUSIONS OF LAW

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (BAM), the Program Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (BAM), the Program Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Facts above are undisputed.

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

The claimant has the burden of proof to establish disability as defined above by the preponderance of the evidence of record and in accordance with the 5 step process below. 20 CFR 416.920(a).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

Disability is not denied at Step 1. The evidence of record establishes that the claimant has not been engaged in substantial gainful work since September 2009/2010.

Disability is denied at Step 2. The medical evidence of record does not establish the claimant's significant inability to perform basic work activities due to a combination of severe mental/physical impairments for a one year continuous duration, as defined below.

Severe/Non-Severe Impairment

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not

have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

Basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;
3. Understanding, carrying out, and remembering simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers and usual work situations; and
6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

The question is whether the claimant's combination of medically diagnosed mental/physical disorders is non-severe or severe, as defined above. Said in another way, do combination of claimant's diagnosed mental/physical disorders impair claimant slightly, mildly, moderately (non-severe impairment, as defined above) or severely, as defined above?

The medical evidence of record established the claimant's GAF score of 60 in November 2010. This is considered a mild or non-severe mental impairment with occupational-functioning. DSM-IV (4th edition-revised).

The medical reports of record are diagnostic and treatment reports, and do not provide medical assessments of claimant's mental/physical limitations relative to inability to perform basic work activities, as defined above. 20 CFR 416.913(c)(1) and (2).

The medical evidence of record established a combination of non-severe impairments. Therefore, a combination of severe physical impairments meeting the one year continuous duration requirement has not been established.

The department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability criteria for State Disability Assistance benefits either.

Therefore, disability has not been established at Step 2 by the competent, material and substantial evidence on the whole record.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that disability was not medically established.

Accordingly, Medicaid/SDA denial is **UPHELD**.
